(a) State organization.

In order for a State to be eligible to participate in the programs of grants to States from allotments under section 3023 and section 3026 of this title—

(1) the State shall, in accordance with regulations of the Commissioner, designate a State agency as the sole State agency (hereinafter in this subchapter referred to as "the State agency") to: (A) develop the State plan to be submitted to the Commissioner for approval under section 3025 of this title, (B) administer the State plan within such State, (C) be primarily responsible for the coordination of all State activities related to the purposes of this chapter, (D) review and comment on, at the request of any Federal department or agency, any application from any agency or organization within such State to such Federal department or agency for assistance related to meeting the needs of older persons; and (E) divide the entire State into distinct areas (hereinafter in this subchapter referred to as "planning and service areas"), in accordance with regulations of the Commissioner, after considering the geographical distribution of individuals aged sixty and older in the State, the incidence of the need for social services (including the numbers of older persons with low incomes residing in such areas), the distribution of resources available to provide such services, the boundaries of existing areas within the State which were drawn for the planning or administration of social services programs, the location of units of general purpose local government within the State, and any other relevant factors: *Provided*, That any unit of general purpose local government which has a population aged sixty or over of fifty thousand or more or which contains 15 per centum or more of the State's population aged sixty or over shall be designated as a planning and service area; except that the State may designate as a planning and service area, any region within the State recognized for purposes of areawide planning which includes one or more such units of general purpose local government when the State determines that the designation of such a regional planning and service area is necessary for, and will enhance, the effective administration of the programs authorized by this subchapter, the State may include in any planning and service area designated pursuant to this provision such additional areas adjacent to the unit of general purpose local government or region so designated as the State determines to be necessary for, and will enhance, the effective administration of the programs authorized by this subchapter, and

(2) the State agency designated pursuant to paragraph (1) shall—

(A) determine for which planning and service areas an area plan will be developed, in accordance with subsection (c) of this section, and for each such area designate, after consideration of the views offered by the unit or units of general purpose local government in such area, a public or nonprofit private agency or organization as the area agency on aging for such area; and

(B) provide assurances, satisfactory to the Commissioner that the State agency will take into account, in connection with matters of general policy arising in the development and administration of the State plan for any fiscal year, the views of recipients of social services provided under such plan.

(b) Area organization.

An area agency on aging designated under subsection (a) of this section must be—

(1) an established office of aging which is operating within a planning and service area designated pursuant to subsection (a) of this section, or

(2) any office or agency of a unit of general purpose local government, which is designated for this purpose by the chief elected official or officials of such unit, or

(3) any office or agency designated by the chief elected official or officials of a combination of units of general purpose local government to act on behalf of such combination for this purpose, or

(4) any public or nonprofit private agency in a planning and service area which is under the supervision or direction for this purpose of the designated State agency and which can engage in the planning or provision of a broad range of social services within such planning and service area,

and must provide assurance, found adequate by the State agency, that it will have the ability to develop an area plan and to carry out, directly or through contractual or other arrangements, a program pursuant to the plan within the planning and service area. In designating an area agency on aging, the State agency shall give preference to an established office on aging, unless the State agency finds that no such office within the planning and service area will have the capacity to carry out the area plan.

(c) Area plans.

In order to be approved by the State agency, an area plan for a planning and service area shall be developed by the area agency on aging designated with respect to such area under subsection (a) of this section and shall—

(1) provide for the establishment of a comprehensive and coordinated system for the delivery of social services within the planning and service area covered by the plan, including determining the need for social services in such area (taking into consideration, among other things, the numbers of older persons with low incomes residing in such area), evaluating the effectiveness of the use

of resources in meeting such need, and entering into agreements with providers of social services in such area, for the provision of such services to meet such need;

(2) in accordance with criteria established by the Commissioner by regulation relating to priorities, and consistent with the provisions of the State plan relating to the services required to be provided under section 3025(a)(10) of this title, provide for the initiation, expansion, or improvement of social services in the planning and service area covered by the area plan;

(3) provide for the establishment or maintenance of information and referral sources in sufficient numbers to assure that all older persons within the planning and service area covered by the plan will have reasonably convenient access to such sources. For purposes of this section and section 3025(a)(7) of this title, an information and referral source is a location where the State or other public or private agency or organization (A) maintains current information with respect to the opportunities and services available to older persons, and develops current lists of older persons in need of services and opportunities, and (B) employs a specially trained staff to inform older persons of the opportunities and services which are available, and assists such persons to take advantage of such opportunities and services; and

(4) provide that the area agency on aging will—

(A) conduct periodic evaluations of activities carried out pursuant to the area plan;

(B) render appropriate technical assistance to providers of social services in the planning and service area covered by the area plan;

(C) take into account, in connection with matters of general policy arising in the development and administration of the area plan, the views of recipients of services under such plan;

(D) where possible, enter into arrangements with organizations providing day care services for children so as to provide opportunities for older persons to aid or assist, on a voluntary basis, in the delivery of such services to children; and

(E) establish an advisory council, consisting of representatives of the target population and the general public, to advise the area agency on all matters relating to the administration of the plan and operations conducted thereunder.

(d) Transportation services; funds.

(1) Subject to regulations prescribed by the Secretary of Health, Education, and Welfare, an area agency on aging designated under subsection (a) of this section or, in areas of a State where no such agency has been designated, the State agency, is authorized to enter into agreements with agencies administering programs under the Rehabilitation Act of 1973, and titles VI, XIX, and XX of the Social Security Act for the purpose of developing and implementing plans for meeting the common need for transportation services of persons receiving benefits under such Acts and older persons participating in programs authorized by this subchapter and subchapter VII of this chapter.

(2) Pursuant to an agreement entered into under paragraph (1), funds appropriated under this subchapter and subchapter VII of this chapter may be used to purchase transportation services for older persons and may be pooled with funds made available for the provision of transportation services under the Rehabilitation Act of 1973, and titles VI, XIX, and XX of the Social Security Act. § 3025. State plans.

(a) Criteria for eligibility; contents.

In order for a State to be eligible for grants for a fiscal year from its allotments under section 3023 and section 3026, except as provided in section 3027 (a) of this title, it shall submit to the Commissioner a State plan for such year which meets such criteria as the Commissioner may prescribe by regulation and which—

(1) provides that the State agency will evaluate the need for social services within the State and determine the extent to which existing public or private programs meet such need;

(2) provides for the use of such methods of administration (including methods relating to the establishment and maintenance of personnel standards on a merit basis, except that the Commissioner shall exercise no authority with respect to the selection, tenure of office, or compensation of an individual employed in accordance with such methods) as are necessary for the proper and efficient administration of the plan;

(3) provides that the State agency will make such reports, in such form, and containing such information, as the Commissioner may from time to time require, and comply with such requirements as the Commissioner may impose to assure the correctness of such reports;

(4) provides that the State agency will conduct periodic evaluations of activities and projects carried out under the State plan;

(5) establishes objectives, consistent with the purposes of this subchapter, toward which activities under the plan will be directed, identifies obstacles to the attainment of those objectives, and indicates how it proposes to overcome those obstacles;

(6) provides that each area agency on aging designated pursuant to section 3024(a)(2)(A) of this title will develop and submit to the State agency for approval an area plan which complies with section 3024(c) of this title;

(7) provides for establishing or maintaining information and referral sources in sufficient numbers to assure that all older persons in the State who are not furnished adequate information and referral sources under section 3024(c)(3) of this title will have reasonably convenient access to such sources;

(8) provides that no social service will be directly provided by the State agency or an area agency on aging, except where, in the judgment of the State agency, provision of such service by the State agency or an area agency on aging is necessary to assure an adequate supply of such service;

(9) provides that subject to the requirements of merit employment systems of State and local governments, preference shall be given to persons aged sixty or over for any staff position (full time or part time) in State and area agencies for which such persons qualify; and

(10) provides assurances in such form as the Commissioner shall prescribe that of the funds alloted[1] to the State under section 3023(b) of this title in any fiscal year to carry out the State plan, not less than 50 per centum of the amount by which such allotment exceeds the allotment made for the same purpose in the fiscal year ending June 30, 1975, shall be used for the purposes set forth in subsection (b) of this section, except with respect to any State which provides assurances found satisfactory by the Commissioner that at least 33⅓ per centum of the total amount allotted to the State under section 3023(b) of this title to carry out the State plan in any fiscal year shall be used for the purposes set forth in subsection (b) of this section, but in no case shall less than 20 per centum of the funds allotted to any State under section 3023(b) of this title to carry out the State plan in any fiscal year beginning after September 30, 1976, be used for the purposes set forth in subsection (b) of this section.

(b) National priority services.

Every State plan shall provide for the establishment or maintenance of programs (including related training) for the provision of some or all of the following services designed to assist older persons in leading independent lives and avoiding unnecessary institutionalization:

(1) Transportation services.

(2) Home services, including homemaker services, home health services, shopping services, escort services, reader services, letter writing services, and other services designed to assist such persons to continue living independently in a home environment.

(3) Legal and other counseling services and assistance programs, including tax counseling and assistance and financial counseling, for older persons.

(4) Residential repair and renovation programs designed to enable older persons to maintain their homes in conformity with minimum housing standards or to adapt homes to meet the needs of elderly persons suffering from physical disabilities.

(c) Approval by Commissioner.

The Commissioner shall approve any State plan which he finds fulfills the requirements of subsection (a) of this section.

(d) Notice and hearing prior to disapproval.

The Commissioner shall not make a final determination disapproving any State plan, or any modification thereof, or make a final determination that a State is ineligible under section 3024 of this title, without first affording the State reasonable notice and opportunity for a hearing.

(e) Ineligibility and noncompliance; cancellation of payments; disbursements of withheld funds to agencies with approved plans; matching funds.

Whenever the Commissioner, after reasonable notice and opportunity for hearing to the State agency, finds that—

(1) the State is not eligible under section 3024 of this title,

(2) the State plan has been so changed that it no longer complies with the provisions of subsection (a) of this section, or

(3) in the administration of the plan there is a failure to comply substantially with any such provision of subsection (a) of this section,

the Commissioner shall notify such State agency that no further payments from its allotments under section 3023 and section 3026 of this title will be made to the State (or, in his discretion, that further payments to the State will be limited to projects under or portions of the State plan not affected by such failure), until he is satisfied that there will no longer be any failure to comply. Until he is so satisfied, no further payments shall be made to such State from its allotments under section 3023 and section 3026 of this title (or payments shall be limited to projects under or portions of the State plan

not affected by such failure). The Commissioner shall, in accordance with regulations he shall prescribe, disburse the funds so withheld directly to any public or nonprofit private organization or agency or political subdivision of such State submitting an approved plan in accordance with the provisions of section 3024 and section 3026 of this title. Any such payment or payments shall be matched in the proportions specified in sections 3023 and 3026 of this title.

(f) Appeals; petitions; records; jurisdiction of courts of appeals; conclusiveness of findings; review by Supreme Court; stay of administrative action.

A State which is dissatisfied with a final action of the Commissioner under subsection (b), (c), or (d) of this section may appeal to the United States court of appeals for the circuit in which the State is located, by filing a petition with such court within sixty days after such final action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Commissioner, or any officer designated by him for that purpose. The Commissioner thereupon shall file in the court the record of the proceedings on which he based his action, as provided in section 2112 of Title 28. Upon the filing of such petition, the court shall have jurisdiction to affirm the action of the Commissioner or to set it aside, in whole or in part, temporarily or permanently, but until the filing of the record, the Commissioner may modify or set aside his order. The findings of the Commissioner as to the facts, if supported by substantial evidence, shall be conclusive, but the court, for good cause shown, may remand the case to the Commissioner to take further evidence, and the Commissioner may thereupon make new or modified findings of fact and may modify his previous action, and shall file in the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence. The judgment of the court affirming or setting aside, in whole or in part, any action of the Commissioner shall be final, subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of Title 28. The commencement of proceedings under this subsection shall not, unless so specifically ordered by the court, operate as a stay of the Commissioner's action. (Pub. SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 3014, 3023, 3024, 3026, 3027, 3029, 3045d of this title.

§ 3026. Planning, coordination, evaluation, and administration of State plans.

(a) Grants; percentage limitation; description of activities; duplication of payments.

(1) Amounts appropriated as authorized by section 3023 of this title may be used to make grants to States for paying such percentages as each State agency determines, but not more than 75 per centum, of the cost of the administration of its State plan, including the preparation of the State plan, the evaluation of activities carried out under such plan, the collection of data and the carrying out of analyses related to the need for social services within the State, the dissemination of information so obtained, the provision of short-term training to personnel of public or nonprofit private agencies and organizations engaged in the operation of programs authorized by this chapter, and the carrying out of demonstration projects of statewide significance relating to the initiation, expansion, or improvement of social service.

(2) Any sums allotted to a State under this section for covering part of the cost of the administration of its State plan which the State determines is not needed for such purpose may be used by such State to supplement the amount available under section 3023(e)(1) of this title to cover part of the cost of the administration of area plans.

(3) Any State which has designated a single planning and service area pursuant to section 3024(a)(1)(E) of this title covering all, or substantially all, of the older persons in such State, as determined by the Commissioner, may elect to pay part of the costs of the administration of State and area plans either out of sums allotted under this section or out of sums made available for the administration of area plans pursuant to section 3023(e)(1) of this title, but shall not pay such costs out of sums allotted under both such sections.

(b) Allotments to States; amount.

(1) From the sums appropriated for any fiscal year under section 3023 of this title for carrying out the purposes of this section, each State shall be allotted an amount which bears the same ratio to such sum as the population aged sixty or over in such State bears to the population aged sixty or over in all States, except that (A) no State shall be allotted less than one-half of 1 per centum of the sum appropriated for the fiscal year for which the determination is made, or $200,000, whichever is greater, and (B) Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands shall each be allotted no less than one-fourth of 1 per centum of the sum appropriated for

the fiscal year for which the determination is made, or $62,500, whichever is greater. For the purpose of the exception contained in clause (A) of this paragraph, the term "State" does not include Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands.

(2)(A) Any State which desires to receive amounts, in addition to amounts allotted to such State under paragraph (1), to be used in the administration of its State plan in accordance with subsection (a) of this section may transmit an application to the Commissioner in accordance with this paragraph. Any such application shall be transmitted in such form, and according to such procedures, as the Commissioner may require, except that such application may not be made as part of, or as an amendment to, the State plan.

(B) The Commissioner may approve any application transmitted by a State under subparagraph (A) if the Commissioner determines, based upon a particularized showing of need, that—

(i) such State will be unable to fully and effectively administer its State plan and to carry out programs and projects authorized by this subchapter and by subchapter VII of this chapter unless such additional amounts are made available by the Commissioner;

(ii) such State is making full and effective use of its allotment under paragraph (1) and of the personnel of the State agency and area agencies designated under section 3025 of this title in the administration of its State plan in accordance with subsection (a) of this section; and

(iii) the State agency and area agencies of such State designated under section 3025 of this title are carrying out, on a full-time basis, programs and activities which are in furtherance of the purposes of this chapter.

(C) The Commissioner may approve that portion of the amount requested by a State in its application under subparagraph (A) which he determines has been justified in such application.

(D) Amounts which any State may receive in any fiscal year under this paragraph may not exceed three-fourths of 1 per centum of the sum of the amounts allotted to such State to carry out the State plan under section 3023(b) of this title and section 3045b(a) of this title for such fiscal year.

(E) No application by a State under subparagraph (A) shall be approved unless it contains assurances that no amounts received by such State under this paragraph will be used to hire any person to fill a job opening created by the action of such State in laying off or terminating the employment of any regular employee not supported under this chapter in anticipation of filling the vacancy so created by hiring an employee to be supported through use of amounts received under this paragraph.

(3) Each State shall be entitled to an allotment under this section for any fiscal year in an amount which is not less than the amount of the allotment to which such State was entitled under paragraph (1) for the fiscal year ending June 30, 1975.

(4) The number of persons aged sixty or over in any State and in all States shall be determined by the Commissioner on the basis of the most recent satisfactory data available to him.

(c) Reallotments to other States.

The amounts of any State's allotment under subsection (b) of this section for any fiscal year which the Commissioner determines will not be required for that year shall be reallotted, from time to time and on such dates during such year as the Commissioner may fix, to other States in proportion to the original allotments to such States under subsection (b) of this section for that year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum the Commissioner estimates such State needs and will be able to use for such year; and the total of such reductions shall be similarly reallotted among the States whose proportionate amounts were not so reduced. Such reallotments shall be made on the basis of the State plan so approved, after taking into consideration the population aged sixty or over. Any amount reallotted to a State under this subsection during a year shall be deemed part of its allotment under subsection (b) of this section for that year.

(d) Fiscal year availability of allotment.

The allotment of a State under this section for the fiscal year ending June 30, 1973, shall remain available until the close of the following fiscal year. (Pub. L. 89–73, title III, § 306, as added Pub. L. 93–29, title III, § 301, May 3, 1973, 87 Stat. 43, and amended Pub. L. 94–135, title I, § 107, Nov. 28, 1975, 89 Stat. 716.)

Payments of grants or contracts under this subchapter may be made (after necessary adjustments on account of previously made overpayments or underpayments) in advance or by way of reimbursement, and in such installments, as the Commissioner may determine. From a State's allotment for a fiscal year which is available pursuant to section 3026 of this title the Commissioner may pay to a State which does not have a State plan approved under section 3025 of this title such amounts as he deems appropriate for the purpose of assisting such State in developing a State plan. From a State's allotment for

a fiscal year which is available pursuant to section 3023 of this title, the Commissioner may, during the period ending one year after May 3, 1973, pay, in accordance with such regulations as he may prescribe, to a State which does not have a State plan approved under section 3025 of this title, such amounts as he deems appropriate for the purpose of continuing Federal financial assistance for activities assisted under the plan of such State approved under section 3023 of this title prior to May 3, 1973.

(b) Matching funds; percentage limitation.

Beginning with the fiscal year ending June 30, 1975, not less than 25 per centum of the non-Federal share (pursuant to section 3023(e) of this title) of the total expenditures under the State plan shall be met from funds from State or local public sources.

(c) Reduction of State's allotment for area planning and social service programs.

A State's allotment under section 3023 of this title for a fiscal year shall be reduced by the percentage (if any) by which its expenditures for such year from State sources under its State plan approved under section 3025 of this title are less than its expenditures from such sources for the preceding fiscal year. The Secretary of Labor shall have, with respect to the labor standards specified in this paragraph, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950, and section 276c of Title 40.

(b) In making grants or contracts under this part, the Commissioner shall—

§ 3041e. Mortgage insurance for Multipurpose Senior Centers.

(a) Statement of purpose.

It is the purpose of this section to assist and encourage the provision of urgently needed facilities for programs for the elderly.

(b) Definitions.

For the purpose of this part the terms "mortgage", "mortgagor", "mortgagee", "maturity date", and "State" shall have the meanings respectively set forth in section 1713 of Title 12.

(c) Terms and conditions of mortgage insurance; commencement of commitments.

The Secretary of Health, Education, and Welfare is authorized to insure any mortgage (including advances on such mortgage during acquisition, alteration, or renovation) in accordance with the provisions of this section upon such terms and conditions as he may prescribe and make commitments for insurance of such mortgage prior to the date of its execution or disbursement thereon.

(d) New multipurpose senior center coverage; conditions of mortgage insurance; limitation of amount.

In order to carry out the purpose of this section, the Secretary is authorized to insure any mortgage which covers a new multipurpose senior center, including equipment to be used in its operation, subject to the following conditions:

(1) The mortgage shall be executed by a mortgagor, approved by the Secretary, who demonstrates ability successfully to operate one or more programs for the elderly. The Secretary may in his discretion require any such mortgagor to be regulated or restricted as to minimum charges and methods of financing, and, in addition thereto, if the mortgagor is a corporate entity, as to capital structure and rate of return. As an aid to the regulation or restriction of any mortgagor with respect to any of the foregoing matters, the Secretary may make such contracts with and acquire for not to exceed $100 such stock interest in such mortgagor as he may deem necessary. Any stock or interest so purchased shall be paid for out of the Multipurpose Senior Center Insurance Fund, and shall be redeemed by the mortgagor at par upon the termination of all obligations of the Secretary under the insurance.

(2) The mortgage shall involve a principal obligation in an amount not to exceed $250,000 and not to exceed 90 per centum of the estimated replacement cost of the property or project, including equipment to be used in the operation of the multipurpose senior center, when the proposed improvements are completed and the equipment is installed.

(3) The mortgage shall—

(A) provide for complete amortization by periodic payments within such term as the Secretary shall prescribe, and

(B) bear interest (exclusive of premium charges for insurance and service charges, if any) at not to exceed such per centum per annum on the principal obligation outstanding at anytime as the Secretary finds necessary to meet the mortgage market.

(4) The Secretary shall not insure any mortgage under this section unless he has determined that the center to be covered by the mortgage will be in compliance with minimum standards to be prescribed by the Secretary.

(5) In the plans for such Multipurpose Senior Center, due consideration shall be given to excellence of architecture and design, and to the inclusion of works of art (not representing more than 1 per centum of the cost of the project).

(e) Premium charges: annual advance payments, limitation; appraisal and inspection charges, limitation.

The Secretary shall fix and collect premium charges for the insurance of mortgages under this section which shall be payable annually in advance by the mortgagee, either in cash or in debentures of the Multipurpose Senior Center Insurance Fund (established by subsection (h) of this section) issued at par plus accrued interest. In the case of any mortgage such charge shall be not less than an amount equivalent to one-fourth of 1 per centum per annum nor more than an amount equivalent to 1 per centum per annum of the amount of the principal obligation of the mortgage outstanding at

any one time, without taking into account delinquent payments or prepayments. In addition to the premium charge herein provided for, the Secretary is authorized to charge and collect such amounts as he may deem reasonable for the appraisal of a property or project during acquisition, alteration, or renovation; but such charges for appraisal and inspection shall not aggregate more than 1 per centum of the original principal face amount of the mortgage.

(f) Releases from mortgage liens; terms and conditions.

The Secretary may consent to the release of a part or parts of the mortgaged property or project from the lien of any mortgage insured under this section upon such terms and conditions as he may prescribe.

(g) Functions, powers, and duties of Secretary; National Housing Act applicable and references construed.

(1) The Secretary shall have the same functions, powers, and duties (insofar as applicable) with respect to the insurance of mortgages under this section as the Secretary of Housing and Urban Development has with respect to the insurance of mortgages under title II of the National Housing Act.

(2) The provisions of subsections (e), (g), (h), (i), (j), (k), (l), and (n) of section 1713 of Title 12 shall apply to mortgages insured under this section; except that, for the purposes of their application with respect to such mortgages, all references in such provisions to the General Insurance Fund shall be deemed to refer to the Multipurpose Senior Center Insurance Fund, and all references in such provisions to "Secretary" shall be deemed to refer to the Secretary of Health, Education, and Welfare.

(h) Multipurpose Senior Center Insurance Fund; establishment; revolving fund; general expenses of insurance operations; deposits in Treasury; investments; open market purchases and cancellation of debentures; credits and charges; authorization of appropriations.

(1) There is hereby created a Multipurpose Senior Center Insurance Fund which shall be used by the Secretary as a revolving fund for carrying out all of the insurance provisions of this section. All mortgages insured under this section shall be insured under and be the obligation of the Multipurpose Senior Center Insurance Fund.

(2) The general expenses of the operations of the Department of Health, Education, and Welfare relating to mortgages insured under this section may be charged to the Multipurpose Senior Center Insurance Fund.

(3) Moneys in the Multipurpose Senior Center Insurance Fund not needed for the current operations of the Department of Health, Education, and Welfare with respect to mortgages insured under this section shall be deposited with the Treasurer of the United States to the credit of such fund, or invested in bonds or other obligations of, or in bonds or other obligations guaranteed as to principal and interest by, the United States. The Secretary may, with the approval of the Secretary of the Treasury, purchase in the open market debentures issued as obligations of the Multipurpose Senior Center Insurance Fund. Such purchases shall be made at a price which will provide an investment yield of not less than the yield obtainable from other investments authorized by this section. Debentures so purchased shall be canceled and not reissued.

(4) Premium charges, adjusted premium charges, and appraisal and other fees received on account of the insurance of any mortgage under this section, the receipts derived from property covered by such mortgages and from any claims, debts, contracts, property, and security assigned to the Secretary in connection therewith, and all earnings as the assets of the fund, shall be credited to the Multipurpose Senior Center Insurance Fund. The principal of, and interest paid and to be paid on, debentures which are the obligation of such fund, cash insurance payments and adjustments, and expenses incurred in the handling, management, renovation, and disposal of properties acquired, in connection with mortgages insured under this section, shall be charged to such fund.

(5) There are authorized to be appropriated to provide initial capital for the Multipurpose Senior Center Insurance Fund, and to assure the soundness of such fund thereafter, such sums as may be necessary (Pub. L. 89–73, title V, § 506, as added Pub. L. 93–29, title V, § 501, May 3, 1973, 87 Stat. 51.)

PART B.—INITIAL STAFFING OF MULTIPURPOSE SENIOR CENTERS

§ 3042. Personnel staffing grant program.

(a) Authority of Commissioner.

For the purpose of assisting in the establishment and initial operation of multipurpose senior centers the Commissioner may, in accordance with the provisions of this part, make grants to meet, for the temporary periods specified in this part, all or part of the costs of compensation of professional and technical personnel for the initial operation of new multipurpose senior centers and for the delivery of social services established therein.

(b) Term of grants; limitation of amount.

SUBCHAPTER VII.—NUTRITION PROGRAM FOR THE ELDERLY [NEW]

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 1762a, 3024, 3026, 3029 of this title.

§ 3045. Congressional findings and declaration of purpose.

(a) The Congress finds that the research and development nutrition projects for the elderly conducted under subchapter IV of this chapter have demonstrated the effectiveness of, and the need for, permanent nationwide projects to assist in meeting the nutritional and social needs of millions of persons aged sixty or older. Many elderly persons do not eat adequately because (1) they cannot afford to do so; (2) they lack the skills to select and prepare

nourishing and well-balanced meals; (3) they have limited mobility which may impair their capacity to shop and cook for themselves; and (4) they have feelings of rejection and loneliness which obliterate the incentive necessary to prepare and eat a meal alone. These and other physiological, psychological, social, and economic changes that occur with aging result in a pattern of living, which causes malnutrition and further physical and mental deterioration.

(b) In addition to the food stamp program, commodity distribution systems and old-age income benefits, there is an acute need for a national policy which provides older Americans, particularly those with low incomes, with low cost, nutritionally sound meals served in strategically located centers such as schools, churches, community centers, senior citizen centers, and other public or private nonprofit institutions where they can obtain other social and rehabilitative services. Besides promoting better health among the older segment of our population through improved nutrition, such a program would reduce the isolation of old age, offering older Americans an opportunity to live their remaining years in dignity. (Pub. L. 89–73, title VII, § 701, as added Pub. L. 92–258, § 2, Mar. 22, 1972, 86 Stat. 88.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 3045e of this title.

§ 3045a. Administration.

(a) In order to effectively carry out the purposes of this subchapter, the Commissioner shall—

(1) administer the program through the Administration on Aging; and

(2) consult with the Secretary of Agriculture and make full utilization of the Food and Nutrition Service, and other existing services of the Department of Agriculture.

(b) In carrying out the provisions of this subchapter, the Commissioner is authorized to request the technical assistance and cooperation of the Department of Labor, the Office of Economic Opportunity, the Department of Housing and Urban Development, the Department of Transportation, and such other departments and agencies of the Federal Government as may be appropriate.

(c) The Commissioner is authorized to use, with their consent, the services, equipment, personnel, and facilities of Federal and other agencies with or without reimbursement and on a similar basis to cooperate with other public and private agencies and instrumentalities in the use of services, equipment, personnel, and facilities.

(d) In carrying out the purposes of this subchapter, the Commissioner is authorized to provide consultative services and technical assistance to any public or private nonprofit institution or organization, agency, or political subdivision of a State; to provide short-term training and technical instruction; and to collect, prepare, publish, and disseminate special educational or informational materials, including reports of the projects for which funds are provided under this subchapter. (Pub. L. 89–73, title VII, § 702, as added Pub. L. 92–258, § 2, Mar. 22, 1972, 86 Stat. 89, and amended Pub. L. 93–29, title VII, § 704(c), May 3, 1973, 87 Stat. 57.)

AMENDMENTS

1973—Pub. L. 93–29 substituted, wherever appearing in subsecs. (a)–(d), "Commissioner" for "Secretary" when meaning the Secretary of Health, Education, and Welfare.

COMMUNITY SERVICES ADMINISTRATION

Pub. L. 93–644, § 9(a), Jan. 4, 1975, 88 Stat. 2310, amended the Economic Opportunity Act of 1964 to create the Community Services Administration as the successor authority to the Office of Economic Opportunity. For all references to the Office of Economic Opportunity or to the Director of the Office of Economic Opportunity in statutes, reorganization plans, executive orders, regulations, or other official documents or proceedings to be deemed, on or after Jan. 4, 1975, to refer to the Community Services Administration, or to the Director thereof, see section 2941 of this title.

§ 3045b. Allotment of funds.

(a) State proportionate share formula.

(1) From the sums appropriated for any fiscal year under section 3045g of this title, each State shall be allotted an amount which bears the same ratio to such sum as the population aged 60 or over in such State bears to the population aged 60 or over in all States, except that (A) no State shall be allotted less than one-half of 1 percentum of the sum appropriated for the fiscal year for which the determination is made; and (B) Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands shall each be allotted an amount equal to one-fourth of 1 per centum of the sum appropriated for the fiscal year for which the determination is made. For the purpose of the exception contained in this paragraph, the term "State" does not include Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands.

(2) The number of persons aged sixty or over in any State and for all States shall be determined by the Commissioner on the basis of the most satisfactory data available to him.

(b) Reallotment of unrequired portion.

The amount of any State's allotment under subsection (a) of this section of any fiscal year which the Commissioner determines will not be required for that year shall be reallotted, from time to time and on such dates during such year as the Commissioner may fix, to other States in proportion to the original allotments to such States under subsection (a) of this section for that year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum the Commissioner estimates such State needs and will be able to use for such year; and the total of such reductions shall be similarly reallotted among the States whose proportionate amounts were not so reduced. Such reallotments shall be made on the basis of the State plan so approved, after taking into consideration the population aged sixty or over. Any amount reallotted to a State under this subsection during a year shall be deemed part of its allotment under subsection (a) of this section for that year.

(c) Federal allotment; matching non-Federal funds.

The allotment of any State under subsection (a) of this section for any fiscal year shall be available for grants to pay up to 90 per centum of the costs of projects in such State described in section 3045e of

this title and approved by such State in accordance with its State plan approved under section 3045d of this title, but only to the extent that such costs are both reasonable and necessary for the conduct of such projects, as determined by the Commissioner in accordance with criteria prescribed by him in regulations. Such allotment to any State in any fiscal year shall be made upon the condition that the Federal allotment will be matched during each fiscal year by 10 per centum, or more, as the case may be, from funds or in-kind resources from non-Federal sources.

(d) Disbursement of unqualified state's allotment.

If the Commissioner finds that any State has failed to qualify under the State plan requirements of section 3045d of this title, the Commissioner shall withhold the allotment of funds to such State referred to in subsection (a) of this section. The Commissioner shall disburse the funds so withheld directly to any public or private nonprofit institution or organization, agency, or political subdivision of such State submitting an approved plan in accordance with the provisions of section 3045d of this title, including the requirement that any such payment or payments shall be matched in the proportion specified in subsection (c) of this section for such State, by funds or in-kind resources from non-Federal sources.

(e) Purchase of agricultural commodities by state agencies.

The State agency may, upon the request of one or more recipients of a grant or contract, purchase agricultural commodities and other foods to be provided to such nutrition projects assisted under this subchapter. The Commissioner may require reports from State agencies, in such form and detail as he may prescribe, concerning requests by recipients of grants or contracts for the purchase of such agricultural commodities and other foods, and action taken thereon. (Pub. L. 89–73, title VII, § 703, as added Pub. L. 92–258, § 2, Mar. 22, 1972, 86 Stat. 90, and amended Pub. L. 93–29, title VII, § 704(c), May 3, 1973, 87 Stat. 57; Pub. L. 94–135, title I, § 114 (i), (j), Nov. 28, 1975, 89 Stat. 726.)

CODIFICATION

Reference in subsec. (e) to nutrition projects assisted under this subchapter was, in the original, a reference to nutrition projects assisted under this part. Since the provisions added by Pub. L. 92–258 contained no "part", the term "part" as used in such subsec. (e) has been translated as "subchapter" as the probable intent of Congress.

AMENDMENTS

1975—Subsecs. (c), (d). Pub. L. 94–135, § 114(i), (j), substituted "in-kind" for "in kind" in last sentence of subsecs. (c) and (d).

(Pub. L. 89–73, title VII, § 704, as added Pub. L. 92–258, § 2, Mar. 22, 1972, 86 Stat. 91, and amended Pub. L. 93–29, title VII, § 704(c), May 3, 1973, 87 Stat 57.)

AMENDMENTS

1973—Pub. L. 93–29 substituted "Commissioner" for "Secretary".

§ 3045d. State plans.

(a) Requisite features of plan.

Any State which desires to receive allotments under this subchapter shall submit to the Commissioner for approval a State plan for purposes of this subchapter which, in the case of a State agency designated pursuant to section 3024 of this title, shall be in the form of an amendment to the State plan provided in section 3025 of this title. Such plan shall—

(1) establish or designate a single State agency as the sole agency for administering or supervising the administration of the plan and coordinating operations under the plan with other agencies providing services to the elderly, which agency shall be the agency designated pursuant to section 3024(a)(1) of this title, unless the Governor of such State shall, with the approval of the Commissioner, designate another agency;

(2) set forth such policies and procedures as will provide satisfactory assurance that allotments paid to the State under the provisions of this subchapter will be expended—

(A) to make grants in cash or in kind to any public or private nonprofit institution or organization, agency, or political subdivision of a State (referred to herein as "recipient of a grant or contract")—

(i) to carry out the program as described in section 3045e of this title.

(ii) to provide up to 90 per centum of the costs of the purchase and preparation of the food; delivery of the meals; and such other reasonable expenses as may be incurred in providing nutrition services to persons aged sixty or over. Recipients of grants or contracts may charge participating individuals for meals furnished pursuant to guidelines established by the Commissioner, taking into consideration the income ranges of eligible individuals in local communities and other sources of income of the recipients of a grant or a contract.

(iii) to provide up to 90 per centum of the costs of such supporting services as may be necessary in each instance, such as the costs of related social services and, where appropriate, the costs of transportation between the project site and the residences of eligible individuals who could not participate in the project in the absence of such transportation, to the extent such costs are not met through other Federal, State, or local programs.

(B) to provide for the proper and efficient administration of the State plan at the least possible administrative cost. Funds allotted to a State for State planning and administration pursuant to section 3026 of this title may be

used for the administration of the State plan submitted pursuant to this section, except that wherever the governor of the State designates an agency other than the agency designated under section 3024(a)(1) of this title, then the Commissioner shall determine that portion of a State's allotment under section 3026 of this title which shall be available to the agency designated under subsection (a)(1) of this section for planning and administration. In administering the State plan, the State agency shall—

(i) make reports, in such form and containing such information, as the Commissioner may require to carry out his functions under this subchapter, including reports of participation by the groups specified in subsection (4) of this section; and keep such records and afford such access thereto as the Commissioner may find necessary to assure the correctness and verification of such reports and proper disbursement of Federal funds under this subchapter, and

(ii) provide satisfactory assurance that such fiscal control and fund accounting procedures will be adopted as may be necessary to assure proper disbursement of, and accounting for, Federal funds paid under this subchapter to the State, including any such funds paid by the State to the recipient of a grant or contract.

(3) provide such methods of administration (including methods relating to the establishment and maintenance of personnel standards on a merit basis, except that the Commissioner shall exercise no authority with respect to the selection, tenure of office, and compensation of any individual employed in accordance with such methods) as are necessary for the proper and efficient operation of the plan.

(4) provide that preference shall be given in awarding grants to carry out the purposes of this subchapter to projects serving primarily low-income individuals and provide assurances that, to the extent feasible, grants will be awarded to projects operated by and serving the needs of minority, Indian, and limited English-speaking eligible individuals in proportion to their numbers in the State.

(5) provide that, when mutually agreed upon by recipients of grants and contracts and area planning and service area agencies, nutrition projects assisted under this subchapter shall be made a part of the comprehensive and coordinated systems established under subchapter III of this chapter.

(b) Approval of plan

The Commissioner shall approve any State plan which he determines meets the requirements and purposes of this section.

(c) Noncompliance; payments termination.

Whenever the Commissioner, subject to reasonable notice and opportunity for hearing to such State agency, finds (1) that the State plan has been so changed that it no longer complies with the provisions of this subchapter, or (2) that in the administration of the plan there is a failure to comply substantially with any such provision or with any requirements set forth in the application of a recipient of a grant or contract approved pursuant to such plan, the Commissioner shall notify such State agency that further payments will not be made to the State under the provisions of this subchapter (or in his discretion, that further payments to the State will be limited to programs or projects under the State plan, or portions thereof, not affected by the failure, or that the State agency shall not make further payments under this subchapter to specified local agencies affected by the failure) until he is satisfied that there is no longer any such failure to comply. Until he is so satisfied, the Commissioner shall make no further payments to the State under this subchapter, or shall limit payments to recipients of grants or contracts under, or parts of, the State plan not affected by the failure, or payments to the State agency under this subchapter shall be limited to recipients of grants or contracts not affected by the failure, as the case may be.

(d) Judicial review.

(1) If any State is dissatisfied with the Commissioner's final action with respect to the approval of its State plan submitted under subsection (a) of this section, or with respect to termination of payments in whole or in part under subsection (c) of this section, such State may, within sixty days after notice of such action, file with the United States court of appeals for the circuit in which such State is located a petition for review of that action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Commissioner. The Commissioner thereupon shall file in the court the record of the proceeding on which he based his action, as provided in section 2112 of Title 28.

(2) The findings of fact by the Commissioner, if supported by substantial evidence, shall be conclusive; but the court for good cause shown, may remand the case to the Commissioner to take further evidence, and the Commissioner may thereupon make new or modified findings of fact and may modify his previous action, and shall certify to the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

(3) The court shall have jurisdiction to affirm the action of the Commissioner or to set it aside, in whole or in part. The judgment of the court shall be subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of Title 28. (Pub. L. 89–73, title VII, § 705, as added Pub. L. 92–258, § 2, Mar. 22, 1972, 86 Stat. 91, and amended Pub. L. 93–29, title VII, §§ 702–704, May 3, 1973, 87 Stat. 56, 57; Pub. (N) will authorize funds to be used, to the extent feasible, to include individuals participating in such project under any State unemployment insurance plan.

(2) The Secretary is authorized to establish, issue, and amend such regulations as may be necessary to effectively carry out the provisions of this subchapter.

(c) Costs; non-Federal share.

(1) The Secretary is authorized to pay not to exceed 90 per centum of the cost of any project which is the subject of an agreement entered into under subsection (b) of this section, except that the Secretary is authorized to pay all of the costs of any such project which is (A) an emergency or disaster project, or (B) a project located in an economically depressed area, as determined by the Secretary in consultation with the Secretary of Commerce and the Director of the Community Services Administration.

§ 3056d. National grants or contracts and State allotments for projects.

(a) National activities based on level of activities in fiscal year ending June 30, 1975: preference in awards, equitable distribution of aggregate activities; State allotments: allotment formula, allotment percentage; number of persons aged fifty-five or over; per capita income.

(1) From sums appropriated under this subchapter for each fiscal year, the Secretary shall first reserve such sums as may be necessary for national grants or contracts with public agencies and public or private nonprofit organizations to maintain the level of activities carried on under such grants or contracts at least at the level of such activities supported under this subchapter and under any other provision of Federal law relating to community service employment programs for older Americans in the fiscal year ending June 30, 1975. Preference in awarding such grants or contracts shall be given to national organizations of proven ability in providing employment services to older persons under this program and similar programs. The Secretary, in awarding grants and contracts under this section, shall, to the extent feasible, assure an equitable distribution of activities under such grants and contracts, in the aggregate, among the States, taking into account the needs of underserved States.

(2) The Secretary shall allot for projects within each State the remainder of the sums appropriated for any fiscal year under section 3056f of this title so that each State will receive an amount which bears the same ratio to such remainder as the product of the number of persons aged fifty-five or over in the State and the allotment percentage of

such State bears to the sum of the corresponding product for all States, except that (A) no State shall be allotted less than one-half of 1 per centum of the remainder of the sums appropriated for the fiscal year for which the determination is made, or $100,000, whichever is greater, and (B) Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands shall each be allotted an amount which is not less than one-fourth of 1 per centum of the remainder of the sums appropriated for the fiscal year for which the determination is made, or $50,000, whichever is greater. For the purpose of the exception contained in this paragraph the term "State" does not include Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands.

(3) For the purpose of this subsection—

(A) the allotment percentage of each State shall be 100 per centum less that percentage which bears the same ratio to 50 per centum as the per capita income of such State bears to the per capita income of the United States, except that (i) the allotment percentage shall in no case be more than 75 per centum or less than 33⅓ per centum, and (ii) the allotment percentage for the District of Columbia, Puerto Rico, Guam, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands shall be 75 per centum;

(B) the number of persons aged fifty-five or over in any State and in all States, and the per capita income in any State and in all States, shall be determined by the Secretary on the basis of the most satisfactory data available to him; and

(C) for the purpose of determining the allotment percentage, the term "United States" means the fifty States and the District of Columbia.

(b) Reallotments.

The amount allotted for projects within any State under subsection (a) of this section for any fiscal year which the Secretary determines will not be required for such year shall be reallotted, from time to time and on such dates during such year as the Secretary may fix, to projects within other States in proportion to the original allotments to projects within such States under subsection (a) of this section for such year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum the Secretary estimates that projects within such State need and will be able to use for such year; and the total of such reductions shall be similarly reallotted among the States whose proportionate amounts were not so reduced. Any amount reallotted to a State under this subsection during a year shall be deemed part of its allotment under subsection (a) of this section for such year.

(c) Equitable distribution of assistance.

The amount apportioned for projects within each State under subsection (a) of this section shall be apportioned among areas within each such State in an equitable manner, taking into consideration (1) the proportion which eligible individuals in each such area bears to the total number of such individuals, respectively, in that State, and (2) the relative distribution of such individuals residing in rural and urban areas within the State. (Pub. L. 89–73, title IX, § 906, as added Pub. L. 94–135, title I, § 113(a), Nov. 28, 1975, 89 Stat. 723.)

SUBCHAPTER I.—GRANTS FOR PUBLIC WORKS AND DEVELOPMENT FACILITIES

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 2985a, 3153 of this title; title 40 App., sections 202, 211, 214.

§ 3131. Direct and supplementary grants.

(a) Acquisition or development of public works and development facilities; required findings precedent to making of direct grants; supplementary grants to provide matching share funds.

Upon the application of any State, or political subdivision thereof, Indian tribe, or private or public nonprofit organization or association representing any redevelopment area or part thereof, the Secretary of Commerce (hereinafter referred to as the Secretary) is authorized—

(1) to make direct grants for the acquisition or development of land and improvements for public works, public service, or development facility usage, and the acquisition, construction, rehabilitation, alteration, expansion, or improvement of such facilities, including related machinery and equipment, within a redevelopment area, if he finds that—

* * * * *

(B) the project for which a grant is requested will fulfill a pressing need of the area, or part thereof, in which it is, or will be, located;

(C) the area for which a project is to be undertaken has an approved overall economic development program as provided in section 3142(b)(10) of this title and such project is consistent with such program; and

(D) in the case of a redevelopment area so designated under section 3161(a)(6) of this title, the project to be taken will provide immediate useful work to unemployed and underemployed persons in that area;

* * * * *

(c) Proportion of supplementary grant funds to total project cost; rules and regulations; maximum grants; required non-Federal share.

The amount of any supplementary grant under this section for any project shall not exceed the applicable percentage established by regulations promulgated by the Secretary, but in no event shall the non-Federal share of the aggregate cost of any such project (including assumptions of debt) be less than 20 per centum of such cost, except that in the case of a grant to an Indian tribe, the Secretary may reduce the non-Federal share below such per centum or may waive the non-Federal share. In the case of any State or political subdivision thereof which the Secretary determines has exhausted its effective taxing and borrowing capacity, the Secretary may reduce the non-Federal share below such per centum or may waive the non-Federal share in the case of such a grant for a project in a redevelopment area designated as such under section 3161(a)(6) of this title. Supplementary grant shall be made by the Secretary, in accordance with such regulations as he shall prescribe, by increasing the amounts of direct grants authorized under this section or by the payment of funds appropriated under this chapter to the heads of the departments, agencies, and instrumentalities of the Federal Government responsible for the administration of the applicable Federal programs. Notwithstanding any requirement as to the amount or sources of non-Federal funds that may otherwise be applicable to the Federal program involved, funds provided under this subsection shall be

used for the sole purpose of increasing the Federal contribution to specific projects in redevelopment areas under such programs above the fixed maximum portion of the cost of such project otherwise authorized by the applicable law. The term "designated Federal grant-in-aid programs," as used in this subsection, means such existing or future Federal grant-in-aid programs assisting in the construction or equipping of facilities as the Secretary may, in furtherance of the purposes of this chapter, designate as eligible for allocation of funds under this section. In determining the amount of any supplementary grant available to any project under this section, the Secretary shall take into consideration the relative needs of the area, the nature of the project to be assisted, and the amount of such fair user charges or other revenues as the project may reasonably be expected to generate in excess of those which would amortize the local share of initial costs and provide for its successful operation and maintenance (including depreciation).

§ 3192. Regional transportation systems.

(a) Investigation and studies of needs of economic development regions.

Each regional commission, with the assistance of the Secretary of Transportation, is authorized to conduct and facilitate full and complete investigations and studies of the transportation needs of economic development regions established under this subchapter. Such studies and investigations should analyze the effectiveness of regional transportation systems for meeting the purposes of this chapter. The information gathered from these studies and investigations should determine the types of transportation facilities needed in the region and be of value in planning for such transportation facilities.

(b) Grants.

Each regional commission, with the assistance of the Secretary of Transportation, is authorized to make grants for the planning of regional transportation networks and to make grants for the construction, purchase of equipment, and operation (including payment of operating deficits) for transportation demonstration projects. Grants under this section shall be made solely out of funds specifically appropriated for the purpose of carrying out this subchapter and shall not be taken into account in the computation of the allotments among the States made pursuant to any other provisions of law.

(c) Cost limitations.

No grant for the construction or equipment for any component of a demonstration transportation project shall exceed 80 per centum of such cost. The Federal contribution may be provided entirely from funds authorized under this section or in combination with funds authorized under other Federal grant-in-aid programs for the construction of transportation facilities. Notwithstanding any other provision of law, funds authorized under this section may be used to increase the Federal share of any such project to 80 per centum of the cost of such facilities.

(d) Limits of annual expenditure.

Not to exceed $5,000,000 of the funds apportioned to each regional commission under section 3188a of this title shall be expended in any one fiscal year for the purpose of carrying out this section. (As amended Pub. L. 94–188, title II, § 203, Dec. 31, 1975, 89 Stat. 1087.)

AMENDMENTS

1975—Pub. L. 94–188 authorized each regional commission to conduct studies and investigations of the transportation needs of the region, to make grants for planning transportation demonstration projects and up to eighty percent of the cost of construction, purchase of equipment, and operation of transportation demonstration projects, and placed a limit of $5,000,000 on the funds apportioned to each region to be expended in any fiscal year to carry out this section.

§ 3193. Regional excess property.

(a) Acquisition and disposal.

Notwithstanding any other provision of law, and subject to subsection (b) of this section, the Federal cochairman of each regional commission established

under section 3182 of this title may acquire excess property, without reimbursement, through the Administrator of General Services and shall dispose of such property, without reimbursement and for the purpose of economic development, by loaning to, or by vesting title in, any of the following recipients located wholly or partially within the economic development region of such Federal cochairman:

(1) any State or political subdivision thereof;

(2) any tax-supported organization;

(3) any Indian tribe, band, group, pueblo, or Alaskan village or Regional Corporation (as defined by the Alaska Native Land Claims Settlement Act of 1971) recognized by the Federal Government or any State, and any business owned by any tribe, band, group, pueblo, village, or Regional Corporation;

(4) any tax-supported or nonprofit private hospital; and

(5) any tax-supported or nonprofit private institution of higher education requiring a high school diploma, or equivalent, as a basis for admission.

Such recipient may have, but need not have, received any other aid under this chapter. For the purposes of this section, until a regional commission is established for the State of Alaska under section 3182 of this title, in the case of the State of Alaska the Secretary of Commerce shall exercise the authority granted to a Federal cochairman under this section.

(b) Priority of Federal cochairmen; rules and regulations.

For purposes of subsection (a) of this section—

(1) each Federal cochairman, in the acquiring of excess property, shall have the same priority as other Federal agencies; and

(2) the Secretary shall prescribe rules, regulations, and procedures for administering subsection (a) of this section which may be different for each economic development region, except that the Secretary shall consult with the Federal cochairman of a region before prescribing such rules, regulations, and procedures for such region.

(c) Payment of costs.

(1) The recipient of any property disposed of by any Federal cochairman under subsection (a) of this section shall pay, to the Federal agency having custody of the property, all costs of care and handling incurred in the acquiring and disposing of such property; and such recipient shall pay all costs which may be incurred regarding such property after such Federal cochairman disposes of it, except that such recipient shall not pay any costs incurred after such property is returned under subsection (e) of this section.

(2) No Federal cochairman may be involved at any time in the receiving or processing of any costs paid by the recipient under paragraph (1).

(d) Accounting to Secretary by Federal cochairman; time; access to information.

Each Federal cochairman, not later than six calendar months after the close of each fiscal year, shall account to the Secretary, as the Secretary shall prescribe, for all property acquired and disposed of, including any property acquired but not disposed of, under subsection (a) of this section during such fiscal year. The Secretary shall have access to all information and related material in the possession of such Federal cochairman regarding such property.

(e) Disposition of property unnecessary for economic development.

Any property determined by the Federal cochairman to be no longer needed for the purpose of economic development shall be reported by the recipient to the Administrator of General Services for disposition under the Federal Property and Administrative Services Act of 1949.

(f) Exclusion of value of acquired or disposed property from computation of appropriation or authorization for appropriation.

The value of any property acquired and disposed of, including any property acquired but not disposed of, under subsection (a) of this section shall not be taken into account in the computation of any appropriation, or any authorization for appropriation, regarding any regional commission established under section 3182 of this title or any office of the Federal cochairman of such commission.

(g) Definitions.

For purposes of this section—

(1) the term "care and handling" has the meaning given it by section 472(h) of Title 40; and

(2) the term "excess property" has the meaning given it by section 472(e) of Title 40, except that such term does not include real property.

§ 3194. Energy demonstration projects and programs.

(a) Fundamental changes are occurring in national energy requirements and production which could result in short-term dislocation and result in major long-term effects on various regions of the country. Expanded energy production opportunities must maximize social and economic benefits while minimizing social and environmental costs to the regions experiencing increased energy development. In some regions, impacted by limited energy resources, severe problems disruptive of regional economies could result. The programs of the regional commissions provide an excellent framework for coordinating Federal, State, and local efforts toward (1) anticipating the effects of alternative energy policies and practices, (2) planning for accompanying growth and change so as to maximize social and economic benefits and minimize the social and environmental costs, and (3) implementing programs and projects carried out in the regions by Federal, State, or local government agencies so as to better meet the special problems generated in the regions by the Nation's energy needs and policies, including problems of transportation, housing, community facilities, and human services.

(b) Each regional commission is authorized to carry out energy-related demonstration projects and

programs within its regions including programs and projects addressing the social, economic, and environmental impact of energy development, requirements, and utilization. Grants shall be made only to those projects which are developed through regional planning designed to identify the effects of regional resource development, requirements, utilization, and impact. Each regional commission is authorized to carry out demonstration projects within its region in connection with the development and stimulation of indigenous arts and crafts of the region.

(c) Not to exceed $5,000,000 of the funds apportioned to each regional commission under section 3188a of this title shall be expended in any one fiscal year for the purpose of carrying out the energy-related provisions of this section, and not to exceed $2,500,000 of such funds shall be expended in any one fiscal year for indigenous arts and crafts demonstrations. (Pub. L. 89–136, title V, § 515, as added Pub. L. 94–188, title II, § 204, Dec. 31, 1975, 89 Stat. 1088.)

§ 3195. Health and nutrition demonstration projects.

(a) In order to demonstrate the value of adequate health facilities and services to the economic development of the region, the Secretary of Health, Education, and Welfare is authorized to make grants for the planning, construction, equipment, and operation of multicounty demonstration health, and nutrition projects including hospitals, regional health diagnostic and treatment centers, and other facilities and services necessary for the purpose of this section. Grants for such construction (including the acquisition of privately owned facilities not operated for profit or previously operated for profit where the acquisition of such facilities is the most cost effective means for providing increased health services, and initial equipment) shall be made after applications and plans relating to the program or project have been determined by the responsible Federal official to be compatible with the provisions and objectives of Federal laws which he administers that are not inconsistent with this subchapter, and the regional commission has approved such program or project and determined that it will contribute to the development of the region, and shall not be incompatible with the applicable provisions of title VI of the Public Health Service Act (42 U.S.C. 291–291o), the Mental Retardation Facilities and Community Mental Health Centers Construction Act of 1963 (77 Stat. 282), and other laws authorizing grants for the construction of health-related facilities, without regard to any provisions therein relating to appropriation authorization ceilings or to allotments among the States. Grants under this section shall be made solely out of funds specifically appropriated for the purpose of carrying out this subchapter and shall not be taken into account in the computation of the allotments among the States made pursuant to any other provision of law.

(b) No grant for the construction or equipment of any component of a demonstration health project shall exceed 80 per centum of such costs. The Federal contribution may be provided entirely from funds authorized under this subchapter or in combination with funds provided under other Federal grant-in-aid programs for the construction or equipment of health-related facilities. Notwithstanding any provision of law limiting the Federal share in such other programs, funds authorized under this subchapter may be used to increase Federal grants for component facilities of a demonstration health project to a maximum of 80 per centum of the costs of such facilities.

(c) Grants under this section for operation (including initial operating funds and operating deficits comprising among other items the cost of attracting, training, and retraining qualified personnel) of a demonstration health project, whether or not constructed with funds authorized by this subchapter, may be made for up to 100 per centum of the costs thereof for the two-year period beginning, for each component facility or service assisted under any such operating grant, on the first day that such facility or service is in operation as a part of the project. For the next three years of operation such grants shall not exceed 75 per centum of such costs. The Federal contributions may be provided entirely from funds appropriated to carry out this subchapter or in combination with funds provided under other Federal grant-in-aid programs for the operation of health related facilities and the provision of health services, including title IV, parts A and B, and title XX of the Social Security Act. Notwithstanding any provision of the Social Security Act requiring assistance or services on a statewide basis, if a State provides assistance or services under such a program in any area of the region approached by the regional commission, such State shall be considered as meeting such requirement. Notwithstanding any provision of law limiting the Federal share in such other programs, funds appropriated to carry out this section may be used to increase Federal grants for operating components of a demonstration health project to the maximum percentage cost thereof authorized by this subsection. No grant for operation of a demonstration health project shall be made unless the facility is publicly owned, or owned by a public or private nonprofit organization, and is not operated for profit. No grants for operation of a demonstration health project shall be made after five years following the commencement of the initial grant for operation of the project. No such grants shall be made unless the Secretary of Health, Education, and Welfare is satisfied that the operation of the project will be conducted under efficient management practices designed to obviate operating deficits. A health-related facility constructed under title I of this Act may be a component of a demonstration health project eligible for operating grant assistance under this section. (Pub. L. 89–136, title V, § 516, as added Pub. L. 94–188, title II, § 205, Dec. 31, 1975, 89 Stat. 1088.)

§ 3232. Disaster recovery planning.

(a) Recovery Planning Council; designation; membership.

(1) In the case of any area affected by a major disaster the Governor may request the President for assistance under this subchapter. The Governor, within thirty days after authorization of such assistance by the President, shall designate a Recovery Planning Council for such area or for each part thereof.

(2) Such Recovery Planning Council shall be composed of not less than five members, a majority of whom shall be local elected officials of political subdivisions within the affected areas, at east one representative of the State, and a representative of the Federal Government appointed by the President in accordance with paragraph (3) of this subsection. During the major disaster, the Federal coordinating officer shall also serve on the Recovery Planning Council.

(3) The Federal representative on such Recovery Planning Council may be the Chairman of the Federal Regional Council for the affected area, or a member of the Federal Regional Council designated by the Chairman of such Regional Council. The Federal representative on such Recovery Planning Council may be the Federal Cochairman of the Regional Commission established pursuant to subchapter V of this chapter, or the Appalachian Regional Development Act of 1965, or his designee, where all of the area affected by a major disaster is within the boundaries of such Commission.

(4) The Governor may designate an existing multijurisdictional organization as the Recovery Planning Council where such organization complies with paragraph (2) of this subsection with the addition of State and Federal representatives except that if all or part of an area affected by a major disaster is within the jurisdiction of an existing multijurisdictional organization established under subchapter IV of this chapter or title III of the Appalachian Regional Development Act of 1965, such organization, with the addition of State and Federal representatives in accordance with paragraph (2) of this subsection, shall be designated by the Governor as the Recovery Planning Council. In any case in which such title III or subchapter IV organization is designated as the Recovery Planning Council under this paragraph, some local elected officials of political subdivisions within the affected areas must be appointed to serve on such Recovery Planning Council. Where possible, the organization designated as the Recovery Planning Council shall be or shall be subsequently designated as the appropriate agency required by section 3334 of this title and by the Intergovernmental Cooperation Act of 1968.

The Recovery Planning Council shall accept as one element of the recovery investment plans determinations made under section 5172(f) of this title.

(c) Recovery investment plan; reserve funds.

(1) A recovery investment plan prepared by a Recovery Planning Council may recommend the revision, deletion, reprograming, or additional approval of Federal-aid projects and programs within the area—

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 3233, 3235 of this title.

§ 3233. Public works and development facilities grants and loans.

(a) Funds for recovery investment plans.

The President is authorized to provide funds to any Recovery Planning Council for the implementation of a recovery investment plan by public bodies. Such funds may be used—

(1) to make loans for the acquisition or development of land and improvements for public works, public service, or development facility usage, including the acquisition or development of parks or open spaces, and the acquisition, construction, rehabilitation, alteration, expansion, or improvement of such facilities, including related machinery and equipment, and

(2) to make supplementary grants to increase the Federal share for projects for which funds are reserved pursuant to section 3232(c)(2) of this title, or other Federal-aid projects in the affected area.

(b) Eligible entities for grants and loans.

Grants and loans under this section may be made to any State, local government, or private or public nonprofit organization representing any area or part thereof affected by a major disaster.

(c) Federal share, increase by supplementary grants; limits.

No supplementary grant shall increase the Federal share of the cost of any project to greater than 90 per centum, except in the case of a grant for the benefit of Indians or Alaska Natives, or in the case of any State or local government which the President determines has exhausted its effective taxing and borrowing capacity.

(d) Interest rate.

Loans under this section shall bear interest at a rate determined by the Secretary of the Treasury taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, adjusted to the nearest one-eighth of 1 per centum, less 1 per centum per centum.

(e) Assistance resulting in relocation of establishments or divestiture of contractors prohibited.

Financial assistance under this subchapter shall not be extended to assist establishments relocating from one area to another or to assist subcontractors whose purpose is to divest, or whose economic success is dependent upon divesting, other contractors or subcontractors of contracts therefore customarily performed by them. Such limitations shall not be construed to prohibit assistance for the expansion of an existing business entity through the establishment of a new branch, affiliate, or subsidiary of such entity if the Secretary of Commerce finds that the establishment of such branch, affiliate, or subsidiary will not result in an increase in unemployment of the area of original location or in any other area where such entity conducts business operations, unless the Secretary has reason to believe that such branch, affiliate, or subsidiary is being established with the intention of closing down the operations of the existing business entity in the area of its original location or in any other area where it conducts such operations. (Pub. L. 89–136, title VIII, § 803, as added Pub. L. 93–288, title V, § 501, May 22, 1974, 88 Stat. 161.)

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in title 40 App. section 214.

§ 3241. Statement of purpose.

It is the purpose of this subchapter to provide special economic development and adjustment assistance programs to help State and local areas meet special needs arising from actual or threatened severe unemployment arising from economic dislocation, including unemployment arising from actions of the Federal Government and from compliance with environmental requirements which remove economic activities from a locality, and economic adjustment problems resulting from severe changes in economic conditions, and to encourage cooperative intergovernmental action to prevent or solve economic adjustment problems. Nothing in this subchapter is intended to replace the efforts of the economic adjustment program of the Department of Defense. (Pub. L. 89–136, title IX, § 901, as added Pub. L. 93–423, § 12, Sept. 27, 1974, 88 Stat. 1164.)

§ 3242. Definitions.

As used in this subchapter, the term "eligible recipient" means a redevelopment area or economic development district established under subchapter IV of this chapter, an Indian tribe, a State, a city or other political subdivision of a State, or a consortium of such political subdivisions. (Pub. L. 89–136, title IX, § 902, as added Pub. L. 93–423, § 12, Sept. 27, 1974, 88 Stat. 1164.)

§ 3243. Grants by Secretary.

(a) Eligible recipients; execution of development plan; use; method of payment.

(1) The Secretary is authorized to make grants directly to any eligible recipient in an area which the Secretary has determined has experienced, or may reasonably be foreseen to be about to experience, a special need to meet an expected rise in unemployment, or other economic adjustment problems (including those caused by any action or decision of the Federal Government) to carry out or develop a plan which meets the requirements of subsection (b) of this section and which is approved by the Secretary to use such grants for any of the following: public facilities, public services, business development, planning, unemployment compensation (in accordance with subsection (d) of this section), rent supplements, mortgage payment assistance, research, technical assistance, training, relocation of individuals, and other appropriate assistance.

(2)(A) Such grants may be used in direct expenditures by the eligible recipient or through redistribution by it to public and private entities in grants, loans, loan guarantees, or other appropriate assistance, but no grant shall be made by an eligible recipient to a private profitmaking entity.

(B) Grants for unemployment compensation shall be made to the State. Grants for any other purpose shall be made to any appropriate eligible recipient capable of carrying out such purpose.

(b) Criteria for approval of plan.

No plan shall be approved by the Secretary under this section unless such plan shall—

(1) identify each economic development and adjustment need of the area for which assistance is sought under this subchapter;

(2) describe each activity planned to meet each such need;

(3) explain the details of the method of carrying out each such planned activity;

(4) contain assurances satisfactory to the Secretary that the proceeds from the repayment of loans made by the eligible recipient with funds granted under this subchapter will be used for economic adjustment; and

(5) be in such form and contain such additional information as the Secretary shall prescribe.

(c) Coordination of activities with regional commissions, States, etc.

The Secretary to the extent practicable shall coordinate his activities in requiring plans and making grants and loans under this subchapter with regional commissions, States, economic development districts and other appropriate planning and development organizations.

(d) Transfer of funds; availability of assistance to qualified individuals; limitation of amounts; administration by State agencies.

In each case in which the Secretary determines a need for assistance under subsection (a) of this section due to an increase in unemployment and makes a grant under this section, the Secretary may transfer funds available for such grant to the Secretary of Labor and the Secretary of Labor is authorized to provide to any individual unemployed as a result of the dislocation for which such grant is made, such assistance as he deems appropriate while the individual is unemployed. Such assistance as the Secretary of Labor may provide shall be available to an individual not otherwise disqualified under State law for unemployment compensation benefits, as long as the individual's unemployment caused by the dislocation continues or until the individual is reemployed in a suitable position, but no longer than one year after the unemployment commences. Such assistance for a week of unemployment shall not exceed the maximum weekly amount authorized under the unemployment compensation law of the State in which the dislocation occurred, and the amount of assistance under this subsection shall be reduced by any amount of unemployment compensation or of private income protection insurance compensation available to such individual for such week of unemployment. The Secretary of Labor is directed to provide such assistance through agreements with States which, in his judgment, have an adequate system for administering such assistance through existing State agencies. (Pub. L. 89–136, title IX, § 903, as added Pub. L. 93–423, § 12, Sept. 27, 1974, 88 Stat. 1164.)

EX. ORD. NO. 11668. NATIONAL CENTER FOR HOUSING MANAGEMENT

Ex. Ord. No. 11668, Apr. 21, 1972, 37 F.R. 8057, provided:

By virtue of the authority vested in me as President of the United States and in accordance with the provisions of the Department of Housing and Urban Development Act, as amended (42 U.S.C. 3531 et seq.) [this chapter], Title VIII of the Housing Act of 1964, as amended (20 U.S.C. 801 et seq.), and Title V of the Housing and Urban Development Act of 1970 (12 U.S.C. 1701z–1 et seq.), it is ordered as follows:

SECTION 1. *Policy.* The Nation's housing stock represents an important national resource which must be preserved and well managed if public and private investments are to be protected, and if we are to meet our goal of providing a decent home and suitable living environment for low and moderate income residents. The production of Federally-assisted housing has greatly expanded in recent years, creating a need for a balanced strategy to ensure that such housing remains viable for the purposes intended.

This expansion also creates a need for a growing supply of new management manpower for the years ahead. Special skills must be developed among these managers so that they can effectively overcome the social and economic problems facing many residents of Federally-assisted housing, including the elderly. Training, the improvement of career opportunities, and the upgrading of industry standards are all essential to the improvement of the Nation's housing management capability, particularly for low and moderate income housing.

SEC. 2. *Establishment of a National Center for Housing Management.* (a) The Secretary of Housing and Urban Development is directed to call upon public-spirited citizens, dedicated and experienced in the appropriate disciplines, to create, in accordance with existing laws, a new, non-governmental, not-for-profit institution to serve as a National Center for Housing Management (referred to herein as the Center).

(b) The Center should be designed to provide objective and independent leadership at the national level in helping meet the Nation's housing management and training needs and should work cooperatively with the Department

of Housing and Urban Development and with the public and private organizations and institutions involved in, or affected by, its activities.

SEC. 3. *Activities of the Center.* The activities of the Center should be developed along lines that include the following objectives:

(1) Development of training and educational programs for housing management and personnel;

(2) Cooperation with public and private national, State, and local organizations and institutions in extending housing management training and educational opportuities, using to the fullest extent possible the services and facilities of existing agencies with expertise in training and education.

(3) Cooperation with national, State, and local organizations and institutions in establishing or expanding recruitment and placement systems that will link training in housing management to job opportunities in that field.

(4) Development of improved housing management practices and assistance in professionalizing the housing management industry; and

(5) Stimulating the creation of new management entities, and strengthening the effectiveness of existing management entities.

SEC. 4. *Assistance by Federal Agencies.* To the extent consistent with law, all other Federal executive departments and agencies shall cooperate and work with the Department of Housing and Urban Development and the Center in providing appropriate advice and financial support so as to ensure that the above described objectives are carried out with the most effective and efficient use of Federal, State and local resources, both public and private.

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in section 3888 of this title.

§ 3701. Congressional findings, declarations of policy and statement of purpose.

Congress finds that the high incidence of crime in the United States threatens the peace, security, and general welfare of the Nation and its citizens. To reduce and prevent crime and juvenile delinquency, and to insure the greater safety of the people, law enforcement and criminal justice efforts must be better coordinated, intensified, and made more effective at all levels of government.

Congress finds further that crime is essentially a local problem that must be dealt with by State and local governments if it is to be controlled effectively.

Congress finds further that the high incidence of delinquency in the United States today results in enormous annual cost and immeasurable loss in human life, personal security, and wasted human resources, and that juvenile delinquency constitutes a growing threat to the national welfare requiring immediate and comprehensive action by the Federal Government to reduce and prevent delinquency.

It is therefore the declared policy of the Congress to assist State and local governments in strengthening and improving law enforcement and criminal justice at every level by national assistance. It is the purpose of this chapter to (1) encourage States and units of general local government to develop and adopt comprehensive plans based upon their evaluation of State and local problems of law enforcement and criminal justice; (2) authorize grants to States and units of local government in order to improve and strengthen law enforcement and criminal justice; and (3) encourage research and development directed toward the improvement of law enforcement and criminal justice and the development of new methods for the prevention and reduction of crime and the detection, apprehension, and rehabilitation of criminals.

It is therefore the further declared policy of Congress to provide the necessary resources, leadership, and coordination to (1) develop and implement effective methods of preventing and reducing juvenile delinquency; (2) to develop and conduct effective programs to prevent delinquency, to divert juveniles from the traditional juvenile justice system and to provide critically needed alternatives to institutionalization; (3) to improve the quality of juvenile justice in the United States; and (4) to increase

the capacity of State and local governments and public and private agencies to conduct effective juvenile justice and delinquency prevention and rehabilitation programs and to provide research, evaluation, and training services in the field of juvenile justice and delinquency prevention. (As amended Pub. L. 93–83, § 2, Aug. 6, 1973, 87 Stat. 197; Pub. L. 93–415, title V, § 541, Sept. 7, 1974, 88 Stat. 1142.)

AMENDMENTS

1974—Pub. L. 93–415 added third and fifth paragraphs.

1973—First par. Pub. L. 93–83 substituted "To reduce and prevent crime and juvenile delinquency" for "To prevent crime" and "law enforcement and criminal justice efforts" for "law enforcement efforts."

Third par. Pub. L. 93–83 substituted "law enforcement and criminal justice" for "law enforcement" wherever appearing, and "develop" for "prepare" in item (1) and included in the Congressional declaration of policy the rehabilitation of criminals in item (3).

EFFECTIVE DATE OF 1973 AMENDMENT

Section 3 of Pub. L. 93–83 provided that: "The amendments made by this Act [see Short Title note under this section] shall take effect on and after July 1, 1973, except that the offices and salaries modified under sections 101, 505, and 506 of title I of the Omnibus Crime Control and Safe Streets Act of 1968 as amended by this Act [sections 5108(c)(10), 5314(55), 5315(90), and 5316(133) of Title 5] shall be modified prospectively only, effective on and after the date of the enactment of this Act [Aug. 6, 1973]."

The Administration shall make grants to the States for the establishment and operation of State law enforcement and criminal justice planning agencies (hereinafter referred to in this chapter as "State planning agencies") for the preparation, development, and revision of the State plan required under section 3733 of this title. Any State may make application to the Administration for such grants within six months of June 19, 1968. (As amended Pub. L. 93–83, § 2, Aug. 6, 1973, 87 Stat. 198.)

AMENDMENTS

1973—Pub. L. 93–83 substituted "law enforcement and criminal justice" for "law enforcement".

Amendment by Pub. L. 93–83 effective on and after July 1, 1973, see section 3 of Pub. L. 93–83, set out as a note under section 3701 of this title.

§ 3723. Same; general provisions.

(a) Establishment and maintenance; creation or designation by chief executive; representative capacity; composition of State planning agency and regional planning units.

A grant made under this subchapter to a State shall be utilized by the State to establish and maintain a State planning agency. Such agency shall be

created or designated by the chief executive of the State and shall be subject to his jurisdiction. The State planning agency and any regional planning units within the State shall, within their respective jurisdictions, be representative of the law enforcement and criminal justice agencies, units of general local government, and public agencies maintaining programs to reduce and control crime and may include representatives of citizen, professional, and community organizations. The State planning agency and any regional planning units within the State shall, within their respective jurisdictions, be representative of the law enforcement and criminal justice agencies including agencies directly related to the prevention and control of juvenile delinquency, units of general local government, and public agencies maintaining programs to reduce and control crime, and shall include representatives of citizens, professional, and community organizations including organizations directly related to delinquency prevention.

(b) Function, powers, and duties of State planning agencies.

The State planning agency shall—

(1) develop, in accordance with subchapter III of this chapter, a comprehensive statewide plan for the improvement of law enforcement and criminal justice throughout the State;

(2) define, develop, and correlate programs and projects for the State and the units of general local government in the State or combinations of States or units for improvement in law enforcement and criminal justice; and

(3) establish priorities for the improvement in law enforcement and criminal justice throughout the State.

(c) Availability of Federal funds to local government units for formulation and development of State plan.

The State planning agency shall make such arrangements as such agency deems necessary to provide that at least 40 per centum of all Federal funds granted to such agency under this subchapter for any fiscal year will be available to units of general local government or combinations of such units to enable such units and combinations of such units to participate in the formulation of the comprehensive State plan required under this subchapter. The Administration may waive this requirement, in whole or in part, upon a finding that the requirement is inappropriate in view of the respective law enforcement and criminal justice planning responsibilities exercised by the State and its units of general local government and that adherence to the requirement would not contribute to the efficient development of the State plan required under this subchapter. In allocating funds under this subsection, the State planning agency shall assure that major cities and counties within the State receive planning funds to develop comprehensive plans and coordinate functions at the local level. Any portion of such 40 per centum in any State for any fiscal year not required for the purpose set forth in this subsection shall be available for expenditure by such State agency from time to time on dates during such year as the Administration may fix, for the development by it of the State plan required under this subchapter.

(d) Public meetings; notice of time, place, and nature of business; access to other than confidential records

The State planning agency and any other planning organization for the purposes of this chapter shall hold each meeting open to the public, giving public notice of the time and place of such meeting, and the nature of the business to be transacted, if final action is taken at that meeting on (A) the State plan, or (B) any application for funds under this chapter. The State planning agency and any other planning organization for the purposes of this chapter shall provide for public access to all records relating to its functions under this Act, except such records as are required to be kept confidential by any other provisions of local, State, or Federal law. (12) provide for such fund accounting, audit, monitoring, and evaluation procedures as may be necessary to assure fiscal control, proper management, and disbursement of funds received under this chapter;

(13) provide for the maintenance of such data and information, and for the submission of such reports in such form, at such times, and containing such data and information as the National Institute for Law Enforcement and Criminal Justice may reasonably require to evaluate pursuant to section 3742(c) of this title programs and projects carried out under this chapter and as the Administration may reasonably require to administer other provisions of this chapter;

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 3736 of this title.

§ 3736. Allocation of funds.

(a) Percentage limitation; land acquisition prohibition; Federal share for grants to Indian tribes or other aboriginal groups; State appropriation and private organization furnishing of moneys for non-Federal share of program or project cost; funding incentives of cooperating States and units of general local government for improvement of law enforcement and criminal justice.

The funds appropriated each fiscal year to make grants under this subchapter shall be allocated by the Administration as follows:

(1) Eighty-five per centum of such funds shall be allocated among the States according to their respective populations for grants to State planning agencies.

(2) Fifteen per centum of such funds, plus any additional amounts made available by virtue of the application of the provisions of sections 3735 and 3757 of this title to the grant of any State, may, in the discretion of the Administration, be allocated among the States for grants to State planning agencies, units of general local government, combinations of such units, or private nonprofit organizations, according to the criteria and on the terms and conditions the Administration determines consistent with this chapter.

Any grant made from funds available under paragraph (2) of this subsection may be up to 90 per centum of the cost of the program or project for which such grant is made. No part of any grant under such paragraph for the purpose of renting, leasing, or constructing buildings or other physical facilities shall be used for land acquisition. In the case of a grant under such paragraph to an Indian tribe or other aboriginal group, if the Administration determines that the tribe or group does not have sufficient funds available to meet the local share of the costs of any program or project to be funded under the grant, the Administration may increase the Federal share of the cost thereof to the extent it deems necessary. The limitations on the expenditure of portions of grants for the compensation of personnel in subsection (d) of section 3731 of this title shall apply to a grant under such paragraph. The non-Federal share of the cost of any program or project to be funded under this section shall be of money appropriated in the aggregate by the State or units of general local government, or provided in the aggregate by a private nonprofit organization. The Administration shall make grants in its discretion under paragraph (2) of this subsection in such a manner as to accord funding incentives to those States or units of general local government that coordinate law enforcement and criminal justice functions and activities with other such States or units of general local government thereof for the purpose of improving law enforcement and criminal justice.

(b) Reallocation of funds.

If the Administration determines, on the basis of information available to it during any fiscal year, that a portion of the funds allocated to a State for that fiscal year for grants to the State planning agency of the State will not be required by the State, or that the State will be unable to qualify to receive any portion of the funds under the requirements of this subchapter, that portion shall be available for reallocation to other States under paragraph (1) of subsection (a) of this section. (As amended Pub. L. 93–83, § 2, Aug. 6, 1973, 87 Stat. 203.)

The Institute shall, before the end of the fiscal year ending June 30, 1976, survey existing and future personnel needs of the Nation in the field of law enforcement and criminal justice and the adequacy of Federal, State and local programs to meet such needs. Such survey shall specifically determine the effectiveness and sufficiency of the training and academic assistance programs carried out under this chapter and relate such programs to actual manpower and training requirements in the law enforcement and criminal justice field. In carrying out the provisions of this section, the Director of the Institute shall consult with and make maximum use of statistical and other related information of the Department of Labor, Department of Health, Education, and Welfare, Federal, State and local criminal justice agencies and other appropriate public and private agencies. The Administration shall thereafter, within a reasonable time develop and issue guidelines, based upon the need priorities established by the survey, pursuant to which project grants for training and academic assistance programs shall be made.

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in section 4104a of this title.

§ 4001. Congressional findings and declaration of purpose.

* * * * *

(g) The Congress also finds that (1) the damage and loss which may result from the erosion and undermining of shorelines by waves or currents in lakes and other bodies of water exceeding anticipated cyclical levels is related in cause and similar in effect to that which results directly from storms, deluges, overflowing waters, and other forms of flooding, and (2) the problems involved in providing protection against this damage and loss, and the possibilities

for making such protection available through a Federal or federally sponsored program, are similar to those which exist in connection with efforts to provide protection against damage and loss caused by such other forms of flooding. It is therefore the further purpose of this chapter to make available, by means of the methods, procedures, and instrumentalities which are otherwise established or available under this chapter for purposes of the flood insurance program, protection against damage and loss resulting from the erosion and undermining of shorelines by waves or currents in lakes and other bodies of water exceeding anticipated cyclical levels. (As amended Pub. L. 93–234, title I, § 108(a), Dec. 31, 1973, 87 Stat. 979.)

AMENDMENTS

1973—Subsec. (g). Pub. L. 93–234 added subsec. (g).

§ 4002. Additional Congressional findings and declaration of purpose.

(a) The Congress finds that—

(1) annual losses throughout the Nation from floods and mudslides are increasing at an alarming rate, largely as a result of the accelerating development of, and concentration of population in, areas of flood and mudslide hazards;

(2) the availability of Federal loans, grants, guaranties, insurance, and other forms of financial assistance are often determining factors in the utilization of land and the location and construction of public and of private industrial, commercial, and residential facilities;

(3) property acquired or constructed with grants or other Federal assistance may be exposed to risk of loss through floods, thus frustrating the purpose for which such assistance was extended;

(4) Federal instrumentalities insure or otherwise provide financial protection to banking and credit institutions whose assets include a substantial number of mortgage loans and other indebtedness secured by property exposed to loss and damage from floods and mudslides;

(5) the Nation cannot afford the tragic losses of life caused annually by flood occurrences, nor the increasing losses of property suffered by flood victims, most of whom are still inadequately compensated despite the provision of costly disaster relief benefits; and

(6) it is in the public interest for persons already living in flood-prone areas to have both an opportunity to purchase flood insurance and access to more adequate limits of coverage, so that they will be indemnified for their losses in the event of future flood disasters.

(b) The purpose of this Act, therefore, is to—

(1) substantially increase the limits of coverage authorized under the national flood insurance program;

(2) provide for the expeditious identification of, and the dissemination of information concerning, flood-prone areas;

(3) require States or local communities, as a condition of future Federal financial assistance, to participate in the flood insurance program and to adopt adequate flood plan ordinances with effective enforcement provisions consistent with Federal standards to reduce or avoid future flood losses; and

(4) require the purchase of flood insurance by property owners who are being assisted by Federal programs or by federally supervised, regulated, or insured agencies or institutions in the acquisition or improvement of land or facilities located or to be located in identified areas having special flood hazards.

(2) establish flood-risk zones in all such areas, and make estimates with respect to the rates of probable flood-caused loss for the various flood-risk zones for each of these areas, within fifteen years following such date.

(b) Accelerated identification of flood-risk zones; authority of Secretary: grants, technical assistance, transactions, and payments.

The Secretary is directed to accelerate the identification of risk zones within flood-prone and mudslide-prone areas, as provided by subsection (a)(2) of this section, in order to make known the degree of hazard within each such zone at the earliest possible date. To accomplish this objective, the Secretary is authorized, without regard to section 529 of Title 31 and section 5 of Title 41, to make grants, provide technical assistance, and enter into contracts, cooperative agreements, or other transactions, on such terms as he may deem appropriate, or consent to modifications thereof, and to make advance or progress payments in connection therewith.

§ 4102. Criteria for land management and use.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 4104 of this title.

§ 4104. Flood elevation determinations.

(a) Publication or notification of proposed flood elevation determinations.

In establishing projected flood elevations for land use purposes with respect to any community pursuant to section 4102 of this title, the Secretary shall first propose such determinations by publication for comment in the Federal Register, by direct notification to the chief executive officer of the community, and by publication in a prominent local newspaper.

(b) Publication of flood elevation determinations; appeal of owner or lessee to local government; scientific or technical knowledge or information as basis for appeal; modification of proposed determinations.

The Secretary shall publish notification of flood elevation determinations in a prominent local newspaper at least twice during the ten-day period following notification to the local government. During the ninety-day period following the second publication, any owner or lessee of real property within the community who believes his property rights to be adversely affected by the Secretary's proposed determination may appeal such determination to the local government. The sole basis for such appeal shall be the possession of knowledge or information indicating that the elevations being proposed by the Secretary with respect to an identified area having special flood hazards are scientifically or technically incorrect, and the sole relief which shall be granted under the authority of this section in the event that such appeal is sustained in accordance with subsection (e) or (f) of this section is a modification of the Secretary's proposed determination accordingly.

(c) Appeals by private persons; submission of negativing or contradicting data to community; opinion of community respecting justification for appeal by community; transmission of individual appeals to Secretary; filing of community action with Secretary.

Appeals by private persons shall be made to the chief executive officer of the community, or to such agency as he shall publicly designate, and shall set forth the data that tend to negate or contradict the Secretary's finding in such form as the chief executive officer may specify. The community shall review and consolidate all such appeals and issue a written opinion stating whether the evidence presented is sufficient to justify an appeal on behalf of such persons by the community in its own name. Whether or not the community decides to appeal the Secretary's determination, copies of individual appeals shall be sent to the Secretary as they are received by the community, and the community's appeal or a copy of its decision not to appeal shall be filed with the Secretary not later than ninety days after the date of the second newspaper publication of the Secretary's notification.

(d) Administrative review of appeals by private persons; modification of proposed determinations; decision of Secretary: form and distribution.

In the event the Secretary does not receive an appeal from the community within the ninety days provided, he shall consolidate and review on their own merits, in accordance with the procedures set forth in subsection (e) of this section, the appeals filed within the community by private persons and shall make such modifications of his proposed determinations as may be appropriate, taking into account the written opinion, if any, issued by the community in not supporting such appeals. The Secretary's decision shall be in written form, and copies thereof shall be sent both to the chief executive officer of the community and to each individual appellant.

(e) Administrative review of appeals by community; agencies for resolution of conflicting data; availability of flood insurance pending such resolution; time for determination of Secretary; community adoption of local land use and control measures within reasonable time of final determination; public inspection and admissibility in evidence of reports and other administrative information.

Upon appeal by any community, as provided by this section, the Secretary shall review and take fully into account any technical or scientific data submitted by the community that tend to negate or contradict the information upon which his proposed determination is based. The Secretary shall resolve such appeal by consultation with officials of the local government involved, by administrative hearing, or by submission of the conflicting data to an independent scientific body or appropriate Federal agency for advice. Until the conflict in data is resolved, and the Secretary makes a final determination on the basis of his findings in the Federal Register, and so notifies the governing body of the community, flood insurance previously available within the community shall continue to be available, and no person shall be denied the right to purchase such insurance at chargeable rates. The Secretary shall make his determination within a reasonable time. The community shall be given a reasonable time after the Secretary's final determination in which to adopt local land use and control measures consistent with the Secretary's determination. The reports and other information used by the Secretary in making his final determination shall be made available for public inspection and shall be admissible in a court of law in the event the community seeks judicial review as provided by this section.

(f) Judicial review of final administrative determinations; venue; time for appeal; scope of review; good cause for stay of final determinations.

Any appellant aggrieved by any final determination of the Secretary upon administrative appeal, as provided by this section, may appeal such determination to the United States district court for the district within which the community is located not more than sixty days after receipt of notice of such determination. The scope of review by the court shall be as provided by chapter 7 of Title 5. During the pendency of any such litigation, all final determinations of the Secretary shall be effective for the purposes of this chapter unless stayed by the court for good cause shown. (Pub. L. 90–448, title XIII, § 1363, as added Pub. L. 93–234, title I, § 110, Dec. 31, 1973, 87 Stat. 980.)

§ 4104a. Notification of purchaser or lessee of special flood hazards in area of location of improved real estate or mobile home securing loan; regulations prescribing procedures.

Each Federal instrumentality responsible for the supervision, approval, regulation, or insuring of banks, savings and loan associations, or similar institutions shall by regulation require such institutions, as a condition of making, increasing, extending, or renewing (after the expiration of thirty days following August 22, 1974) any loan secured by improved real estate or a mobile home located or to be located in an area that has been identified by the Secretary under this chapter or Public Law 93–234 as an area having special flood hazards, to notify the purchaser or lessee (or obtain satisfactory assurances that the seller or lessor has notified the purchaser or lessee) of such special flood hazards, in writing, a reasonable period in advance of the signing of the purchase agreement, lease, or other documents involved in the transaction. (Pub. L. 90–448, title XIII, § 1364, as added Pub. L. 93–383, title VIII, § 816(a), Aug. 22, 1974, 88 Stat. 739.)

§ 4105. Disaster mitigation requirements; notification to flood-prone areas.

(a) Initial notification.

Not later than six months following December 31, 1973, the Secretary shall publish information in accordance with section 4101(1) of this title, and shall notify the chief executive officer of each known flood-prone community not already participating in the national flood insurance program of its tentative identification as a community containing one or more areas having special flood hazards.

(b) Alternative actions of tentatively identified communities; public hearing; opportunity for submission of evidence; finality of administrative determination of existence or extent of flood hazard area.

After such notification, each tentatively identified community shall either (1) promptly make proper application to participate in the national flood insurance program or (2) within six months submit technical data sufficient to establish to the satisfaction of the Secretary that the community either is not seriously flood prone or that such flood hazards as may have existed have been corrected by floodworks or other flood control methods. The Secretary may, in his discretion, grant a public hearing to any community with respect to which conflicting data exist as to the nature and extent of a flood hazard. If the Secretary decides not to hold a hearing, the community shall be given an opportunity to submit written and documentary evidence. Whether or not such hearing is granted, the Secretary's final determination as to the existence or extent of a flood hazard area in a particular community shall be

deemed conclusive for the purposes of this Act if supported by substantial evidence in the record considered as a whole.

(c) Subsequent notification to additional communities known to be flood-prone areas.

As information becomes available to the Secretary concerning the existence of flood hazards in communities not known to be flood prone at the time of the initial notification provided for by subsection (a) of this section he shall provide similar notifications to the chief executive officers of such additional communities, which shall then be subject to the requirements of subsection (b) of this section.

(d) Provisions of section 4106 applicable to flood-prone communities disqualified for flood insurance program.

Formally identified flood-prone communities that do not qualify for the national flood insurance program within one year after such notification or by the date specified in section 4106 of this title, whichever is later, shall thereafter be subject to the provisions of that section relating to flood-prone communities which are not participating in the program. (Pub. L. 93–234, title II, § 201, Dec. 31, 1973, 87 Stat. 982.)

Such consultation shall include, but not be limited to, fully informing local officials at the commencement of any flood elevation study or investigation undertaken by any agency on behalf of the Secretary concerning the nature and purpose of the study, the areas involved, the manner in which the study is to be undertaken, the general principles to be applied, and the use to be made of the data obtained. (a) Promulgation by President of regulations governing administrative procedures.

The President shall promulgate such regulations as may be necessary or appropriate to assure that this chapter is applied by all Federal agencies in a consistent manner and in accordance with its purposes. He may, for this purpose, require that Federal agencies adopt or prescribe procedures that will assure that applicants for assistance to projects funded pursuant to the provisions of this chapter make appropriate efforts (1) to secure the views and recommendations of non-Federal agencies that may be significantly affected by such projects, and (2) to resolve questions of common interest to those agencies prior to submission of any application.

(b) Authorized activities of heads of Federal agencies pursuant to internal agency orders or interagency agreements.

Subject to such regulations as the President may prescribe, and to other applicable law, the heads of Federal agencies, by internal agency order or interagency agreement, may take the following actions:

(1) Identification of related programs likely to be particularly suitable or appropriate for providing joint support for specific kinds of projects thereunder.

(2) Development and promulgation of guidelines, model or illustrative projects, joint or common application forms, and other material or guidance to assist in the planning and development of projects drawing support from different programs.

(3) Review of administratively established program requirements in order to determine which of those requirements may impede joint support of projects thereunder and the extent to which such requirements may be modified, making such modifications where appropriate.

(4) Establishment of common technical or administrative rules with respect to related programs to assist in the joint use of funds in the support of specific projects or classes of projects under such programs.

(5) Creation of joint or common application processing and project supervision procedures or mechanisms including procedures for designating lead agencies to assume responsibilities for processing applications on behalf of several agencies and for designation of managing agencies to assume responsibilities for project supervision on behalf of several agencies.

(c) Responsibilities of heads of Federal agencies with respect to Federal assistance programs administered by agencies.

The head of each Federal agency shall be responsible for taking actions, to the maximum extent permitted under applicable law, that will further the purpose of this chapter with respect to Federal assistance programs administered by his agency. Each Federal agency head shall also consult and cooperate with the heads of other Federal agencies

in order similarly to promote the purposes of this chapter with respect to Federal assistance programs of different agencies that may be used jointly in support of projects undertaken by State or local governments, or private, nonprofit organizations. § 4253. Activities by heads of Federal agencies relating to application processing or assistance requests under two or more Federal programs supporting any project; criteria.

Actions taken by Federal agency heads pursuant to this chapter that relate to the processing of applications or requests for assistance under two or more Federal programs in support of any project shall be designed to assure, so far as reasonably possible, that (1) all required reviews and approvals are handled expeditiously; (2) full account is taken of any special considerations of timing that are made known by the applicant that would affect the feasibility of a jointly funded project; (3) the applicant is required to deal with a minimum number of Federal representatives, acting separately or as a common board or panel; (4) the applicant is promptly informed of decisions with respect to an application and of any special problems or impediments that may affect the feasibility of Federal provision of assistance on a joint basis; and (5) the applicant is not required by representatives of any one Federal agency or program to obtain information or assurances concerning the requirements or action of another Federal agency that could more appropriately be secured through direct communication among the Federal agencies involved. (Pub. L. 93–510, § 4, Dec. 5, 1974, 88 Stat. 1605.)

EFFECTIVE AND EXPIRATION DATES

Section effective sixty days following Dec. 5, 1974, and expiring five years following such effective date, except that expiration shall not affect the status of any project approved prior to expiration date, see section 13 of Pub. L. 93–510, set out as a note under section 4251 of this title.

§ 4254. Special authorities of heads of Federal agencies with respect to projects assisted under more than one Federal assistance program; exercise pursuant to regulations prescribed by President.

Where appropriate to further the purposes of this chapter, and subject to the conditions prescribed in this section, heads of Federal agencies may use the authorities described in sections 4255, 4256, and 4257 of this title (relating to the establishment of uniform technical or administrative requirements, delegation of powers and responsibilities, and establishment of joint management funds) with respect to projects assisted under more than one Federal assistance program. These authorities shall be exercised only pursuant to regulations prescribed by the President. Those regulations shall include criteria or procedures to assure that the authorities are limited in use to problems that cannot be adequately dealt with through other actions pursuant to this chapter or other applicable law, that they are applied only as necessary to promote expeditious processing of applications or effective and efficient administration of projects, and that they are applied in a manner consistent with the protection of the Federal interest and with program purposes and statutory requirements. (Pub. L. 93–510, § 5, Dec. 5, 1974, 88 Stat. 1605.)

EFFECTIVE AND EXPIRATION DATES

§ 4255. Establishment by heads of Federal agencies of uniform technical and administrative provisions.

(a) Requirements for projects.

In order to provide for projects that would otherwise be subject to varying or conflicting technical or administrative rules and procedures not required by law, the heads of Federal agencies may adopt uniform provisions with respect to—

(1) inconsistent or conflicting requirements relating to financial administration of such projects, including accounting, reporting and auditing, and maintaining separate bank accounts, but only to the extent consistent with the requirements of section 4257 of this title;

(2) inconsistent or conflicting requirements relating to the timing of Federal payments for such projects where a single or combined schedule is to be established for the project as a whole;

(3) inconsistent or conflicting requirements that assistance be extended in the form of a grant rather than a contract, or a contract rather than a grant; and

(4) inconsistent of conflicting requirements relating to accountability for, or the disposition of, records, property, or structures acquired or constructed with Federal assistance where common rules are established for the project as a whole.

(b) Review of project proposals.

In order to permit processing of applications in accordance with the purposes of this chapter, Federal agency heads may provide for review of proposals for projects by a single panel, board, or committee in lieu of review by separate panels, boards, or committees except when such review is specifically required by law.

(c) Waiver of single or specific public agency requirement for administering Federal assistance drawn upon by jointly funded project.

In promoting the more effective and efficient use of Federal assistance resources, Federal agency heads may waive requirements that a single or specific public agency be utilized or designated to receive, supervise, or otherwise administer a part of the Federal assistance drawn upon by any jointly funded project to the extent that administration by another public agency is determined to be fully consistent with applicable State or local law and with the objectives of the Federal assistance program involved. This authority may be exercised only (1) upon request of the head of a unit of general government, with respect to agencies that he certifies to be under his jurisdiction, or (2) with the agreement of the several State or local public agencies concerned. (Pub. L. 93–510, § 6, Dec. 5, 1974, 88 Stat. 1606.)

EFFECTIVE AND EXPIRATION DATES

Section effective sixty days following Dec. 5, 1974, and expiring five years following such effective date, except that expiration shall not affect the status of any project approved prior to the expiration date, see section 13 of Pub. L. 93–510, set out as a note under section 4251 of this title.

§ 4256. Delegation by Federal agency heads of powers and functions relating to supervision, etc., of Federal assistance; approval by President; conditions.

With the approval of the President, agency heads may delegate to other Federal agencies powers and functions relating to the supervision or administration of Federal assistance, or otherwise arrange for other agencies to perform such activities, with respect to projects or classes of projects funded under the terms of this chapter. Delegations under this section shall be made only on such conditions as may be appropriate to assure that the powers and functions delegated are exercised in full conformity with applicable statutory provisions and policies, and shall not relieve agency heads of responsibility for the proper and efficient management of projects funded by their agencies. (Pub. L. 93–510, § 7, Dec. 5, 1974, 88 Stat. 1606.)

§ 4257. Joint management fund for financing of projects.

(a) Establishment for funds drawn from more than one Federal program or appropriation; transfer to fund of proportionate amounts from program or appropriation for payment to grantee; return to fund of unexpended amounts.

In order to provide for the more effective administration of funds drawn from more than one Federal program or appropriation in support of projects under this chapter, there may be established joint management funds with respect to such projects. There shall be transferred to the joint management fund from each affected program or appropriation, from time to time, its proportionate share of amounts needed for payment to the grantee. Any unexpended amounts shall be returned to the joint management fund by the grantee at the completion of the project.

(b) Agreements by concerned Federal agencies relating to fund accounts; required provisions.

Any account in a joint management fund shall be subject to such agreements, not inconsistent with this section and other applicable law, as may be entered into by the Federal agencies concerned with respect to the discharge of the responsibilities of those agencies and shall assure the availability of necessary information to those agencies and to the Congress. These agreements shall also provide that the agency administering a joint management fund shall be responsible and accountable by program and appropriation for the amounts provided for the purposes of each account established in the fund; and shall include procedures for determining, from time to time, whether amounts in the account are in excess of the amounts required, and for returning that excess to the participating Federal agencies according to the applicable appropriations, subject to fiscal year limitations. Excess amounts applicable to expired appropriations will be lapsed from that fund.

(c) Recordkeeping requirements for recipients of moneys drawn from fund; prescription by Federal agency head responsible for administering fund.

For each project financed through an account in a joint management fund established pursuant to this section, the recipients of moneys drawn from the fund shall keep such records as the head of the Federal agency responsible for administering the fund will prescribe. Such records shall, as a minimum, fully disclose the amount and disposition by such recipient of Federal assistance received under each program and appropriation, the total cost of the project in connection with which such Federal assistance was given or used, the amount of that portion of the cost of the project supplied by other sources, and such other records as will facilitate an effective audit.

(d) Audit and examination of books, etc., of recipient by Federal agency head responsible for administering fund and Comptroller General.

The head of the Federal agency responsible for administering such joint management fund and the Comptroller General of the United States or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of such recipients that are pertinent to the moneys received from such fund.

(e) Establishment of single non-Federal share.

In the case of any project covered in a joint management fund, a single non-Federal share may be established according to the Federal share ratios applicable to the several Federal assistance programs involved and the proportion of funds transferred to the project account from each of these programs. (Pub. L. 93–510, § 8, Dec. 5, 1974, 88 Stat. 1606.)

These agreements may include arrangements for the processing of requests for, or the administration of, assistance to such projects on a joint basis. (Pub. (1) Manage the public lands to protect all animal resources thereon in the manner most consistent with the public trust in which such lands are held.

(2) Conduct all mammal or bird damage control programs in a manner which contributes to the maintenance of environmental quality, and to the conservation and protection of the Nation's wildlife resources, including predatory animals.

(3) Restrict the use on public lands and in Federal predator control programs of any chemical toxicant for the purpose of killing predatory animals or birds which would have secondary poisoning effects.

(5) assure that where chemical toxicants or devices are used pursuant to Section 3(b), only those combinations of toxicants and techniques will be used which best serve human health and safety and which minimize the use of toxicants and best protect nontarget wildlife species and those individual predatory animals and birds which do not cause damage, consistent with the policies of this Order.

SEC. 2. Definitions. As used in this Order the term:

(e) "Secondary poisoning effect" means the result attributable to a chemical toxicant which, after being ingested, inhaled, or absorbed, or when applied to or injected into, a mammal, bird, reptile or fish, is retained in its tissue, or otherwise retained in such a manner and quantity that the tissue itself or retaining part if thereafter ingested by man, mammal, bird, reptile or fish, produces the effects set forth in paragraph (c) of this Section.

(f) "Field use" means use on lands not in, or immediately adjacent to occupied buildings.

SEC. 3. Restrictions on Use of Toxicants. (a) Heads of agencies shall take such action as is necessary to prevent on any Federal lands under their jurisdiction, or in any Federal program of mammal or bird damage control under their jurisdiction:

(1) the field use of any chemical toxicant for the purpose of killing a predatory mammal or bird; or

(2) the field use of any chemical toxicant which causes any secondary poisoning effect for the purpose of killing mammals, birds, or reptiles.

(b) Notwithstanding the provisions of subsection (a) of a chemical toxicant for the purpose of killing predathe emergency use on Federal lands under his jurisdiction of a chemical toxicant for the purpose of killing predatory mammals or birds, or of a chemical toxicant which causes a secondary poisoning effect for the purpose of killing other mammals, birds, or reptiles, but only if in each specific case he makes a written finding, following consultation with the Secretaries of the Interior, Agriculture, and Health, Education, and Welfare, and the Administrator of the Environmental Protection Agency, that an emergency exists that cannot be dealt with by means which do not involve use of chemical toxicants, and that such use is essential:

(1) to the protection of the health or safety of human life;

(2) to the preservation of one or more wildlife species threatened with extinction, or likely within the foreseeable future to become so threatened; or

(3) to the prevention of substantial irretrievable damage to nationally significant natural resources.

SEC. 4. Rules for Implementation of Order. Heads of agencies shall issue such rules or regulations as may be necessary and appropriate to carry out the provisions and policy of this Order.

EX. ORD. NO. 11644. USE OF OFF-ROAD VEHICLES ON PUBLIC LANDS

Ex. Ord. No. 11644, Feb. 8, 1972, 37 F.R. 2877, provided:

An estimated 5 million off-road recreational vehicles—motorcycles, minibikes, trail bikes, snowmobiles, dune-buggies, all-terain vehicles, and others—are in use in the United States today, and their popularity continues to increase rapidly. The widespread use of such vehicles on the public lands—often for legitimate purposes but also in frequent conflict with wise land and resource management practices, environmental values, and other types of recreational activity—has demonstrated the need for a unified Federal policy toward the use of such vehicles on the public lands.

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States by the Constitution of the United States and in furtherance of the purpose and policy of the National Environmental Policy Act of 1969 (42 U.S.C. 4321) [this chapter], it is hereby ordered as follows:

SECTION 1. *Purpose.* It is the purpose of this order to establish policies and provide for procedures that will ensure that the use of off-road vehicles on public lands will be controlled and directed so as to protect the resources of those lands, to promote the safety of all users of those lands, and to minimize conflicts among the various uses of those lands.

SEC. 2. *Definitions.* As used in this order, the term:

(1) "public lands" means (A) all lands under the custody and control of the Secretary of the Interior and the Secretary of Agriculture, except Indian lands, (B) lands under the custody and control of the Tennessee Valley Authority that are situated in western Kentucky and Tennessee and are designated as "Land Between the Lakes," and (C) lands under the custody and control of the Secretary of Defense;

(2) "respective agency head" means the Secretary of the Interior, the Secretary of Defense, the Secretary of Agriculture, and the Board of Directors of the Tennessee Valley Authority, with respect to public lands under the custody and control of each;

(3) "off-road vehicle" means any motorized vehicle designed for or capable of cross-country travel on or immediately over land, water, sand, snow, ice, marsh, swampland, or other natural terrain; except that such term excludes (A) any registered motorboat, (B) any military, fire, emergency, or law enforcement vehicle when used for emergency purposes, and (C) any vehicle whose use is expressly authorized by the respective agency head under a permit, lease, license, or contract; and

(4) "official use" means use by an employee, agent, or designated representative of the Federal Government or one of its contractors in the course of his employment, agency, or representation.

SEC. 3. *Zones of Use.* (a) Each respective agency head shall develop and issue regulations and administrative instructions, within six months of the date of this order, to provide for administrative designation of the specific areas and trails on public lands on which the use of off-road vehicles may be permitted, and areas in which the use of off-road vehicles may not be permitted, and set a date by which such designation of all public lands shall be completed. Those regulations shall direct that the designation of such areas and trails will be based upon the protection of the resources of the public lands, promotion of the safety of all users of those lands, and minimization of conflicts among the various uses of those lands. The regulations shall further require that the designation of such areas and trails shall be in accordance with the following—

(1) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, or other resources of the public lands.

(2) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats.

(3) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.

(4) Areas and trails shall not be located in officially designated Wilderness Areas or Primitive Areas. Areas and trails shall be located in areas of the National Park system, Natural Areas, or National Wildlife Refuges and Game Ranges only if the respective agency head determines that off-road vehicle use in such locations will not adversely affect their natural, aesthetic, or scenic values.

(b) The respective agency head shall ensure adequate opportunity for public participation in the promulgation of such regulations and in the designation of areas and trails under this section.

(c) The limitations on off-road vehicle use imposed under this section shall not apply to official use.

SEC. 4. *Operating Conditions.* Each respective agency head shall develop and publish, within one year of the date of this order, regulations prescribing operating conditions for off-road vehicles on the public lands. These regulations shall be directed at protecting resource values, preserving public health, safety, and welfare, and minimizing use conflicts.

SEC. 5. *Public Information.* The respective agency head shall ensure that areas and trails where off-road vehicle use is permitted are well marked and shall provide for the publication and distribution of information, including maps, describing such areas and trails and explaining the conditions on vehicle use. He shall seek cooperation of relevant State agencies in the dissemination of this information.

SEC. 6. *Enforcement.* The respective agency head shall, where authorized by law, prescribe appropriate penalties for violation of regulations adopted pursuant to this order, and shall establish procedures for the enforcement of those regulations. To the extent permitted by law, he may enter into agreements with State or local governmental agencies for cooperative enforcement of laws and regulations relating to off-road vehicle use.

SEC. 7. *Consultation.* Before issuing the regulations or administrative instructions required by this order or designating areas or trails are required by this order and those regulations and administrative instructions, the Secretary of the Interior shall, as appropriate, consult with the Atomic Energy Commission.

SEC. 8. *Monitoring of Effects and Review.* (a) The respective agency head shall monitor the effects of the use of off-road vehicles on lands under their jurisdictions. On the basis of the information gathered, they shall from time to time amend or rescind designation of areas or other actions taken pursuant to this order as necessary to further the policy of this order.

(b) The Council on Environmental Quality shall maintain a continuing review of the implementation of this order.

§ 4331. Congressional declaration of national environmental policy.

EXECUTIVE ORDER NO. 11507

Ex. Ord. No. 11507, Feb. 4, 1970, 35 F.R. 2573, set out as a note under this section, which related to prevention, control, and abatement of air and water pollution at federal facilities was superseded by Ex. Ord. No. 11752, Dec. 17, 1973, 38 F.R. 34793, set out as a note under this section.

EX. ORD. NO. 11752. PREVENTION, CONTROL, AND ABATEMENT OF ENVIRONMENTAL POLLUTION AT FEDERAL FACILITIES

Ex. Ord. No. 11752, Dec. 17, 1973, 38 F.R. 34793, provided:

By virtue of the authority vested in me as President of the United States of America, including section 301 of title 3 of the United States Code, and in furtherance of the purpose and policies of the Clean Air Act, as amended (42 U.S.C. 1857), the Federal Water Pollution Control

Act, as amended (33 U.S.C. 1251), the Solid Waste Disposal Act, as amended (42 U.S.C. 3251), the Noise Control Act of 1972 (42 U.S.C. 4901), the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1431), the Federal Insecticide, Fungicide, and Rodenticide Act, as amended by the Federal Environmental Pesticide Control Act of 1972 (7 U.S.C. 136), and the National Environmental Policy Act of 1969 (42 U.S.C. 4321) [this chapter], it is ordered as follows:

SECTION 1. *Policy.* It is the purpose of this order to assure that the Federal Government, in the design, construction, management, operation, and maintenance of its facilities, shall provide leadership in the nationwide effort to protect and enhance the quality of our air, water, and land resources through compliance with applicable standards for the prevention, control, and abatement of environmental pollution in full cooperation with State and local governments. Compliance by Federal facilities with Federal, State, interstate, and local substantive standards and substantive limitations, to the same extent that any person is subject to such standards and limitations, will accomplish the objective of providing Federal leadership and cooperation in the prevention of environmental pollution. In light of the principle of Federal supremacy embodied in the Constitution, this order is not intended, nor should it be interpreted, to require Federal facilities to comply with State or local administrative procedures with respect to pollution abatement and control.

SEC. 2. *Definitions.* As used in this order:

(1) The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) The term "Federal agencies" means the departments, agencies, establishments, and instrumentalities of the executive branch.

(3) The term "State, interstate, and local agencies" means any of the following:

(B) any agency established by two or more States and having substantial powers or duties pertaining to the prevention, control, and abatement of environmental pollution;

(C) a city, county, or other local government authority charged with responsibility for enforcing ordinances or laws relating to the prevention, control, and abatement of environmental pollution; or

(D) an agency of two or more municipalities located in the same State or in different States and having substantial powers or duties pertaining to the prevention, control, and abatement of environmental pollution.

(4) The term "facilities" means the buildings, installations, structures, land, public works, equipment, aircraft, vessels, and other vehicles and property, owned by, or constructed or manufactured for the purpose of leasing to, the Federal Government.

(5) The term "United States" means the fifty States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands.

SEC. 3. *Responsibilities.* (a) Heads of Federal agencies shall, with regard to all facilities under their jurisdiction in the United States:

(1) Ensure that applicable standards specified in section 4 of this order are met on a continuing basis.

(2) Cooperate with the Administrator and State, interstate, and local agencies in the prevention, control, and abatement of environmental pollution and, in accordance with guidelines issued by the Administrator, provide to the Administrator and to those agencies such information as is necessary to determine compliance with applicable standards. Such cooperation shall include development of an abatement plan and schedule for meeting applicable standards.

(3) Present to the Director of the Office of Management and Budget, annually, a plan to provide for such improvement in the design, construction, management, operation, and maintenance of existing facilities as may be necessary to meet applicable standards specified in section 4.

(4) Consider the environmental impact in the initial stages of planning for each new facility or modification to an existing facility in accordance with the National Environmental Policy Act [this chapter].

(5) Include with all budget requests for the design and construction of new facilities or for modification of existing facilities funds for such measures as may be necessary to meet applicable standards specified in section 4. Budget requests shall reflect the most efficient alternative for meeting applicable standards.

(6) Consult, as appropriate, with the Administrator and with State and local agencies concerning the best techniques and methods available for the prevention, control, and abatement of environmental pollution.

(7) Ensure that any funds appropriated and apportioned for the prevention, control, and abatement of environmental pollution are not used for any other purpose unless permitted by law and unless specifically approved by the Office of Management and Budget.

(b) Where activities are carried out at Federal facilities acquired by leasing or other Federal agreements, the head of the responsible agency may at his discretion, to the extent permissible under applicable statutes and regulations, require the lessee or permittee to assume full responsibility for complying with standards for the prevention, control, and abatement of environmental pollution.

(c) Heads of Federal agencies responsible for the construction and operation of Federal facilities outside the United States shall assure that such facilities are operated so as to comply with the environmental pollution standards of general applicability in the host country or jurisdictions concerned.

(d) The Administrator shall:

(1) Provide technical advice and assistance to the heads of Federal agencies in connection with their duties and responsibilities under this order.

(2) Maintain such review of Federal facilities' compliance with the standards specified in section 4 as may be necessary.

(3) Provide liaison as required to assure that actions taken by Federal agencies pursuant to this order are coordinated with State, interstate, and local programs for the prevention, control, and abatement of environmental pollution.

(4) Mediate conflicts between Federal agencies and State, interstate, or local agencies in matters affecting the application of, or compliance with, applicable standards specified in section 4.

(5) Develop in consultation with the heads of other Federal agencies a coordinated strategy for Federal facility compliance with applicable standards specified in section 4 which incorporates, to the maximum extent practicable, common procedures for an integrated approach to Federal agency compliance with such standards, and issue such regulations and guidelines as are deemed necessary to facilitate implementation of that strategy and to provide a framework for coordination and cooperation among the Environmental Protection Agency, the other Federal agencies, and the State, interstate, and local agencies.

(6) Maintain a continuing review of the implementation of this order and, from time to time, report to the President on the progress of the Federal agencies in implementing this order.

SEC. 4. *Standards.* (a) Heads of Federal agencies shall ensure that all facilities under their jurisdiction are designed, constructed, managed, operated, and maintained so as to conform to the following requirements.

(1) Federal, State, interstate, and local air quality standards and emission limitations adopted in accordance with or effective under the provisions of the Clean Air Act, as amended [section 1857 et seq. of this title].

(4) Guidelines for solid waste recovery, collection, storage, separation, and disposal systems issued by the Administrator pursuant to the Solid Waste Disposal Act, as amended [section 3251 et seq. of this title].

(5) Federal noise emission standards for products adopted in accordance with provisions of the Noise Control Act of 1972 [section 4901 et seq. of this title] and State, interstate, and local standards for control and abatement of environmental noise.

(6) Federal guidance on radiation and generally applicable environmental radiation standards promulgated or recommended by the Administrator and adopted in accordance with the Atomic Energy Act, as amended (42 U.S.C. 2011), and rules, regulations, requirements, and guidelines on discharges of radioactivity as prescribed by the Atomic Energy Commission.

(b) In those cases in which there are no environmental pollution standards as specified in subsection (a) for a particular geographic area or class of Federal facilities, the Administrator, in consultation with appropriate Federal, State, interstate, and local agencies, may issue regulations, which shall be published in the FEDERAL REGISTER, establishing environmental pollution standards for the purpose of this order.

SEC. 5. *Exemptions.* (a) The heads of Federal agencies, in consultation with the Administrator, may, from time to time, identify facilities or uses thereof which are exempted from applicable standards specified in section 4 in the interest of national security or in extraordinary cases in which it is in the paramount interest of the United States. No such exemptions shall be made except as are permissibe under applicable Federal law.

(b) In any case in which the Administrator does not agree with a determination to exempt a facility or use thereof from the provisions of this order, the head of the Federal agency making such a determination must have the approval of the Director of the Office of Management and Budget to exempt that facility or use thereof; except that, the Administrator is solely responsible for approval of exemptions under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended by the Federal Environmental Pesticide Control Act of 1972 [section 136 et seq. of Title 7, Agriculture].

(c) The heads of Federal agencies shall present to the Director of the Office of Management and Budget at the end of each calendar year a report of all exemptions made during that year, together with the justification for each such exemption.

SEC. 6. *Saving Provisions.* Except to the extent that they are inconsistent with this order, all outstanding rules, regulations, orders, delegations, or other forms of administrative action issued, made, or otherwise taken under the order superseded by Section 7 hereof or relating to the subject of this order shall remain in full force and effect until amended, modified, or terminated by proper authority.

(1) The content of any record referred to in subsection (a) of this section may be disclosed in accordance with the prior written consent of the patient with respect to whom such record is maintained, but only to such extent, under such circumstances, and for such purposes as may be allowed under regulations prescribed pursuant to subsection (g) of this section.

(2) Whether or not the patient, with respect to whom any given record referred to in subsection (a) of this section is maintained, gives his written consent, the content of such record may be disclosed as follows:

(A) To medical personnel to the extent necessary to meet a bona fide medical emergency.

(B) To qualified personnel for the purpose of conducting scientific research, management audits, financial audits, or program evaluation, but such personnel may not identify, directly or indirectly, any individual patient in any report of such research, audit, or evaluation, or otherwise disclose patient identities in any manner.

(C) If authorized by an appropriate order of a court of competent jurisdiction granted after application showing good cause therefor. In assessing good cause the court shall weigh the public interest and the need for disclosure against the injury to the patient, to the physician-patient relationship, and to the treatment services. Upon the granting of such order, the court, in determining the extent to which any disclosure of all or any part of any record is necessary, shall impose appropriate safeguards against unauthorized disclosure.

(c) Prohibition against use of record in making criminal charges or investigation of patient.

Except as authorized by a court order granted under subsection (b)(2)(C) of this section, no record referred to in subsection (a) of this section may be used to initiate or substantiate any criminal charges against a patient or to conduct any investigation of a patient.

(d) Continuing prohibition against disclosure irrespective of status as patient.

The prohibitions of this section continue to apply to records concerning any individual who has been a patient, irrespective of whether or when he ceases to be a patient.

(e) Armed Forces and Veterans' Administration; interchange of records.

The prohibitions of this section do not apply to any interchange of records—

(1) within the Armed Forces or within those components of the Veterans' Administration furnishing health care to veterans, or

(2) between such components and the Armed Forces.

(f) Penalty for first and subsequent offenses.

Any person who violates any provision of this section or any regulation issued pursuant to this section shall be fined not more than $500 in the case of a first offense, and not more than $5,000 in the case of each subsequent offense.

(g) Regulations of Secretary; definitions, safeguards, and procedures, including procedures and criteria for issuance and scope of orders.

Except as provided in subsection (h) of this section, the Secretary shall prescribe regulations to carry out the purposes of this section. These regulations may contain such definitions, and may provide for such safeguards and procedures, including procedures and criteria for the issuance and scope of orders under subsection (b)(2)(C) of this section, as in the judgment of the Secretary are necessary or proper to effectuate the purposes of this section, to prevent circumvention or evasion thereof, or to facilitate compliance therewith.

(h) Regulations of Administrator; applicable regulations for veterans; coordination with regulations of Secretary.

The Administrator of Veterans' Affairs, through the Chief Medical Director, shall, to the maximum feasible extent consistent with their responsibilities

under Title 38, prescribe regulations making applicable the regulations prescribed by the Secretary under subsection (g) of this section to records maintained in connection with the provision of hospital care, nursing home care, domiciliary care, and medical services under such Title 38 to veterans suffering from alcohol abuse or alcoholism. In prescribing and implementing regulations pursuant to this subsection, the Administrator shall, from time to time, consult with the Secretary in order to achieve the maximum possible coordination of the regulations, and the implementation thereof, which they each prescribe. (As amended Pub. L. 93–282, title I, § 122(a), May 14, 1974, 88 Stat 131.)

L. 93–282 provided that: "The Administrator of Veterans' Affairs shall submit to the appropriate committees of the House of Representatives and the Senate a full report (1) on the regulations (including guidelines, policies, and procedures thereunder) he has prescribed pursuant to section 333(h) of the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment, and Rehabilitation Act of 1970 [subsec. (h) of this section], (2) explaining the basis for any inconsistency between such regulations and regulations of the Secretary under section 333(g) of such Act [subsec. (g) of this section], (3) on the extent, substance, and results of his consultations with the Secretary respecting the prescribing and implementation of the Administrator's regulations, and (4) containing such recommendations for legislation and administrative actions as he determines are necessary and desirable. CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in title 16 section 228g.

§ 4901. Congressional findings and statement of policy.

(a) The Congress finds—

(1) that inadequately controlled noise presents a growing danger to the health and welfare of the Nation's population, particularly in urban areas;

(2) that the major sources of noise include transportation vehicles and equipment, machinery, appliances, and other products in commerce; and

(3) that, while primary responsibility for control of noise rests with State and local governments, Federal action is essential to deal with major noise sources in commerce control of which require national uniformity of treatment.

(b) The Congress declares that it is the policy of the United States to promote an environment for all Americans free from noise that jeopardizes their health or welfare. To that end, it is the purpose of this chapter to establish a means for effective coordination of Federal research and activities in noise control, to authorize the establishment of Federal noise emission standards for products distributed in commerce, and to provide information to the public respecting the noise emission and noise reduction characteristics of such products. (Pub. L. 92–574, § 2, Oct. 27, 1972, 86 Stat. 1234.)

SHORT TITLE

Section 1 of Pub. L. 92–574 provided that: "This Act [which enacted this chapter, amended section 1431 of Title 49, and enacted provisions set out as notes under this section and section 1431 of Title 49] may be cited as the 'Noise Control Act of 1972'."

PREVENTION, CONTROL, AND ABATEMENT OF ENVIRONMENTAL POLLUTION AT FEDERAL FACILITIES

Ex. Ord. No. 11752, Dec. 17, 1973, 38 F.R. 34793, set out as a note under section 4331 of this title, provides for the prevention, control, and abatement of environmental pollution at federal facilities.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 4903 of this title.

§ 4903. Federal programs.

(a) Furtherance of Congressional policy.

The Congress authorizes and directs that Federal agencies shall, to the fullest extent consistent with their authority under Federal laws administered by them, carry out the programs within their control in such a manner as to further the policy declared in section 4901(b) of this title.

(b) Presidential authority to exempt activities or facilities from compliance requirements.

Each department, agency, or instrumentality of the executive, legislative, and judicial branches of the Federal Government—

(1) having jurisdiction over any property or facility, or

(2) engaged in any activity resulting, or which may result, in the emission of noise,

shall comply with Federal, State, interstate, and local requirements respecting control and abatement of environmental noise to the same extent that any person is subject to such requirements. The President may exempt any single activity or facility, including noise emission sources or classes thereof, of any department, agency, or instrumentality in the executive branch from compliance with any such requirement if he determines it to be in the paramount interest of the United States to do so; except that no exemption, other than for those products referred to in section 4902(3)(b) of this title, may be granted from the requirements of sections 4905, 4916, and 4917 of this title. No such exemption shall be granted due to lack of appropriation unless the President shall have specifically requested such appropriation as a part of the budgetary process and the Congress shall have failed to make available such requested appropriation. Any exemption shall be for a period not in excess of one year, but additional exemptions may be granted for periods of not to exceed one year upon the President's making a new determination. The President shall report each January to the Congress all exemptions from the requirements of this section granted during the preceding calendar year, together with his reason for granting such exemption.

(c) Coordination of programs of Federal agencies; standards and regulations; status reports.

(1) The Administrator shall coordinate the programs of all Federal agencies relating to noise research and noise control. Each Federal agency shall, upon request, furnish to the Administrator such information as he may reasonably require to determine the nature, scope, and results of the noise-research and noise-control programs of the agency.

(2) Each Federal agency shall consult with the Administrator in prescribing standards or regulations respecting noise. If at any time the Administrator has reason to believe that a standard or regulation, or any proposed standard or regulation, of any Federal agency respecting noise does not protect the public health and welfare to the extent he believes to be required and feasible, he may request such agency to review and report to him on the advisability of revising such standard or regulation to provide such protection. Any such request may be published in the Federal Register and shall be accompanied by a detailed statement of the information on which it is based. Such agency shall complete the requested review and report to the Administrator within such time as the Administrator specifies in the request, but such time specified may not be less than ninety days from the date the request was made. The report shall be published in the Federal Register and shall be accompanied by a detailed statement of the findings and conclusions of the agency respecting the revision of its standard or regulation. With respect to the Federal Aviation Administration, section 1431 of Title 49 shall apply in lieu of this paragraph.

(3) On the basis of regular consultation with appropriate Federal agencies, the Administrator shall compile and publish, from time to time, a report on the status and progress of Federal activities relating to noise research and noise control. This report shall describe the noise-control programs of each Federal agency and assess the contributions of those programs to the Federal Government's overall efforts to control noise. (Pub. L. 92–574, § 4, Oct. 27, 1972, 86 Stat. 1235.)

§ 4904. Identification of major noise sources.

(a) Development and publication of criteria.

(1) The Administrator shall, after consultation with appropriate Federal agencies and within nine months of October 27, 1972, develop and publish criteria with respect to noise. Such criteria shall reflect the scientific knowledge most useful in indicating the kind and extent of all identifiable effects on the public health or welfare which may be expected from differing quantities and qualities of noise.

(2) The Administrator shall, after consultation with appropriate Federal agencies and within twelve months of October 27, 1972, publish information on the levels of environmental noise the attainment and maintenance of which in defined areas under various conditions are requisite to protect the public health and welfare with an adequate margin of safety.

(b) Compilation and publication of reports on noise sources and control technology.

The Administrator shall, after consultation with appropriate Federal agencies, compile and publish a report or series of reports (1) identifying products (or classes of products) which in his judgment are major sources of noise, and (2) giving information on techniques for control of noise from such products, including available data on the technology, costs, and alternative methods of noise control. The first such report shall be published not later than eighteen months after October 27, 1972.

(c) Supplemental criteria and reports.

The Administrator shall from time to time review and, as appropriate, revise or supplement any criteria or reports published under this section.

(d) Publication in Federal Register.

Any report (or revision thereof) under subsection (b)(1) of this section identifying major noise sources shall be published in the Federal Register. The publication or revision under this section of any criteria or information on control techniques shall be announced in the Federal Register, and copies shall be made available to the general public. (Pub. L. 92–574, § 5, Oct. 27, 1972, 86 Stat. 1236.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 4905 of this title.

§ 4905. Noise emission standards for products distributed in commerce.

(a) Proposed regulations.

(1) The Administrator shall publish proposed regulations, meeting the requirements of subsection (c) of this section, for each product—

(A) which is identified (or is part of a class identified) in any report published under section 4904(b)(1) of this title as a major source of noise,

(B) for which, in his judgment, noise emission standards are feasible, and

(C) which falls in one of the following categories:

(i) Construction equipment.

(ii) Transportation equipment (including recreational vehicles and related equipment.

(iii) Any motor or engine (including any equipment of which an engine or motor is an integral part).

(iv) Electrical or electronic equipment.

(2) (A) Initial proposed regulations under paragraph (1) shall be published not later than eighteen months after October 27, 1972, and shall apply to any product described in paragraph (1) which is identified (or is a part of a class identified) as a major source of noise in any report published under section 4904(b)(1) of this title on or before the date of publication of such initial proposed regulations.

(B) In the case of any product described in paragraph (1) which is identified (or is part of a class identified) as a major source of noise in a report published under section 4904(b)(1) of this title after publication of the initial proposed regulations under subparagraph (A) of this paragraph, regulations under paragraph (1) for such product shall be proposed and published by the Administrator not later than eighteen months after such report is published.

(3) After proposed regulations respecting a product have been published under paragraph (2), the Administrator shall, unless in his judgment noise emission standards are not feasible for such product, prescribe regulations, meeting the requirements of subsection (c) of this section, for such product—

(A) not earlier than six months after publication of such proposed regulations, and

(B) not later than—

(i) twenty-four months after October 27, 1972, in the case of a product subject to proposed regulations published under paragraph (2)(A), or

(ii) in the case of any other product, twenty-four months after the publication of the report under section 4904(b)(1) of this title identifying it (or a class of products of which it is a part) as a major source of noise.

(b) Authority to publish regulations not otherwise required.

The Administrator may publish proposed regulations, meeting the requirements of subsection (c) of this section, for any product for which he is not required by subsection (a) of this section to prescribe regulations but for which, in his judgment, noise emission standards are feasible and are requisite to protect the public health and welfare. Not earlier than six months after the date of publication of such proposed regulations respecting such product, he may prescribe regulations, meeting the requirements of subsection (c) of this section, for such product.

(c) Contents of regulations; appropriate consideration of other standards; participation by interested persons; revision.

(1) Any regulation prescribed under subsection (a) or (b) of this section (and any revision thereof) respecting a product shall include a noise emission standard which shall set limits on noise emissions from such product and shall be a standard which in the Administrator's judgment, based on criteria published under section 4904 of this title, is requisite to protect the public health and welfare, taking into account the magnitude and conditions of use of such product (alone or in combination with other noise sources), the degree of noise reduction achievable through the application of the best available technology, and the cost of compliance. In establishing such a standard for any product, the Administrator shall give appropriate consideration to standards under other laws designed to safeguard the health and welfare of persons, including any standards under the National Traffic and Motor Vehicle Safety Act of 1966, the Clean Air Act, and the Federal Water Pollution Control Act. Any such noise emission standards shall be a performance standard. In addition, any regulation under subsection (a) or (b) of this section (and any revision thereof) may contain testing procedures necessary to assure compliance with the emission standard in such regulation, and may contain provisions respecting instructions of the manufacturer for the maintenance, use, or repair of the product.

(2) After publication of any proposed regulations under this section, the Administrator shall allow interested persons an opportunity to participate in rulemaking in accordance with the first sentence of section 553(c) of Title 5.

(3) The Administrator may revise any regulation prescribed by him under this section by (A) publication of proposed revised regulations, and (B) the promulgation, not earlier than six months after the date of such publication, of regulations making the revision; except that a revision which makes only technical or clerical corrections in a regulation under this section may be promulgated earlier than six months after such date if the Administrator finds that such earlier promulgation is in the public interest.

(d) Warranty by manufacturer of conformity of product with regulations; transfer of cost obligation from manufacturer to dealer prohibited.

(1) On and after the effective date of any regulation prescribed under subsection (a) or (b) of this section, the manufacturer of each new product to which such regulation applies shall warrant to the ultimate purchaser and each subsequent purchaser that such product is designed, built, and equipped so as to conform at the time of sale with such regulation.

(2) Any cost obligation of any dealer incurred as a result of any requirement imposed by paragraph (1) of this subsection shall be borne by the manufacturer. The transfer of any such cost obligation from a manufacturer to any dealer through franchise or other agreement is prohibited.

(3) If a manufacturer includes in any advertisement a statement respecting the cost or value of noise emission control devices or systems, such manufacturer shall set forth in such statement the cost or value attributed to such devices or systems by the Secretary of Labor (through the Bureau of Labor Statistics). The Secretary of Labor, and his representatives, shall have the same access for this purpose to the books, documents, papers, and records of a manufacturer as the Comptroller General has to those of a recipient of assistance for purposes of section 1857j of this title.

(e) State and local regulations.

(1) No State or political subdivision thereof may adopt or enforce—

(A) with respect to any new product for which a regulation has been prescribed by the Administrator under this section, any law or regulation which sets a limit on noise emissions from such new product and which is not identical to such regulation of the Administrator; or

(B) with respect to any component incorporated into such new product by the manufacturer of such product, any law or regulation setting a limit on noise emissions from such component when so incorporated.

(2) Subject to sections 4916 and 4917 of this title, nothing in this section precludes or denies the right of any State or political subdivision thereof to establish and enforce controls on environmental noise (or one or more sources thereof) through the licensing, regulation, or restriction of the use, operation, or movement of any product or combination of products. (Pub. L. 92–574, § 6, Oct. 27, 1972, 86 Stat. 1237.)

(1) against any person (including (A) the United States, and (B) any other governmental

instrumentality or agency to the extent permitted by the eleventh amendment to the Constitution) who is alleged to be in violation of any noise control requirement (as defined in subsection (e) of this section), or

(2) against—

(A) the Administrator of the Environmental Protection Agency where there is alleged a failure of such Administrator to perform any act or duty under this chapter which is not discretionary with such Administrator, or

§ 4914. Development of low-noise-emission products.

(a) Definitions.

For the purpose of this section:

(1) The term "Committee" means the Low-Noise-Emission Product Advisory Committee.

(2) The term "Federal Government" includes the legislative, executive, and judicial branches of the Government of the United States, and the government of the District of Columbia.

(3) The term "low-noise-emission product" means any product which emits noise in amounts significantly below the levels specified in noise emission standards under regulations applicable under section 4905 of this title at the time of procurement to that type of product.

(4) The term "retail price" means (A) the maximum statutory price applicable to any type of product; or (B) in any case where there is no applicable maximum statutory price, the most recent procurement price paid for any type of product.

(b) Certification of products; Low-Noise-Emission Product Advisory Committee.

(1) The Administrator shall determine which products qualify as low-noise-emission products in accordance with the provisions of this section.

(2) The Administrator shall certify any product—

(A) for which a certification application has been filed in accordance with paragraph (5)(A) of this subsection;

(B) which is a low-noise-emission product as determined by the Administrator; and

(C) which he determines is suitable for use as a substitute for a type of product at that time in use by agencies of the Federal Government.

(3) The Administrator may establish a Low-Noise-Emission Product Advisory Committee to assist him in determining which products qualify as low-noise-emission products for purposes of this section. The Committee shall include the Administrator or his designee, a representative of the National Bureau of Standards, and reprcsentatives of such other Federal agencies and private individuals as the Administrator may deem necessary from time to time. Any member of the Committee not employed on a full-time basis by the United States may receive the daily equivalent of the annual rate of basic pay in effect for grade GS–18 of the General Schedule for each day such member is engaged upon work of the Committee. Each member of the Committee shall be reimbursed for travel expenses, including per diem in lieu of subsistence as authorized by section 5703 of Title 5 for persons in the Government service employed intermittently.

(4) Certification under this section shall be effective for a period of one year from the date of issuance.

(5)(A) Any person seeking to have a class or model of product certified under this section shall file a certification application in accordance with regulations prescribed by the Administrator.

(B) The Administrator shall publish in the Federal Register a notice of each application received.

(C) The Administrator shall make determinations for the purpose of this section in accordance with procedures prescribed by him by regulation.

(D) The Administrator shall conduct whatever investigation is necessary, including actual inspection of the product at a place designated in regulations prescribed under subparagraph (A).

(E) The Administrator shall receive and evaluate written comments and documents from interested persons in support of, or in opposition to, certification of the class or model of product under consideration.

(F) Within ninety days after the receipt of a properly filed certification application the Administrator shall determine whether such product is a low-noise-emission product for purposes of this section. If the Administrator determines that such product is a low-noise-emission product, then within one hundred and eighty days of such determination the Administrator shall reach a decision as to whether such product is a suitable substitute for any class or classes of products presently being purchased by the Federal Government for use by its agencies.

(G) Immediately upon making any determination or decision under subparagraph (F), the Administrator shall publish in the Federal Register notice of such determination or decision, including reasons therefor.

(c) Federal procurement of low-noise-emission products.

(1) Certified low-noise-emission products shall be acquired by purchase or lease by the Federal Government for use by the Federal Government in lieu of other products if the Administrator of General Services determines that such certified products have procurement costs which are no more than 125 per centum of the retail price of the least expensive type of product for which they are certified substitutes.

(2) Data relied upon by the Administrator in determining that a product is a certified low-noise-emission product shall be incorporated in any contract for the procurement of such product.

(d) Product selection.

The procuring agency shall be required to purchase available certified low-noise-emission products which are eligible for purchase to the extent they are available before purchasing any other products for which any low-noise-emission product is a certified substitute. In making purchasing selections between competing eligible certified low-noise-emission products, the procuring agency shall give priority to any class or model which does not require extensive periodic maintenance to retain its low-noise-emission qualities or which does not involve operating costs significantly in excess of those products for which it is a certified substitute.

(e) Waiver of statutory price limitations.

For the purpose of procuring certified low-noise-emission products any statutory price limitations shall be waived.

(f) Tests of noise emissions from products purchased by Federal government.

The Administrator shall, from time to time as he deems appropriate, test the emissions of noise from certified low-noise-emission products purchased by the Federal government. If at any time he finds that the noise-emission levels exceed the levels on which certification under this section was based, the Administrator shall give the supplier of such product written notice of this finding, issue public notice of it, and give the supplier an opportunity to make necessary repairs, adjustments, or replacements. If no such repairs, adjustments, or replacements are made within a period to be set by the Administrator, he may order the supplier to show cause why the product involved should be eligible for recertification.

(g) Authorization of appropriations.

There are authorized to be appropriated for paying additional amounts for products pursuant to, and for carrying out the provisions of, this section, $1,000,000 for the fiscal year ending June 30, 1973, and $2,000,000 for each of the two succeeding fiscal years.

Such Administrator may modify his findings as to the facts, or make new findings, by reason of the additional evidence so taken, and he shall file with the court such modified or new findings, and his recommendation, if any, for the modification or setting aside of his original order, with the return of such additional evidence.

(c) Stay of agency action.

With respect to relief pending review of an action by either Administrator, no stay of an agency action may be granted unless the reviewing court determines that the party seeking such stay is (1) likely to prevail on the merits in the review proceeding and (2) will suffer irreparable harm pending such proceeding.

SUBCHAPTER I.—FINDINGS, DECLARATIONS, AND DEFINITIONS

§ 5121. Congressional findings and declarations.

(a) The Congress hereby finds and declares that—

(1) because disasters often cause loss of life, human suffering, loss of income, and property loss and damage; and

(2) because disasters often disrupt the normal functioning of governments and communities, and adversely affect individuals and families with great severity;

special measures, designed to assist the efforts of the affected States in expediting the rendering of aid, assistance, and emergency services, and the reconstruction and rehabilitation of devastated areas, are necessary.

(b) It is the intent of the Congress, by this chapter, to provide an orderly and continuing means of assistance by the Federal Government to State and local governments in carrying out their responsibilities to alleviate the suffering and damage which result from such disasters by—

(1) revising and broadening the scope of existing disaster relief programs;

(2) encouraging the development of comprehensive disaster preparedness and assistance plans, programs, capabilities, and organizations by the States and by local governments;

(3) achieving greater coordination and responsiveness of disaster preparedness and relief programs;

(4) encouraging individuals, States, and local governments to protect themselves by obtaining insurance coverage to supplement or replace governmental assistance;

(5) encouraging hazard mitigation measures to reduce losses from disasters, including development of land use and construction regulations;

(6) providing Federal assistance programs for both public and private losses sustained in disasters; and

(7) providing a long-range economic recovery program for major disaster areas.

(b) Availability of funds appropriated to agency for repair, reconstruction, restoration or replacement of agency facilities.

In order to carry out the provisions of this section, such repair, reconstruction, restoration, or replacement may be begun notwithstanding a lack or an insufficiency of funds appropriated for such purpose, where such lack or insufficiency can be remedied by the transfer, in accordance with law, of funds appropriated to that agency for another purpose.

In those cases where a State or local government determines that public welfare would not be best served by repairing, restoring, reconstructing, or replacing particular public facilities owned or controlled by that State or that local government which have been damaged or destroyed in a major disaster, it may elect to receive, in lieu of the contribution described in subsection (e) of this section, a contribution based on 90 per centum of the Federal estimate of the total cost of repairing, restoring, reconstructing, or replacing all damaged facilities owned by it within its jurisdiction. (b) Temporary mortgage or rental payments.

The President is authorized to provide assistance on a temporary basis in the form of mortgage or rental payments to or on behalf of individuals and families who, as a result of financial hardship caused by a major disaster, have received written notice of dispossession or eviction from a residence by reason of forceclosure of any mortgage or lien, cancellation of any contract of sale, or termination of any lease, entered into prior to such disaster. Such assistance shall be provided for a period of not to exceed one year or for the duration of the period of financial hardship, whichever is the lesser.

(c) Repair or restoration of owner-occupied residential structures.

In lieu of providing other types of temporary housing after a major disaster, the President is authorized to make expenditures for the purpose of repairing or restoring to a habitable condition owner-occupied private residential structures made uninhabitable by a major disaster which are capable of being restored quickly to a habitable condition with minimal repairs. No assistance provided under this section may be used for major reconstruction or rehabilitation of damaged property.

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in sections 1439, 1440, 1452b, 2985b of this title; title 40 section 461; title 40 App. section 214.

§ 5301. Congressional findings and declaration of purpose.

(a) The Congress finds and declares that the Nation's cities, towns, and smaller urban communities, face critical social, economic, and environmental problems arising in significant measure from—

(1) The growth of population in metropolitan and other urban areas, and the concentration of persons of lower income in central cities; and

(2) inadequate public and private investment and reinvestment in housing and other physical facilities, and related public and social services, resulting in the growth and persistence of urban slums and blight and the marked deterioration of the quality of the urban environment.

(b) The Congress further finds and declares that the future welfare of the Nation and the well-being of its citizens depend on the establishment and maintenance of viable urban communities as social, economic, and political entities, and require—

(1) systematic and sustained action by Federal, State, and local governments to eliminate blight, to conserve and renew older urban areas, to improve the living environment of low- and moderate-income families, and to develop new centers of population growth and economic activity;

(2) substantial expansion of and greater continuity in the scope and level of Federal assistance, together with increased private investment in support of community development activities; and

(3) continuing effort at all levels of government to streamline programs and improve the functioning of agencies responsible for planning, implementing, and evaluating community development efforts.

(c) The primary objective of this chapter is the development of viable urban communities, by providing decent housing and a suitable living environment and expanding economic opportunities, principally for persons of low and moderate income. Consistent with this primary objective, the Federal assistance provided in this chapter is for the support of community development activities which are directed toward the following specific objectives—

(1) the elimination of slums and blight and the prevention of blighting influences and the deterioration of property and neighborhood and community facilities of importance to the welfare of the community, principally persons of low and moderate income;

(2) the elimination of conditions which are detrimental to health, safety, and public welfare, through code enforcement, demolition, interim rehabilitation assistance, and related activities;

(3) the conservation and expansion of the Nation's housing stock in order to provide a decent home and a suitable living environment for all persons, but principally those of low and moderate income;

(4) the expansion and improvement of the quantity and quality of community services, principally for persons of low and moderate income, which are essential for sound community development and for the development of viable urban communities;

(5) a more rational utilization of land and other natural resources and the better arrangement of residential, commercial, industrial, recreational, and other needed activity centers;

(6) the reduction of the isolation of income groups within communities and geographical areas and the promotion of an increase in the diversity and vitality of neighborhoods through the spatial deconcentration of housing opportunities for persons of lower income and the revitalization of deteriorating or deteriorated neighborhoods to attract persons of higher income; and

(7) the restoration and preservation of properties of special value for historic, architectural, or esthetic reasons.

It is the intent of Congress that the Federal assistance made available under this chapter not be utilized to reduce substantially the amount of local financial support for community development activities below the level of such support prior to the availability of such assistance.

(d) It is also the purpose of this chapter to further the development of a national urban growth policy by consolidating a number of complex and overlapping programs of financial assistance to communities of varying sizes and needs into a consistent system of Federal aid which—

(1) provides assistance on an annual basis, with maximum certainty and minimum delay, upon which communities can rely in their planning;

(2) encourages community development activities which are consistent with comprehensive local and areawide development planning;

(3) furthers achievement of the national housing goal of a decent home and a suitable living environment for every American family; and

(4) fosters the undertaking of housing and community development activities in a coordinated and mutually supportive manner.

§ 5304. Procedures for award of grants.

(a) Applications; contents; statements of assurances.

No grant may be made pursuant to section 5306 of this title unless an application shall have been submitted to the Secretary in which the applicant—

(1) sets forth a summary of a three-year community development plan which identifies community development needs, demonstrates a comprehensive strategy for meeting those needs, and specifies both short- and long-term community development objectives which have been developed in accordance with areawide development planning and national urban growth policies;

(2) formulates a program which (A) includes the activities to be undertaken to meet its community development needs and objectives, together with the estimated costs and general location of such activities, (B) indicates resources other than those provided under this chapter which are expected to be made available toward meeting its identified needs and objectives, and (C) takes into account appropriate environmental factors;

(3) describes a program designed to—

(A) eliminate or prevent slums, blight, and deterioration where such conditions or needs exist; and

(B) provide improved community facilities and public improvements, including the provision of supporting health, social, and similar services where necessary and appropriate;

(4) submits a housing assistance plan which—

(A) accurately surveys the condition of the housing stock in the community and assesses the housing assistance needs of lower-income persons (including elderly and handicapped persons, large families, and persons displaced or to be displaced) residing in or expected to reside in the community,

(B) specifies a realistic annual goal for the number of dwelling units or persons to be assisted, including (i) the relative proportion of new, rehabilitated, and existing dwelling units, and (ii) the sizes and types of housing projects and assistance best suited to the needs of lower-income persons in the community, and

(C) indicates the general locations of proposed housing for lower-income persons, with the objective of (i) furthering the revitalization of the community, including the restoration and rehabilitation of stable neighborhoods to the maximum extent possible, (ii) promoting greater choice of housing opportunities and avoiding undue concentrations of assisted persons in areas containing a high proportion of low-income persons, and (iii) assuring the availability of public facilities and services adequate to serve proposed housing projects;

(5) provides satisfactory assurances that the program will be conducted and administered in conformity with Public Law 88–352 and Public Law 90–284; and

(6) provides satisfactory assurances that, prior to submission of its application, it has (A) provided citizens with adequate information concerning the amount of funds available for proposed community development and housing activities, the range of activities that may be undertaken, and other important program requirements, (B) held public hearings to obtain the views of citizens on community development and housing needs, and (C) provided citizens an adequate opportunity to participate in the development of the application; but no part of this paragraph shall be construed to restrict the responsibility and authority of the applicant for the development of the application and the execution of its Community Development Program.

(b) Additional requirements of application; certifications to Secretary; waiver of required Program provisions.

(1) Not more than 10 per centum of the estimated costs referred to in subsection (a)(2) of this section which are to be incurred during any contract period may be designated for unspecified local option activities which are eligible for assistance under section 5305(a) of this title or for a contingency account for activities designated by the applicant pursuant to subsection (a)(2) of this section.

(2) Any grant under this chapter shall be made only on condition that the applicant certify to the satisfaction of the Secretary that its Community Development Program has been developed so as to give maximum feasible priority to activities which will benefit low- or moderate-income families or aid in the prevention or elimination of slums or blight. The Secretary may also approve an application describing acitivities which the applicant certifies and the Secretary determines are designed to meet other community development needs having a particular urgency as specifically described in the application.

(3) The Secretary may waive all or part of the requirements contained in paragraphs (1), (2), and (3) of subsection (a) of this section if (A) the application for assistance is in behalf of a locality having a population of less than 25,000 according to the most recent data compiled by the Bureau of the Census which is located either (i) outside a standard metropolitan statistical area, or (ii) inside such an area but outside an "urbanized area" as defined by the Bureau of the Census (or as such definition is modified by the Secretary for purposes of this chapter), (B) the application relates to the first community development activity to be carried out by such locality with assistance under this chapter, (C) the assistance requested is for a single development activity under this chapter of a type eligible for assistance under title VII of the Housing Act of 1961 or title VII of the Housing and Urban Development Act of 1965, and (D) the Secretary determines that, having regard to the nature of the activity to be carried out, such waiver is not inconsistent with the purposes of this chapter.

(4) The Secretary may accept a certification from the applicant that it has complied with the requirements of paragraphs (5) and (6) of subsection (a) of this section.

(c) Approval of application.

The Secretary shall approve an application for an amount which does not exceed the amount determined in accordance with section 5306(a) of this title unless—

(1) on the basis of significant facts and data, generally available and pertaining to community and housing needs and objectives, the Secretary determines that the applicant's description of such needs and objectives is plainly inconsistent with such facts or data; or

(2) on the basis of the application, the Secretary determines that the activities to be undertaken are plainly inappropriate to meeting the needs and objectives identified by the applicant pursuant to subsection (a) of this section; or

(3) the Secretary determines that the application does not comply with the requirements of this chapter or other applicable law or proposes activities which are ineligible under this chapter.

(d) Submission of annual performance report by grantee to Secretary; contents; annual review and audit by Secretary of program implementation; adjustments in amount of annual grants.

Prior to the beginning of fiscal year 1977 and each fiscal year thereafter, each grantee shall submit to the Secretary a performance report concerning the activities carried out pursuant to this chapter, together with an assessment by the grantee of the relationship of those activities to the objectives of this chapter and the needs and objectives identified in the grantee's statement submitted pursuant to subsection (a) of this section. The Secretary shall, at least on an annual basis, make such reviews and audits as may be necessary or appropriate to determine whether the grantee has carried out a program substantially as described in its application, whether that program conformed to the requirements of this chapter and other applicable laws, and whether the applicant has a continuing capacity to carry out in a timely manner the approved Community Development Program. The Secretary may make appropriate adjustments in the amount of the annual grants in accordance with his findings pursuant to this subsection.

(e) Submission of application for review and comment by areawide agency under procedures established by President pursuant to applicable statutes.

No grant may be made under this chapter unless the application therefor has been submitted for review and comment to an areawide agency under procedures established by the President pursuant to title II of the Demonstration Cities and Metropolitan Development Act of 1966 and title IV of the Intergovernmental Cooperation Act of 1968.

(f) Approval date of application; adjustment of amount of grant subsequent to approval of application.

An application subject to subsection (c) of this section, if submitted after any date established by the Secretary for consideration of applications, shall be deemed approved within 75 days after receipt unless the Secretary informs the applicant of specific reasons for disapproval. Subsequent to approval of the application, the amount of the grant may be adjusted in accordance with the provisions of this chapter.

(g) Audit of grantees by General Accounting Office; access to books, accounts, records, etc. by representatives of General Accounting Office.

Insofar as they relate to funds provided under this chapter, the financial transactions of recipients of such funds may be audited by the General Accounting Office under such rules and regulations as may be prescribed by the Comptroller General of the United States. The representatives of the General Accounting Office shall have access to all books, accounts, records, reports, files, and other papers, things, or property belonging to or in use by such recipients pertaining to such financial transactions and necessary to facilitate the audit.

(h) Environmental protection measures applicable for release of funds to applicants for projects; issuance of regulations by Secretary subsequent to consultation with Council on Environmental Quality; request and certification to Secretary for approval of release of funds; form, contents and effect of certification.

(1) In order to assure that the policies of the National Environmental Policy Act of 1969 are most effectively implemented in connection with the expenditure of funds under this chapter, and to assure to the public undiminished protection of the environment, the Secretary, in lieu of the environmental protection procedures otherwise applicable, may under regulations provide for the release of funds for particular projects to applicants who assume all of the responsibilities for environmental review, decisionmaking, and action pursuant to such Act that would apply to the Secretary were he to undertake such projects as Federal projects. The Secretary shall issue regulations to carry out this subsection only after consultation with the Council on Environmental Quality.

(2) The Secretary shall approve the release of funds for projects subject to the procedures authorized by this subsection only if, at least fifteen days prior to such approval and prior to any commitment of funds to such projects other than for purposes authorized by section 5305(a)(12) of this title or for environmental studies, the applicant has submitted to the Secretary a request for such release accompanied by a certification which meets the requirements of paragraph (3). The Secretary's approval of any such certification shall be deemed to satisfy his responsibilities under the National Environmental Policy Act insofar as those responsibilities relate to the applications and releases of funds for projects to be carried out pursuant thereto which are covered by such certification.

(3) A certification under the procedures authorized by this subsection shall—

(A) be in a form acceptable to the Secretary,

(B) be executed by the chief executive officer or other officer of the applicant qualified under regulations of the Secretary,

(C) specify that the applicant has fully carried out its responsibilities as described under paragraph (1) of this subsection, and

(D) specify that the certifying officer (i) consents to assume the status of a responsible Federal official under the National Environmental Policy Act of 1969 insofar as the provisions of such Act apply pursuant to paragraph (1) of this subsection, and (ii) is authorized and consents on behalf of the applicant and himself to accept the jurisdiction of the Federal courts for the purpose of enforcement of his responsibilities as such an official.

(A) the population of that city and the population of all metropolitan cities;

(B) the extent of poverty in that city and the extent of poverty in all metropolitan cities; and

(C) the extent of housing overcrowding in that city and the extent of housing overcrowding in all metropolitan cities.

(3) The Secretary shall determine the basic grant amount of each urban county by—

(A) calculating the total amount that would have been allocated to metropolitan cities and urban counties together under paragraph (1) of this subsection if data pertaining to the population, extent of poverty, and extent of housing overcrowding in all urban counties were included in the numerator of each of the fractions described in such paragraph; and

(B) determining for each county the amount which bears the same ratio to the total amount calculated under subparagraph (A) of this paragraph as the average of the ratios between—

(i) the population of that urban county and the population of all metropolitan cities and urban counties;

(ii) the extent of poverty in that urban county and the extent of poverty in all metropolitan cities and urban counties; and

(iii) the extent of housing overcrowding in that urban county and the extent of housing overcrowding in all metropolitan cities and urban counties.

(4) In determining the average of ratios under paragraphs (1), (2), and (3), the ratio involving the extent of poverty shall be counted twice.

(5) In computing amounts or exclusions under this section with respect to any urban county there shall be excluded units of general local government located in the county (A) which receive hold-harmless grants pursuant to subsection (h) of this section, or (B) the populations of which are not counted in determining the eligibility of the urban county to receive a grant under this subsection.

(c) Adjustment of basic grant amounts for metropolitan cities and urban counties; time periods for adjustments.

During the first three years for which funds are approved for distribution to a metropolitan city or urban county under this section, the basic grant amount of such city or county as computed under subsection (b) of this section shall be adjusted as provided in this subsection if the amount so computed for the first such year exceeds the city's or county's hold-harmless amount as determined under subsection (g) of this section. Such adjustment shall be made so that—

(1) the amount for the first year does not exceed one-third of the full basic grant amount computed under subsection (b) of this section, or the hold-harmless amount, whichever is the greater.

(2) the amount for the second year does not exceed two-thirds of the full basic grant amount computed under subsection (b) of this section, or the hold-harmless amount, or the amount allowed under paragraph (1) of this subsection, whichever is the greatest, and

(3) the amount for the third year does not exceed the full basic grant amount computed under subsection (b) of this section.

(d) Additional allocations of amounts allocated to metropolitan areas and added amounts for grants to metropolitan cities, urban counties, specified units of general local government, and States; computations.

Any portion of the amount allocated to metropolitan areas under the first sentence of subsection (a) of this section which remains after the allocation of grants to metropolitan cities and urban counties in accordance with subsections (b) and (c) of this section and any amounts added in accordance with the provisions of section 5303(a)(2) of this title shall be allocated by the Secretary—

(1) first, for grants to metropolitan cities, urban counties, and other units of general local government within metropolitan areas to meet their hold-harmless needs as determined under subsections (g) and (h) of this section; and

(2) second, for grants to units of general local government (other than metropolitan cities and urban counties) and States for use in metropolitan areas, allocating for each such metropolitan area an amount which bears the same ratio to the allocation for all metropolitan areas available under this paragraph as the average of the ratios between—

(A) the population of that metropolitan area and the population of all metropolitan areas,

(B) the extent of poverty in that metropolitan area and the extent of poverty in all metropolitan areas, and

(C) the extent of housing overcrowding in that metropolitan area and the extent of housing overcrowding in all metropolitan areas.

In determining the average of ratios under paragraph (2), the ratio involving the extent of poverty shall be counted twice; and in computing amounts under such paragraph there shall be excluded any metropolitan cities, urban counties, and units of general local government which receive hold-harmless grants pursuant to subsection (h) of this section.

(e) Reallocation of amounts allocated to metropolitan cities, urban counties, and metropolitan areas for use by States, metropolitan cities, urban counties, or specified units of general local government; prerequisites; review by Secretary.

Any amounts allocated to a metropolitan city or urban county pursuant to the preceding provisions of this section which are not applied for during a program period or which are not approved by the Secretary, and any other amounts allocated to a metropolitan area which the Secretary determines, on the basis of the applications and other evidence available, are not likely to be fully obligated during such program period, shall be reallocated during the same period for use by States, metropolitan cities, urban counties, or units of general local government, first, in any metropolitan area in the same State, and second, in any other metropolitan area. The Secretary shall review determinations under this subsection from time to time as appropriate with a view of assuring maximum use of all available funds in the period for which such funds were appropriated.

(f) Amounts allocated to units of general local government of metropolitan areas and States; computations; reallocation of amounts to nonmetropolitan areas of other States; prerequisites; review by Secretary.

(1) Of the amount approved in an appropriation Act under section 5303(a) of this title for grants in any year (excluding the amount provided for use in accordance with sections 5303(a)(2) and 5307 of this title), 20 per centum shall be allocated by the Secretary—

(A) first, for grants to units of general local government outside of metropolitan areas to meet their hold-harmless needs as determined under subsection (h) of this section; and

(B) second, for grants to units of general local government outside of metropolitan areas and

States for use outside of metropolitan areas, allocating for the nonmetropolitan areas of each State an amount which bears the same ratio to the allocation available under this subparagraph for the nonmetropolitan areas of all States as the average of the ratios between—

(i) the population of the nonmetropolitan areas of that State and the population of the nonmetropolitan areas of all the States,

(ii) the extent of poverty in the nonmetropolitan areas of that State and the extent of poverty in the nonmetropolitan areas of all the States, and

(iii) the extent of housing overcrowding in the nonmetropolitan areas of that State and the extent of housing overcrowding in the nonmetropolitan areas of all the States.

In determining the average of ratios under subparagraph (B), the ratio involving the extent of poverty shall be counted twice; and in computing amounts under such subparagraph there shall be excluded units of general local government which receive hold-harmless grants pursuant to subsection (h) of this section.

(2) Any amounts allocated to a unit of general local government under paragraph (1) which are not applied for during a program period or which are not approved by the Secretary, and any amounts allocated to the nonmetropolitan areas of a State under paragraph (1)(B) which the Secretary determines, on the basis of applications and other evidence available, are not likely to be fully obligated during such period, shall be reallocated as soon as practicable during the same period to the nonmetropolitan areas of other States. The Secretary shall review determinations under this paragraph from time to time with a view to assuring maximum use of all available funds in the program period for which such funds were appropriated.

(g) Hold-harmless amount of metropolitan cities and urban counties; factors determining computation of sum.

(1) The full hold-harmless amount of each metropolitan city or urban county shall be the sum of (i) the sum of the average during the five fiscal years ending prior to July 1, 1972, of (1) commitments for grants (as determined by the Secretary) pursuant to part A of title I of the Housing Act of 1949; (2) loans pursuant to section 1452b of this title; (3) grants pursuant to sections 3102 and 3103 of this title; (4) loans pursuant to title II of the Housing Amendments of 1955; and (5) grants pursuant to title VII of the Housing Act of 1961; and (ii) the average annual grant, as determined by the Secretary, made in acocrdance with part B of title I of the Housing Act of 1949 during the fiscal years ending prior to July 1, 1972, or during the fiscal year 1973 in the case of a metropolitan city or urban county which first received a grant under part B of such title in such fiscal year. In the case of a metropolitan city or urban county which has participated in the program authorized under section 3305 of this title and which has been funded or extended in the fiscal year 1973 for a period ending after June 30, 1973, determinations of the hold-harmless amount of such metropolitan city or urban county for the following specified years shall be made so as to include, in addition to the amounts specified in clauses (i) and (ii) of the preceding sentence, the following percentages of the average annual grant, as determined by the Secretary made in accordance with such section during fiscal years ending prior to July 1, 1972—

(A) 100 per centum for each of a number of years which when added to the number of funding years for which the city or county received grants under such section 3305 of this title, equals five;

(B) 80 per centum for the year immediately following year five as determined pursuant to clause (A),

(C) 60 per centum for the year immediately following the year provided for in clause (B); and

(D) 40 per centum for the year immediately following the year provided for in clause (C).

For the purposes of this paragraph the average annual grant under part B of title I of the Housing Act of 1949 or under section 3305 of this title shall be established by dividing the total amount of grants made to a participant under the program by the number of months of program activity for which funds were authorized and multiplying the result by twelve.

(2) During the fiscal years 1975, 1976, and 1977, the hold-harmless amount of any metropolitan city or urban county shall be the full amount computed for the city or county in accordance with paragraph (1). In the fiscal years 1978, 1979, and 1980, if such amount is greater than the basic grant amount of the metropolitan city or urban county for that year, as computed under subsection (b) (2) or (3) of this section, it shall be reduced so that—

(i) in the fiscal year 1978, the excess of the hold-harmless amount over the basic grant amount shall equal two-thirds of the difference between the amount computed under paragraph (1) and the basic grant amount for such year,

(ii) in the fiscal year 1979, the excess of the hold-harmless amount over the basic grant amount shall equal one-third of the difference between the amount computed under paragraph (1) and the basic grant amount for such year, and

(iii) in the fiscal year 1980, there shall be no excess of the hold-harmless amount over the basic grant amount.

(h) Hold-harmless grants for units of general local government not a metropolitan city or urban county; computation of aggregate amount; prerequisites.

(1) Any unit of general local government which is not a metropolitan city or urban county shall, subject to the provisions of section 5304 of this title and except as otherwise specifically authorized, be entitled to grants under this chapter for any year in an aggregate amount at last equal to a hold-harmless amount as computed under the provisions of subsection (g)(1) of this section if, during the five-fiscal-year period specified in the first sentence of subsection (g)(1) of this section (or during the fiscal year 1973 in the case of a locality which first received a grant for a neighborhood development program in that year) one or more urban renewal projects, code enforcement programs, neighborhood

development programs, or model cities programs were being carried out by such unit of general local government pursuant to commitments for assistance entered into during such period under title I of the Housing Act of 1949 or title I of the Demonstration Cities and Metropolitan Development Act of 1966.

(2) In the fiscal years 1978, 1979, and 1980, in determining the hold-harmless amount of units of general local government qualifying under this subsection, the second sentence of subsection (g)(2) of this section shall be applied as though such units were metropolitan cities or urban counties with basic grant amounts of zero.

(i) Percentages excluded from data in computation of hold-harmless grants for units of general local government for fiscal years 1978 and 1979.

In excluding the population, poverty, and housing overcrowding data of units of general local government which receive a hold-harmless grant pursuant to subsection (h) of this section from the computations described in subsections (b)(5), (d), and (f) of this section, the Secretary shall exclude only two-thirds of such data for the fiscal year 1978 and one-third of such data for the fiscal year 1979.

(j) Waiver of eligibility by units of general local government for hold-harmless grants; computations unaffected by waiver.

Any unit of general local government eligible for a hold-harmless grant pursuant to subsection (h) of this section may, not later than thirty days prior to the beginning of any program period, irrevocably waive its eligibility under such subsection. In the case of such a waiver the unit of general local government shall not be excluded from the computations described in subsections (b)(5), (d), and (f) of this section.

(k) Qualification or submission dates, and finality and conclusiveness of computations and determinations.

The Secretary may fix such qualification or submission dates as he determines are necessary to permit the computations and determinations required by this section to be made in a timely manner, and all such computations and determinations shall be final and conclusive.

(l) Report to Congress and study by Secretary; contents.

Not later than March 31, 1977, the Secretary shall make a report to the Congress setting forth such recommendations as he deems advisable, in furtherance of the purposes and policy of this chapter, for modifying or expanding the provisions of this section relating to the method of funding and the allocation of funds and the determination of the basic grant entitlement, and for the application of such provisions in the further distribution of funds under this chapter. In making this report, the Secretary shall conduct a study to determine how funds authorized under this chapter can be distributed in accordance with community development needs, objectives, and capacities, measured to the maximum extent feasible by objective standards. § 5308. Guarantee and commitment to guarantee loans for acquisition of property.

(a) Authority of Secretary; issuance of obligations by units of general local government or designated public agencies.

The Secretary is authorized, upon such terms and conditions as he may prescribe, to guarantee and make commitments to guarantee the notes or other obligations issued by units of general local government, or by public agencies designated by such units of general local government, for the purpose of financing the acquisition or assembly of real property (including such expenses related thereto as the Secretary may permit by regulation) to serve or be used in carrying out activities which are eligible for assistance under section 5305 of this title and are identified in the application under section 5304 of this title, and with respect to which grants have been or are to be made under section 5303 of this title, but no such guarantee shall be issued in behalf of any agency designed to benefit, in or by the flotation of any issue, a private individual or corporation.

(b) Prerequisites.

No guarantee or commitment to guarantee shall be made with respect to any unit of general local government or public agency designated by any such unit of general local government unless—

(1) the Secretary, from sums approved in appropriation Acts and allocated for obligation to the unit of general local government pursuant to sections 5306 and 5307 of this title, shall have reserved and withheld, for the purpose of paying the guaranteed obligations (including interest), an amount which is at least equal to 110 per centum of the difference between the cost of acquiring the land and related expenses and the estimated proceeds to be derived from the sale or other disposition of the land, as determined or approved by the Secretary, which amount may subsequently be increased by the Secretary to the extent he determines such increase is necessary or appropriate because of any unanticipated, major reduction in such estimated disposition proceeds;

(2) the unit of general local government shall have given to the Secretary, in a form acceptable to him, a pledge of its full faith and credit, or a pledge of revenues approved by the Secretary, for the repayment of so much of any amount required to be paid by the United States pursuant to any guarantee under this section as is equal to the difference between the principal amount of the guaranteed obligations and interest thereon and the amount which is to be reserved and withheld under paragraph (1); and

(3) the unit of general local government has pledged to the repayment of any amounts which are required to be paid by the United States pursuant to its guarantee under this section, and which are not otherwise fully repaid when due pursuant to paragraph (1) and (2), the proceeds of any grants for which such unit of general local government may become eligible under this chapter.

(c) Full faith and credit of United States pledged for payment; conclusiveness and validity of guarantee.

The full faith and credit of the United States is pledged to the payment of all guarantees made under this section. Any such guarantee made by the Secretary shall be conclusive evidence of the eligibility of the obligations for such guarantee with respect to principal and interest, and the validity of any such guarantee so made shall be incontestable in the hands of a holder of the guaranteed obligations.

(d) Issuance of obligations by Secretary to Secretary of Treasury to satisfy authorized guarantee obligations; establishment of maturities and rates of interest and purchase of obligations by Secretary of Treasury.

The Secretary may issue obligations to the Secretary of the Treasury in an amount outstanding at any one time sufficient to enable the Secretary to carry out his obligations under guarantees authorized by this section. The obligations issued under this subsection shall have such maturities and bear such rate or rates of interest as shall be determined by the Secretary of the Treasury. The Secretary of the Treasury is authorized and directed to purchase any obligations of the Secretary issued under this section, and for such purposes is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as now or hereafter in force, and the purposes for which such securities may be issued under such Act are extended to include the purchases of the Secretary's obligations hereunder.

(e) Federal taxation of guaranteed obligations; grants to borrowing unit or agency of taxable obligations for net interest costs, etc.; limitation on amount of grant.

Obligations guaranteed under this section, may, at the option of the issuing unit of general local government or designated agency, be subject to Federal taxation as provided in subsection (g) of this section. In the event that taxable obligations are issued and guaranteed, the Secretary is authorized to make, and to contract to make, grants to or on behalf of the issuing unit of general local government or public agency to cover not to exceed 30 per centum of the net interest cost (including such servicing, underwriting, or other costs as may be specified in regulations of the Secretary) to the borrowing unit or agency of such obligations.

(f) Inclusion within gross income for purpose of chapter 1 of Title 26 of interest paid on taxable obligations.

(a) Notice and hearing; termination, reduction, or limitation of payments by Secretary.

If the Secretary finds after reasonable notice and opportunity for hearing that a recipient of assistance under this chapter has failed to comply substantially with any provision of this chapter, the Secretary, until he is satisfied that there is no longer any such failure to comply, shall—

(1) terminate payments to the recipient under this chapter, or

(2) reduce payments to the recipient under this chapter by an amount equal to the amount of such payments which were not expanded in accordance with this chapter, or

(3) limit the availability of payments under this chapter to programs, projects, or activities not affected by such failure to comply.

(b) Referral of matters to Attorney General; institution of civil action by Attorney General.

(1) In lieu of, or in addition to, any action authorized by subsection (a) of this section, the Secretary may, if he has reason to believe that a recipient has failed to comply substantially with any provision of this chapter, refer the matter to the Attorney General of the United States with a recommendation that an appropriate civil action be instituted.

(2) Upon such a referral the Attorney General may bring a civil action in any United States district court having venue thereof for such relief as may be appropriate, including an action to recover the amount of the assistance furnished under this

§ 5403. Construction and safety standards.

(a) Establishment pursuant to orders of Secretary; consultation with Consumer Product Safety Commission; reasonableness; consideration of State and local laws.

The Secretary, after consultation with the Consumer Product Safety Commission, shall establish by order appropriate Federal mobile home construction and safety standards. (3) A mobile home offered for importation in violation of paragraph (1) of subsection (a) of this section shall be refused admission into the United States under joint regulations issued by the Secretary of the Treasury and the Secretary, except that the Secretary of the Treasury and the Secretary may, by such regulations, provide for authorizing the importation of such mobile home into the United States upon such terms and conditions (including the furnishing of a bond) as may appear to them appropriate to insure that any such mobile home will be brought into conformity with any applicable Federal mobile home construction or safety standard prescribed under this chapter, or will be exported from, or forfeited to, the United States.

(4) The Secretary of the Treasury and the Secretary may, by joint regulations, permit the importation of any mobile home after the first purchase of it in good faith for purposes other than resale.

(5) Paragraph (1) of subsection (a) of this section shall not apply in the case of a mobile home intended solely for export, and so labeled or tagged on the mobile home itself and on the outside of the container, if any, in which it is to be exported.

Each violation of a provision of section 5409 of this title, or any regulation or order issued thereunder shall constitute, a separate violation with respect to each mobile home or with respect to each failure or refusal to allow or perform an act required thereby, except that the maximum civil penalty may not exceed $1,000,000 for any related series of violations occurring within one year from the date of the first violation.

(b) An individual or a director, officer, or agent of a corporation who knowingly and willfully violates section 5409 of this title in a manner which threatens the health or safety of any purchaser shall be fined not more than $1,000 or imprisoned not more than one year, or both. § 5411. Injunctive relief.

(a) Jurisdiction; petition of United States attorney or Attorney General; notice by Secretary to affected persons to present views.

The United States district courts shall have jurisdiction, for cause shown and subject to the provisions of rule 65 (a) and (b) of the Federal Rules of Civil Procedure, to restrain violations of this chapter, or to restrain the sale, offer for sale, or the importation into the United States, of any mobile home which is determined, prior to the first purchase of such mobile home in good faith for purposes other than resale, not to conform to applicable Federal mobile home construction and safety standards prescribed pursuant to this chapter or to contain a defect which constitutes an imminent safety hazard, upon petition by the appropriate United States attorney or the Attorney General on behalf of the United States. Whenever practicable, the Secretary shall give notice to any person against whom an action for injunctive relief is contemplated and afford him an opportunity to present his views and the failure to give such notice and afford such opportunity shall not preclude the granting of appropriate relief.

(b) Criminal contempt proceedings; conduct of trial.

In any proceeding for criminal contempt for violation of an injunction or restraining order issued under this section, which violation also constitutes a violation of this chapter, trial shall be by the court or, upon demand of the accused, by a jury. Such trial shall be conducted in accordance with the practice and procedure applicable in the case of proceedings subject to the provisions of rule 42(b) of the Federal Rules of Criminal Procedure.

(c) Venue.

Actions under subsection (a) of this section and section 5410 of this title may be brought in the district wherein any act or transaction constituting the violation occurred, or in the district wherein the defendant is found or is an inhabitant or transacts business, and process in such cases may be served in any other district of which the defendant is an inhabitant or wherever the defendant may be found.

(d) Subpoenas.

In any action brought by the United States under subsection (a) of this section or section 5410 of this title, subpenas by the United States for witnesses who are required to attend at United States district court may run into any other district.

(e) Designation by manufacturer of agent for service of administrative and judicial processes, etc.; filing and amendment of designation; failure to make designation.

It shall be the duty of every manufacturer offering a mobile home for importation into the United States to designate in writing an agent upon whom service of all administrative and judicial processes, notices, orders, decisions, and requirements may be made for and on behalf of such manufacturer, and to file such designation with the Secretary, which designation may from time to time be changed by like writing, similarly filed. Service of all administrative and judicial processes, notices, orders, decisions, and requirements may be made upon such manufacturer by service upon such designated agent at his office or usual place of residence with like effect as if made personally upon such manufacturer, and in default of such designation of such agent, service of process or any notice, order, requirement, or decision in any proceeding before the Secretary or in any judicial proceeding pursuant to this chapter may be made by mailing such process, notice, order, requirement, or decision to the Secretary by registered or certified mail. (Pub. L. 93–383, title VI, § 612, Aug. 22, 1974, 88 Stat. 705.)

Noncompliance with standards or defective nature of mobile home; administrative or judicial determination; repurchase by manufacturer or repair by distributor or dealer; reimbursement of expenses, etc., by manufacturer; injunctive relief against manufacturer for failure to comply; jurisdiction and venue; damages; period of limitation.

(a) If the Secretary or a court of appropriate jurisdiction determines that any mobile home does not conform to applicable Federal mobile home construction and safety standards, or that it contains a defect which constitutes an imminent safety hazard, after the sale of such mobile home by a manufacturer to a distributor or a dealer and prior to the sale of such mobile home by such distributor or dealer to a purchaser—

(1) the manufacturer shall immediately repurchase such mobile home from such distributor or dealer at the price paid by such distributor or dealer, plus all transportation charges involved and a reasonable reimbursement of not less than 1 per centum per month of such price paid prorated from the date of receipt by certified mail of notice of such nonconformance to the date of repurchase by the manufacturer; or

(2) the manufacturer, at his own expense, shall immediately furnish the purchasing distributor or dealer the required conforming part or parts or equipment for installation by the distributor or dealer on or in such mobile home, and for the installation involved the manufacturer shall reimburse such distributor or dealer for the reasonable value of such installation plus a reasonable reimbursement of not less than 1 per centum per month of the manufacturer's or distributor's selling price prorated from the date of receipt by certified mail of notice of such nonconformance

to the date such vehicle is brought into conformance with applicable Federal standards, so long as the distributor or dealer proceeds with reasonable diligence with the installation after the required part or equipment is received.

The value of such reasonable reimbursements as specified in paragraphs (1) and (2) of this subsection shall be fixed by mutual agreement of the parties, or, failing such agreement, by the court pursuant to the provisions of subsection (b) of this section.

(b) If any manufacturer fails to comply with the requirements of subsection (a) of this section, then the distributor or dealer, as the case may be, to whom such mobile home has been sold may bring an action seeking a court injunction compelling compliance with such requirements on the part of such manufacturer. Such action may be brought in any district court in the United States in the district in which such manufacturer resides, or is found, or has an agent, without regard to the amount in controversy, and the person bringing the action shall also be entitled to recover any damage sustained by him, as well as all court costs plus reasonable attorney's fees. Any action brought pursuant to this section shall be forever barred unless commenced within three years after the cause of action shall have accrued. (Pub. L. 93–383, title VI, § 613, Aug. 22, 1974, 88 Stat. 706.)

§ 5413. Inspections and investigations for promulgation or enforcement of standards or execution of other duties.

(a) Authority of Secretary; results furnished to Attorney General and Secretary of Treasury for appropriate action.

The Secretary is authorized to conduct such inspections and investigations as may be necessary to promulgate or enforce Federal mobile home construction and safety standards established under this chapter or otherwise to carry out his duties under this chapter. He shall furnish the Attorney General and, when appropriate, the Secretary of the Treasury any information obtained indicating noncompliance with such standards for appropriate action.

(b) Designation by Secretary of persons to enter and inspect factories, etc.; presentation of credentials; reasonableness and scope of inspection.

(1) For purposes of enforcement of this chapter, persons duly designated by the Secretary, upon presenting appropriate credentials to the owner, operator, or agent in charge, are authorized—

(A) to enter, at reasonable times and without advance notice, any factory, warehouse, or establishment in which mobile homes are manufactured, stored, or held, for sale; and

(B) to inspect, at reasonable times and within reasonable limits and in a reasonable manner, any such factory, warehouse, or establishment, and to inspect such books, papers, records, and documents as are set forth in subsection (c) of this section. Each such inspection shall be commenced and completed with reasonable promptness.

(2) The Secretary is authorized to contract with State and local governments and private inspection organizations to carry out his functions under this subsection.

(c) Powers of Secretary.

For the purpose of carrying out the provisions of this chapter, the Secretary is authorized—

(1) to hold such hearings, take such testimony, sit and act at such times and places, administer such oaths, and require, by subpena or otherwise, the attendance and testimony of such witnesses and the production of such books, papers, correspondence, memorandums, contracts, agreements, or other records, as the Secretary or such officer or employee deems advisable. Witnesses summoned pursuant to this subsection shall be paid the same fees and mileage that are paid witnesses in the courts of the United States;

(2) to examine and copy any documentary evidence of any person having materials or information relevant to any function of the Secretary under this chapter;

(3) to require, by general or special orders, any person to file, in such form as the Secretary may prescribe, reports or answers in writing to specific questions relating to any function of the Secretary under this chapter. Such reports and answers shall be made under oath or otherwise, and shall be filed with the Secretary within such reasonable period as the Secretary may prescribe;

(4) to request from any Federal agency any information he deems necessary to carry out his functions under this chapter, and each such agency is authorized and directed to cooperate with the Secretary and to furnish such information upon request made by the Secretary, and the head of any Federal agency is authorized to detail, on a reimbursable basis, any personnel of such agency to assist in carrying out the duties of the Secretary under this chapter; and

(5) to make available to the public any information which may indicate the existence of a defect which relates to mobile home construction or safety or of the failure of a mobile home to comply with applicable mobile home construction and safety standards. The Secretary shall disclose so much of other information obtained under this subsection to the public as he determines will assist in carrying out this chapter; but he shall not (under the authority of this sentence) make available or disclose to the public any information which contains or relates to a trade secret or any information the disclosure of which would put the person furnishing such information at a substantial competitive disadvantage, unless he determines that it is necessary to carry out the purpose of this chapter.

(d) Refusal to obey subpoena or order of Secretary; order of compliance by district court; failure to obey order of compliance punishable as contempt.

Any of the district courts of the United States within the jurisdiction of which an inquiry is carried on may, in the case of contumacy or refusal to

obey a subpena or order of the Secretary issued under paragraph (1) or paragraph (3) of subsection (c) of this section, issue an order requiring compliance therewith; and any failure to obey such order of the court may be punished by such court as a contempt thereof.

(e) Submission by manufacturer of building plans for mobile homes; certification by manufacturer of conformity of building plans to standards.

Each manufacturer of mobile homes shall submit the building plans for every model of such mobile homes to the Secretary or his designee for the purpose of inspection under this section. The manufacturer must certify that each such building plan meets the Federal construction and safety standards in force at that time before the model involved is produced.

(f) Records, reports and information from manufacturers, distributors and dealers of mobile homes; inspection and examination of relevant books, papers, records and documents by designated person.

Each manufacturer, distributor, and dealer of mobile homes shall establish and maintain such records, make such reports, and provide such information as the Secretary may reasonably require to enable him to determine whether such manufacturer, distributor, or dealer has acted or is acting in compliance with this chapter and Federal mobile home construction and safety standards prescribed pursuant to this chapter and shall, upon request of a person duly designated by the Secretary, permit such person to inspect appropriate books, papers, records, and documents relevant to determining whether such manufacturer, distributor, or dealer has acted or is acting in compliance with this chapter and mobile home construction and safety standards prescribed pursuant to this chapter.

(g) Performance and technical data from manufacturer; persons required to receive notification of data.

Each manufacturer of mobile homes shall provide to the Secretary such performance data and other technical data related to performance and safety as may be required to carry out the purposes of this chapter. These shall include records of tests and test results which the Secretary may require to be performed. The Secretary is authorized to require the manufacturer to give notification of such performance and technical data to—

(1) each prospective purchaser of a mobile home before its first sale for purposes other than resale, at each location where any such manufacturer's mobile homes are offered for sale by a person with whom such manufacturer has a contractual, proprietary, or other legal relationship and in a manner determined by the Secretary to be appropriate, which may include, but is not limited to, printed matter (A) available for retention by such prospective purchaser, and (B) sent by mail to such prospective purchaser upon his request; and

(2) the first person who purchases a mobile home for purposes other than resale, at the time of such purchase or in printed matter placed in the mobile home.

(h) Disclosure of confidential information and trade secrets.

All information reported to or otherwise obtained by the Secretary or his representative pursuant to subsection (b), (c), (f), or (g) of this section which contains or relates to a trade secret, or which, if disclosed, would put the person furnishing such information at a substantial competitive disadvantage, shall be considered confidential, except that such information may be disclosed to other officers or employees concerned with carrying out this chapter or when relevant in any proceeding under this chapter. Nothing in this section shall authorize the withholding of information by the Secretary or any officer or employee under his control from the duly authorized committees of the Congress. (Pub. L. 93–383, title VI, § 614, Aug. 22, 1974, 88 Stat. 707.)

EFFECTIVE DATE

Section effective upon the expiration of 180 days following Aug. 22, 1974, see section 628 of Pub. L. 93–383, set out as a note under section 5401 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 5409, 5414, 5422 of this title.

§ 5414. Notification and correction of defects by manufacturer.

(a) Notice to purchaser within reasonable time after discovery of defect.

Every manufacturer of mobile homes shall furnish notification of any defect in any mobile home produced by such manufacturer which he determines, in good faith, relates to a Federal mobile home construction or safety standard or contains a defect which constitutes an imminent safety hazard to the purchaser of such mobile home, within a reasonable time after such manufacturer has discovered such defect.

(b) Notification by mail.

The notification required by subsection (a) of this section shall be accomplished—

(1) by mail to the first purchaser (not including any dealer or distributor of such manufacturer) of the mobile home containing the defect, and to any subsequent purchaser to whom any warranty on such mobile home has been transferred;

(2) by mail to any other person who is a registered owner of such mobile home and whose name and address has been ascertained pursuant to procedures established under subsection (f) of this section; and

(3) by mail or other more expeditious means to the dealer or dealers of such manufacturer to whom such mobile home was delivered.

(c) Form and requisites of notification.

The notification required by subsection (a) of this section shall contain a clear description of such defect or failure to comply, an evaluation of the risk to mobile home occupants' safety reasonably related to such defect, and a statement of the measures needed to repair the defect. The notification shall also inform the owner whether the defect is a construction or safety defect which the manufacturer will have corrected at no cost to the owner of the

mobile home under subsection (g) of this section or otherwise, or is a defect which must be corrected at the expense of the owner.

(d) Copy to Secretary of all notices, bulletins, and communications sent by manufacturer to dealers and purchasers concerning defects; disclosure to public by Secretary.

Every manufacturer of mobile homes shall furnish to the Secretary a true or representative copy of all notices, bulletins, and other communications to the dealers of such manufacturer or purchasers of mobile homes of such manufacturer regarding any defect in any such mobile home produced by such manufacturer. The Secretary shall disclose to the public so much of the information contained in such notices or other information obtained under section 5413 of this title as he deems will assist in carrying out the purposes of this chapter, but he shall not disclose any information which contains or relates to a trade secret, or which, if disclosed, would put such manufacturer at a substantial competitive disadvantage, unless he determines that it is necessary to carry out the purposes of this chapter.

(e) Notice by Secretary to manufacturers of noncompliance with standards or defective nature of mobile home; contents of notice; presentation by manufacturer of views; notice to purchasers of defects.

If the Secretary determines that any mobile home—

(1) does not comply with an applicable Federal mobile home construction and safety standard prescribed pursuant to section 5403 of this title; or

(2) contains a defect which constitutes an imminent safety hazard,

then he shall immediately notify the manufacturer of such mobile home of such defect or failure to comply. The notice shall contain the findings of the Secretary and shall include all information upon which the findings are based. The Secretary shall afford such manufacturer an opportunity to present his views and evidence in support thereof, to establish that there is no failure of compliance. If after such presentation by the manufacturer the Secretary determines that such mobile home does not comply with applicable Federal mobile home construction or safety standards, or contains a defect which constitutes an imminent safety hazard, the Secretary shall direct the manufacturer to furnish the notification specified in subsections (a) and (b) of this section.

(f) Maintenance by manufacturer of record of names and addresses of first purchasers of mobile homes; procedures for ascertaining names and addresses of subsequent purchasers; establishment and reasonableness of procedures for maintaining records.

Every manufacturer of mobile homes shall maintain a record of the name and address of the first purchaser of each mobile home (for purposes other than resale), and, to the maximum extent feasible, shall maintain procedures for ascertaining the name and address of any subsequent purchaser thereof and shall maintain a record of names and addresses so ascertained. Such records shall be kept for each home produced by a manufacturer. The Secretary may establish by order procedures to be followed by manufacturers in establishing and maintaining such records, including procedures to be followed by distributors and dealers to assist manufacturers to secure the information required by this subsection. Such procedures shall be reasonable for the particular type of mobile home for which they are prescribed.

(g) Correction of defects by manufacturer; conditions; procedures; contract or legal rights of purchasers or other persons unaffected.

A manufacturer required to furnish notification of a defect under subsection (a) or (e) of this section shall also bring the mobile home into compliance with applicable standards and correct the defect or have the defect corrected within a reasonable period of time at no expense to the owner, but only if—

(1) the defect presents an unreasonable risk of injury or death to occupants of the affected mobile home or homes;

(2) the defect can be related to an error in design or assembly of the mobile home by the manufacturer.

The Secretary may direct the manufacturer to make such corrections after providing an opportunity for oral and written presentation of views by interested persons. Nothing in this section shall limit the rights of the purchaser or any other person under any contract or applicable law.

(h) Submission to Secretary by manufacturer of plan for notifying owners of defects and repair of defects; approval of manufacturer's remedy plan; effectuation and implementation of remedy plan.

The manufacturer shall submit his plan for notifying owners of the defect and for repairing such defect (if required under subsection (g) of this section) to the Secretary for his approval before implementing such plan. Whenever a manufacturer is required under subsection (g) of this section to correct a defect, the Secretary shall approve with or without modification, after consultation with the manufacturer of the mobile home involved, such manufacturer's remedy plan including the date when, and the method by which, the notification and remedy required pursuant to this section shall be effectuated. Such date shall be the earliest practicable one but shall not be more than sixty days after the date of discovery or determination of the defect or failure to comply, unless the Secretary grants an extension of such period for good cause shown and publishes a notice of such extension in the Federal Register. Such manufacturer is bound to implement such remedy plan as approved by the Secretary.

(i) Defective or inadequately repaired mobile homes; replacement with new or equivalent home or refund of purchase price.

Where a defect or failure to comply in a mobile home cannot be adequately repaired within sixty days from the date of discovery or determination of the defect, the Secretary may require that the mobile home be replaced with a new or equivalent home without charge, or that the purchase price be refunded in full, less a reasonable allowance for depreciation based on actual use if the home has been in the possession of the owner for more than one

year. (Pub. L. 93–383, title VI, § 615, Aug. 22, 1974, 88 Stat. 709.)

After the Secretary approves a State plan submitted under subsection (b) of this section, he may, but shall not be required to, exercise his authority under this chapter with respect to enforcement of mobile home construction and safety standards in the State involved.

(f) Annual evaluation by Secretary of execution of State plan; basis of evaluation; submission of evaluation and data to Congress; determination by Secretary of improper administration, etc., of State plan; procedure; effect of determination.

The Secretary shall, on the basis of reports submitted by the designated State agency and his own inspections, make a continuing evaluation of the manner in which each State having a plan approved under this section is carrying out such plan. Such evaluation shall be made by the Secretary at least annually for each State, and the results of such evaluation and the inspection reports on which it is based shall be promptly submitted to the appropriate committees of the Congress. Whenever the Secretary finds, after affording due notice and opportunity for a hearing, that in the administration of the State plan there is a failure to comply substantially with any provision of the State plan or that the State plan has become inadequate, he shall notify the State agency or agencies of his withdrawal of approval of such plan. Upon receipt of such notice by such State agency or agencies such plan shall cease to be in effect, but the State may retain jurisdiction in any case commenced before the withdrawal of the plan in order to enforce mobile home standards under the plan whenever the issues involved do not relate to the reasons for the withdrawal of the plan. SUBCHAPTER I.—HEATING AND COOLING

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 5553, 5903, 5905 of this title.

TRANSFER OF FUNCTIONS

Functions of the National Science Foundation relating to or are utilized in connection with solar heating and cooling development transferred and vested in the Administrator, Energy Research and Development Administration, see section 5814(f) of this title.

§ 5501. Congressional findings and declaration of policy.

(a) The Congress hereby finds that—

(1) the current imbalance between supply and demand for fuels and energy is likely to persist for sometime;

(2) the early demonstration of the feasibility of using solar energy for the heating and cooling of buildings could help to relieve the demand upon present fuel and energy supplies;

(3) the technologies for solar heating are close to the point of commercial application in the United States;

(4) the technologies for combined solar heating and cooling still require research, development, testing and demonstration, but no insoluble technical problem is now foreseen in achieving commercial use of such technologies;

(5) the early development and export of viable solar heating equipment and combined solar heating and cooling equipment, consistent with the established preeminence of the United States in the field of high technology products, can make a valuable contribution to our balance of trade;

(6) the widespread use of solar energy in place of conventional methods for the heating and cooling of buildings would have a significantly beneficial effect upon the environment;

(7) the mass production and use of solar heating and cooling equipment will help to eliminate the dependence of the United States upon foreign energy sources and promote the national defense;

(8) the widespread introduction of low-cost solar energy will be beneficial to consumers in a period of rapidly rising fuel cost;

(9) innovation and creativity in the development of solar heating and combined solar heating and cooling components and systems can be fostered through encouraging direct contact between the manufacturers of such systems and the architects, engineers, developers, contractors, and other persons interested in installing such systems in buildings;

(10) evaluation of the performance and reliability of solar heating and combined solar heating and cooling technologies can be expedited by testing under carefully controlled conditions; and

(11) commercial application of solar heating and combined solar heating and cooling technologies can be expedited by early commercial demonstration under practical conditions.

(b) It is therefore declared to be the policy of the United States and the purpose of this subchapter to provide for the demonstration within a three-year period of the practical use of solar heating technology, and to provide for the development and demonstration within a five-year period of the practical use of combined heating and cooling technology.

SUBCHAPTER II.—RESEARCH, DEVELOPMENT, AND DEMONSTRATION

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 5902, 5905 of this title.

§ 5551. Congressional declaration of findings and policy.

(a) The Congress hereby finds that—

(1) the needs of a viable society depend on an ample supply of energy.

(2) the current imbalance between domestic supply and demand for fuels and energy is likely to persist for some time;

(3) dependence on nonrenewable energy resources cannot be continued indefinitely, particularly at current rates of consumption;

(4) it is in the Nation's interest to expedite the long-term development of renewable and nonpolluting energy resources, such as solar energy;

(5) the various solar energy technologies are today at widely differing stages of development, with some already near the stage of commercial application and others still requiring basic research;

(6) the early development and export of viable equipment utilizing solar energy, consistent with the established preeminence of the United States in the field of high technology products, can make a valuable contribution to our balance of trade;

(7) the mass production and use of equipment utilizing solar energy will help to eliminate the dependence of the United States upon foreign energy sources and promote the national defense;

(8) to date, the national effort in research, development, and demonstration activities relating to the utilization of solar energy has been extremely limited; therefore

(9) the urgency of the Nation's critical energy shortages and the need to make clean and renewable energy alternatives commercially viable require that the Nation undertake an intensive research, development, and demonstration program with an estimated Federal investment which may reach or exceed $1,000,000,000.

(b) The Congress declares that it is the policy of the Federal Government to—

(1) pursue a vigorous and viable program of research and resource assessment of solar energy as a major source of energy for our national needs; and

(2) provide for the development and demonstration of practicable means to employ solar energy on a commercial scale.

(Pub. L. 93–473, § 2, Oct. 26, 1974, 88 Stat. 1431.)

CHAPTER REFERRED TO IN OTHER SECTIONS

SUBCHAPTER I.—GENERALLY

§ 5601. Congressional statement of findings.

(a) The Congress hereby finds that—

(1) juveniles account for almost half the arrests for serious crimes in the United States today;

(2) understaffed, overcrowded juvenile courts, probation services, and correctional facilities are not able to provide individualized justice or effective help;

(3) present juvenile courts, foster and protective care programs, and shelter facilities are inadequate to meet the needs of the countless, abandoned, and dependent children who, because of

this failure to provide effective services, may become delinquents;

(4) existing programs have not adequately responded to the particular problems of the increasing numbers of young people who are addicted to or who abuse drugs, particularly nonopiate or polydrug abusers;

(5) juvenile delinquency can be prevented through programs designed to keep students in elementary and secondary schools through the prevention of unwarranted and arbitrary suspensions and expulsions;

(6) States and local communities which experience directly the devastating failures of the juvenile justice system do not presently have sufficient technical expertise or adequate resources to deal comprehensively with the problems of juvenile delinquency; and

(7) existing Federal programs have not provided the direction, coordination, resources, and leadership required to meet the crisis of delinquency.

(b) Congress finds further that the high incidence of delinquency in the United States today results in enormous annual cost and immeasurable loss of human life, personal security, and wasted human resources and that juvenile delinquency constitutes a growing threat to the national welfare requiring immediate and comprehensive action by the Federal Government to reduce and prevent delinquency. (Pub. L. 93–415, title I, § 101, Sept. 7, 1974, 88 Stat. 1109.)

EFFECTIVE DATE

Section 263 of Pub. L. 93–415 provided that:

"(a) Except as provided by subsection (b), the foregoing provisions of this Act [enacting subchapters I and II of this chapter and amending section 5108 of Title 5, Government Organization and Employees] shall take effect on the date of enactment of this Act [Sept. 7, 1974].

"(b) Section 204(b)(5) and 204(b)(6) [section 5614(b)(5) and 5614(b)(6) of this title] shall become effective at the close of the thirty-first day of the twelfth calendar month of 1974. Section 204(*l*) [section 5614(*l*) of this title] shall become effective at the close of the thirty-first day of the eighth calendar month of 1976."

SHORT TITLE

Section 1 of Pub. L. 93–415 provided: "That this Act [enacting this chapter and adding sections 3772 to 3774, and 3821 of this title, and sections 4351 to 4353, 5038 to 5042 of Title 18, amending sections 3701, 3723, 3733, 3768, 3811 to 3814, 3882, 3883 and 3888 of this title, section 5108 of Title 5, and sections 5031 to 5037 of Title 18, and repealing section 3889 of this title] may be cited as the 'Juvenile Justice and Delinquency Prevention Act of 1974'."

§ 5602. Congressional declaration of purpose and policy.

(a) It is the purpose of this chapter—

(1) to provide for the thorough and prompt evaluation of all federally assisted juvenile delinquency programs;

(2) to provide technical assistance to public and private agencies, institutions, and individuals in developing and implementing juvenile delinquency programs;

(3) to establish training programs for persons, including professionals, paraprofessionals, and volunteers, who work with delinquents or potential delinquents or whose work or activities relate to juvenile delinquency programs;

(4) to establish a centralized research effort on the problems of juvenile delinquency, including an information clearinghouse to disseminate the findings of such research and all data related to juvenile delinquency;

(5) to develop and encourage the implementation of national standards for the administration of juvenile justice, including recommendations for administrative, budgetary, and legislative action at the Federal, State, and local level to facilitate the adoption of such standards;

(6) to assist States and local communities with resources to develop and implement programs to keep students in elementary and secondary schools and to prevent unwarranted and arbitrary suspensions and expulsions; and

(7) to establish a Federal assistance program to deal with the problems of runaway youth.

(b) It is therefore the further declared policy of Congress to provide the necessary resources, leadership, and coordination (1) to develop and implement effective methods of preventing and reducing juvenile delinquency; (2) to develop and conduct effective programs to prevent delinquency, to divert juveniles from the traditional juvenile justice system and to provide critically needed alternatives to institutionalization; (3) to improve the quality of juvenile justice in the United States; and (4) to increase the capacity of State and local governments and public and private agencies to conduct effective juvenile justice and delinquency prevention and rehabilitation programs and to provide research, evaluation, and training services in the field of juvenile delinquency prevention. (Pub. L. 93–415, title I, § 102, Sept. 7, 1974, 88 Stat. 1110.)

SUBCHAPTER III.—RUNAWAY YOUTH

§ 5701. Congressional statement of findings.

The Congress hereby finds that—

(1) the number of juveniles who leave and remain away from home without parental permission has increased to alarming proportions, creating a substantial law enforcement problem for the communities inundated, and significantly endangering the young people who are without resources and live on the street;

(2) the exact nature of the problem is not well defined because national statistics on the size and profile of the runaway youth population are not tabulated;

(3) many such young people, because of their age and situation, are urgently in need of temporary shelter and counseling services;

(4) the problem of locating, detaining, and returning runaway children should not be the responsibility of already overburdened police departments and juvenile justice authorities; and

(5) in view of the interstate nature of the problem, it is the responsibility of the Federal Government to develop accurate reporting of the problem nationally and to develop an effective system of temporary care outside the law enforcement structure.

(Pub. L. 93–415, title III, § 302, Sept. 7, 1974, 88 Stat. 1129.)

SHORT TITLE

Section 301 of Pub. L. 93–415 provided that: "This title [enacting this subchapter] may be cited as the 'Runaway Youth Act'."

§ 5702. Promulgation of rules.

The Secretary of Health, Education, and Welfare (hereinafter referred to as the "Secretary") may prescribe such rules as he considers necessary or appropriate to carry out the purposes of this subchapter. (Pub. L. 93–415, title III, § 303, Sept. 7, 1974, 88 Stat 1130.)

§ 5711. Authorization for grants and technical assistance; purposes; amount of grant; priority.

The Secretary is authorized to make grants and to provide technical assistance to localities and nonprofit private agencies in accordance with the provisions of this part. Grants under this part shall be made for the purpose of developing local facilities to deal primarily with the immediate needs of runaway youth in a manner which is outside the law enforcement structure and juvenile justice system. The size of such grant shall be determined by the number of runaway youth in the community and the existing availability of services. Among applicants priority shall be given to private organizations or institutions which have had past experience in dealing with runaway youth. (Pub. L. 93–415, title III, § 311, Sept. 7, 1974, 88 Stat. 1130.)

§ 5712. Eligibility; plan requirements.

(a) To be eligible for assistance under this part, an applicant shall propose to establish, strengthen, or fund an existing or proposed runaway house, a locally controlled facility providing temporary shelter, and counseling services to juveniles who have left home without permission of their parents or guardians.

(b) In order to qualify for assistance under this part, an applicant shall submit a plan to the Secretary meeting the following requirements and including the following information. Each house—

(1) shall be located in an area which is demonstrably frequented by or easily reachable by runaway youth;

(2) shall have a maximum capacity of no more than twenty children, with a ratio of staff to children of sufficient portion to assure adequate supervision and treatment;

(3) shall develop adequate plans for contacting the child's parents or relatives (if such action is required by State law) and assuring the safe return of the child according to the best interests of the child, for contacting local government officials pursuant to informal arrangements established with such officials by the runaway house, and for providing for other appropriate alternative living arrangements;

(4) shall develop an adequate plan for assuring proper relations with law enforcement personnel, and the return of runaway youths from correctional institutions;

(5) shall develop an adequate plan for aftercare counseling involving runaway youth and their

parents within the State in which the runaway house is located and for assuring, as possible, that aftercase services will be provided to those children who are returned beyond the State in which the runaway house is located;

(6) shall keep adequate statistical records profiling the children and parents which it serves, except that records maintained on individual runaway youths shall not be disclosed without parental consent to anyone other than another agency compiling statistical records or a government agency involved in the disposition of criminal charges against an individual runaway youth, and reports or other documents based on such statistical records shall not disclose the identity of individual runaway youths;

(7) shall submit annual reports to the Secretary detailing how the house has been able to meet the goals of its plans and reporting the statistical summaries required by paragraph (6);

(8) shall demonstrate its ability to operate under accounting procedures and fiscal control devices as required by the Secretary;

(9) shall submit a budget estimate with respect to the plan submitted by such house under this subsection; and

(10) shall supply such other information as the Secretary reasonably deems necessary.

Nothing in this part shall be construed to deny grants to nonprofit private agencies which are fully controlled by private boards or persons but which in other respects meet the requirements of this part and agree to be legally responsible for the operation of the runaway house. Nothing in this part shall give the Federal Government control over the staffing and personnel decisions of facilities receiving Federal funds. (Pub. CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in section 5905 of this title.

§ 5801. Congressional declaration of policy and purpose.

(a) Development and utilization of energy sources.

The Congress hereby declares that the general welfare and the common defense and security require effective action to develop, and increase the efficiency and reliability of use of, all energy sources to meet the needs of present and future generations, to increase the productivity of the national economy and strengthen its position in regard to international trade, to make the Nation self-sufficient in energy, to advance the goals of restoring, protecting, and enhancing environmental quality, and to assure public health and safety.

(b) Necessity of establishing Energy Research and Development Administration.

The Congress finds that, to best achieve these objectives, improve Government operations, and assure the coordinated and effective development of all energy sources, it is necessary to establish an Energy Research and Development Administration to bring together and direct Federal activities relating to research and development on the various sources of energy, to increase the efficiency and reliability in

the use of energy, and to carry out the performance of other functions, including but not limited to the Atomic Energy Commission's military and production activities and its general basic research activities. In establishing an Energy Research and Development Administration to achieve these objectives, the Congress intends that all possible sources of energy be developed consistent with warranted priorities.

(c) Separation of licensing and regulatory functions of the Atomic Energy Commission.

The Congress finds that it is in the public interest that the licensing and related regulatory functions of the Atomic Energy Commission be separated from the perfcrmance of the other functions of the Commission, and that this separation be effected in an orderly manner, pursuant to this chapter, assuring adequacy of technical and other resources necessary for the performance of each.

(d) Small business participation.

The Congress declares that it is in the public interest and the policy of Congress that small business concerns be given a reasonable opportunity to participate, insofar as is possible, fairly and equitably in grants, contracts, purchases, and other Federal activities relating to research, development, and demonstration of sources of energy efficiency, and utilization and conservation of energy. In carrying out this policy, to the extent practicable, the Administrator shall consult with the Administrator of the Small Business Administration.

(e) Priorities.

Determination of priorities which are warranted should be based on such considerations as power-related values of an energy source, preservation of material resources, reduction of pollutants, export market potential (including reduction of imports), among others. On such a basis, energy sources warranting priority might include, but not be limited to, the various methods of utilizing solar energy. (Pub. L. 93–438, § 2, Oct. 11, 1974, 88 Stat. 1233.)

EFFECTIVE DATE AND INTERIM APPOINTMENTS

Section 312 of Pub. L. 93–438 provided that:

"(a) This Act [see Short Title note below] shall take effect one hundred and twenty days after the date of its enactment [Oct. 11, 1974], or on such earlier date as the President may prescribe and publish in the Federal Register [see Ex. Ord. No. 11834, set out below] except that any of the officers provided for in title I of this Act [subchapter I of this chapter] may be nominated and appointed, as provided by this Act, at any time after the date of enactment of this Act. Funds available to any department or agency (or any official or component thereof), any functions of which are transferred to the Administrator and the Commission by this Act, may, with the approval of the President, be used to pay the compensation and expenses of any officer appointed pursuant to this subsection until such time as funds for that purpose are otherwise available.

"(b) In the event that any officer required by this Act to be appointed by and with the advice and consent of the Senate shall not have entered upon office on the effective date of this Act, the President may designate any officer, whose appointment was required to be made by and with the advice and consent of the Senate and who was such an officer immediately prior to the effective date of this Act, to act in such office until the office is filled as provided in this Act. While so acting, such persons shall receive compensation at the rates provided by this Act for the respective offices in which they act."

SHORT TITLE

Section 1 of Pub. L. 93–438 provided that: "This Act [enacting this chapter, repealing sections 2031 and 2032 of this title, amending sections 5313 to 5316 of Title 5, and enacting provisions set out as notes under section 5801 of this title] may be cited as the 'Energy Reorganization Act of 1974'."

SEPARABILITY OF PROVISIONS

Section 311 of Pub. L. 93–438 provided that: "If any provision of this Act [See Short Title note above], or the application thereof to any person or circumstance, is held invalid, the remainder of this Act, and the application of such provision to other persons or circumstances, shall not be affected thereby."

EX. ORD. NO. 11814. ACTIVATION OF ENERGY RESOURCES COUNCIL

Ex. Ord. No. 11814, Oct. 11, 1974, 39 F.R. 36955, as amended by Ex. Ord. No. 11819, Nov. 16, 1974, 39 F.R. 40743; Ex. Ord. No. 11855, May 1, 1975, 40 F.R. 19423, provided:

In my address to the Congress on October 8, 1974, I expressed my intention to create a new National Energy Board, under the chairmanship of the Secretary of the Interior, to develop, coordinate, and assure the implementation of Federal energy policy. Subsequent to my delivery of that address, the Congress completed action on the Energy Reorganization Act of 1974 [this chapter] which I have just approved into law. Section 108 of that act [this section] creates in the Executive Office of the President a new Energy Resources Council which would be charged with performing functions that are essentially the same as those I had intended to assign to the National Energy Board. Consequently, I have determined that it would serve no useful purpose to create that Board. Instead, I am now exercising the authority vested in me by section 108 of the Energy Reorganization Act of 1974 [this section], to activate immediately the Energy Resources Council, to designate the Secretary of the Interior as its Chairman, and to designate additional officials as members thereof.

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States of America by the Constitution and laws of the United States, particularly section 108 of the Energy Reorganization Act of 1974 [this section], and section 301 of title 3 of the United States Code, it is hereby ordered as follows:

SECTION 1. Section 108 of the Energy Reorganization Act of 1974 [this section] shall be effective as of the date of this order and the Energy Resources Council shall be deemed to have been activated as of that date.

SEC. 2. The Council shall consist of the Secretary of State, the Secretary of the Treasury, the Secretary of Defense, the Attorney General, the Secretary of the Interior, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Health, Education, and Welfare, the Secretary of Housing and Urban Development, the Secretary of Transportation, the Director of the Office of Management and Budget, the Chairman of the Council of Economic Advisers, the Administrator of the Federal Energy Administration, the Administrator of the Energy Research and Development Administration, the Chairman of the Nuclear Regulatory Commission, the Administrator of the Environmental Protection Agency, the Chairman of the Council on Environmental Quality, the Director of the National Science Foundation, the Administrator of General Services, the Chairman of the Federal Power Commission, the Assistant to the President for National security affairs, the Assistant to the President for Economic Affairs, the Assistant to the President for Domestic Affairs, the Special Assistant to the President for Consumer Affairs, and such other members as the President may, from time to time, designate. The Chairman shall be designated by the President.

SEC. 3. The Energy Resources Council shall perform such functions as are assigned to it by section 108 of the Energy Reorganization Act of 1974 [this section], shall develop a single national energy policy and program, and shall perform such other functions as may be assigned to it, from time to time, by the President.

SEC. 4. All departments and agencies shall cooperate with the Council and shall, to the extent permitted by law, provide it with such assistance and information as the Chairman of the Council may request.

SEC. 5. The Committee on Energy, the establishment of which was announced on June 14, 1974, is hereby abolished.

SEC. 6. The Council shall terminate in accordance with the provisions of section 108 of the Energy Reorganization Act of 1974 [this section].

GERALD R. FORD.

§ 5819. Report to Congress on future reorganization.

(a) The President shall transmit to the Congress as promptly as possible, but not later than June 30, 1975, such additional recommendations as he deems advisable for organization of energy and related functions in the Federal Government, including, but not limited to, whether or not there shall be established (1) a Department of Energy and Natural Resources, (2) an Energy Policy Council, and (3) a consolidation in whole or in part of regulatory functions concerning energy.

(b) This report shall replace and serve the purposes of the report required by section 774(a)(4) of Title 15. (Pub. L. 93–438, title I, § 109, Oct. 11, 1974, 88 Stat. 1242.)

§ 5820. Coordination with environmental efforts.

The Administrator is authorized to establish programs to utilize research and development performed by other Federal agencies to minimize the adverse environmental effects of energy projects. The Administrator of the Environmental Protection Agency, as well as other affected agencies and departments, shall cooperate fully with the Administrator in establishing and maintaining such programs, and in establishing appropriate interagency agreements to develop cooperative programs and to avoid unnecessary duplication. (Pub. L. 93–438, title I, § 110, Oct. 11, 1974, 88 Stat. 1242.)

RESEARCH APPLIED TO NATIONAL NEEDS; COORDINATION OF ENERGY RESEARCH AND DEVELOPMENT ACTIVITIES

Section 5 of Pub. L. 94–86, Aug. 9, 1975, 88 Stat. 430, provided that: "In the conduct of the energy research and development activities under the 'Research Applied to National Needs' category, the National Science Foundation shall coordinate all new project awards with the Administrator of the Energy Research and Development Administration or his designee."

EX. ORD. NO. 11902. PROCEDURES FOR EXPORT LICENSING POLICY AS TO NUCLEAR MATERIALS AND EQUIPMENT

Ex. Ord. No. 11902, Feb. 2, 1976, 41 F.R. 4877, provided:

The Energy Reorganization Act of 1974 [this chapter] transferred to the United States Nuclear Regulatory Commission the licensing and related regulatory functions previously exercised by the Atomic Energy Commission under the Atomic Energy Act of 1954, as amended [section 2011 et sq. of this title].

The exercise of discretion and control over nuclear exports within the limits of law concerns the authority and responsibility of the President with respect to the conduct of foreign policy and the ensuring of the common defense and security.

It is essential that the Executive branch inform the Nuclear Regulatory Commission of its views before the Commission issues or denies a license, or grants an exemption.

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and statutes of the United States of America, including the Atomic Energy Act of 1954, as amended (42 U.S.C. 2011 *et seq.*), and as President of the United States of America, it is hereby ordered as follows:

SECTION 1. (a) The Secretary of State is designated to receive from the Nuclear Regulatory Commission a copy of each export license application, each proposal by the Nuclear Regulatory Commission to issue a general license for export, and each proposal by the Nuclear Regulatory Commission for exemption from the requirement for a license, which may involve a determination, pursuant to the Atomic Energy Act of 1954, as amended [section 2011 et seq. of this title], that the issuance of the license or exemption from the requirement for a license will, or will not, be inimical to or constitute an unreasonable risk to the common defense and security.

(b) The Secretary of State shall ensure that a copy of each such application, proposed general license, or proposed exemption is received by the Secretary of Defense, the Secretary of Commerce, the Administrator of the United States Energy Research and Development Administration, hereinafter referred to as the Administrator, the Director of the Arms Control and Disarmament Agency, hereinafter referred to as the Director, and the head of any other department or agency which may have an interest therein, in order to afford them the opportunity to express their views, if any, on whether the license should be issued or the exemption granted.

SEC. 2. Within thirty days of receipt of a copy of a license application, proposed general license, or proposed exemption, the Secretary of Defense, the Secretary of Commerce, the Administrator, the Director, and the head of any other agency or department to which such copy has been transmitted, shall each transmit to the Secretary of State his views, if any, on whether and under what conditions the license should be issued or the exemption granted.

SEC. 3. The Secretary of State shall, after the provisions of section 2 of this order have been complied with, transmit to the Secretary of Defense, the Secretary of Commerce, the Administrator, the Director, and the head of any other department or agency who has expressed his views thereon, a proposed position of the Executive branch as to whether the license should be issued or the exemption granted, including a proposed judgment as to whether issuance of the license or granting of the exemption will, or will not, be inimical to or constitute an unreasonable risk to the common defense and security.

SEC. 4. If the heads of departments and agencies specified in section 2 of this order are unable to agree upon a position for the Executive branch, the Secretary of State shall refer the matter to the Chairman of the Under Secretaries Committee of the National Security Council in order to obtain a decision. In the event the Under Secretaries Committee is unable to reach a decision, the Chairman of that Committee shall refer the matter to the President for his decision.

SEC. 5. The Secretary of State, after taking the actions required by this order, shall notify the Nuclear Regulatory Commission of the position of the Executive branch as to whether the license should be issued or the exemption granted, including the judgment of the Executive branch as to whether issuance of the license or granting of the exemption will, or will not, be inimical to or constitute an unreasonable risk to the common defense and security. The Executive branch position shall be supported by relevant information and documentation as appropriate to the proceedings before the Nuclear Regulatory Commission.

Any individual director, or responsible officer of a firm constructing, owning, operating, or supplying the components of any facility or activity which is licensed or otherwise regulated pursuant to the Atomic Energy Act of 1954 as amended, or pursuant to this chapter, who obtains information reasonably indicating that such facility or activity or basic components supplied to such facility or activity—

(1) fails to comply with the Atomic Energy Act of 1954, as amended, or any applicable rule, regulation, order, or license of the Commission relating to substantial safety hazards, or

(2) contains a defect which could create a substantial safety hazard, as defined by regulations which the Commission shall promulgate,

shall immediately notify the Commission of such failure to comply, or of such defect, unless such person has actual knowledge that the Commission has been adequately informed of such defect or failure to comply.

§ 5847. Nuclear energy center site survey.

(a)[1](1) The Commission is authorized and directed to make or cause to be made under its direction, a national survey, which shall include consideration of each of the existing or future electric reliability regions, or other appropriate regional areas, to locate and identify possible nuclear energy center sites. This survey shall be conducted in cooperation with other interested Federal, State, and local agencies, and the views of interested persons, including electric utilities, citizens' groups, and others, shall be solicited and considered.

(2) For purposes of this section, the term "nuclear energy center site" means any site, including a site not restricted to land, large enough to support utility operations or other elements of the total nuclear fuel cycle, or both including, if appropriate, nuclear fuel reprocessing facilities, nuclear fuel fabrication plants, retrievable nuclear waste storage facilities, and unranium[2] enrichment facilities.

(3) The survey shall include—

(a) a regional evaluation of natural resources, including land, air, and water resources, available for use in connection with nuclear energy center sites; estimates of future electric power requirements that can be served by each nuclear energy center site; an assessment of the economic impact of each nuclear energy site; and consideration of any other relevant factors, including but not limited to population distribution, proximity to electric load centers and to other elements of the fuel cycle, transmision line rights-of-way, and the availability of other fuel resources;

(b) an evaluation of the environmental impact likely to result from construction and operation of such nuclear energy centers, including an evaluation whether such nuclear energy centers will result in greater or lesser environmental impact than separate siting of the reactors and/or fuel cycle facilities; and

(c) consideration of the use of federally owned property and other property designated for public use, but excluding national parks, national forests, national wilderness areas, and national historic monuments.

(4) A report of the results of the survey shall be published and transmitted to the Congress and the Council on Environmental Quality not later than one year from October 11, 1974, and shall be made available to the public, and shall be updated from time to time thereafter as the Commission, in its discretion, deems advisable. The report shall include the Commission's evaluation of the results of the survey and any conclusions and recommendations, including recommendations for legislation, which the Commission may have concerning the feasibility and practicality of locating nuclear power reactors and/or other elements of the nuclear fuel cycle on nuclear energy center sites. The Commission is authorized to adopt policies which will encourage the location of nuclear power reactors and related fuel cycle facilities on nuclear energy center sites insofar as practicable. § 5848. Abnormal occurrence reports.

The Commission shall submit to the Congress each quarter a report listing for that period any abnormal occurrences at or associated with any facility which is licensed or otherwise regulated pursuant to the Atomic Energy Act of 1954 as amended, or pursuant to this chapter. For the purposes of this section an abnormal occurrence is an unscheduled incident or event which the Commission determines is significant from the standpoint of public health or safety. Nothing in the preceding sentence shall limit the authority of a court to review the determination of the Commission. Each such report shall contain—

SUBCHAPTER III.—MISCELLANEOUS AND TRANSITIONAL PROVISIONS

§ 5871. Transitional provisions.

(a) Except as otherwise provided in this chapter, whenever all of the functions or programs of an agency, or other body, or any component thereof, affected by this chapter, have been transferred from that agency, or other body, or any component thereof by this chapter, the agency, or other body, or component thereof shall lapse. If an agency, or other body, or any component thereof, lapses pursuant to the preceding sentence, each position and office therein which was expressly authorized by law, or the incumbent of which was authorized to receive compensation at the rate prescribed for an office or position at level II, III, IV, or V of the Executive Schedule (sections 5313 to 5316 of Title 5), shall lapse.

(b) All orders, determinations, rules, regulations, permits, contracts, certificates, licenses, and privileges—

(1) which have been issued, made, granted, or allowed to become effective by the President, any Federal department or agency or official thereof, or by a court of competent jurisdiction, in the performance of functions which are transferred under this chapter;

(2) which are in effect at the time this chapter takes effect, shall continue in effect according to their terms until modified, terminated, superseded, set aside, or revoked by the President, the Administrator, the Commission, or other authorized officials, a court of competent jurisdiction, or by operation of law.

(c) The provisions of this chapter shall not affect any proceeding pending, at the time this section takes effect, before the Atomic Energy Commission or any department or agency (or component thereof) functions of which are transferred by this chapter; but such proceedings, to the extent that they relate to functions so transferred, shall be continued. Orders shall be issued in such proceedings, appeals shall be taken therefrom, and payments shall be made pursuant to such orders, as if this chapter had not been enacted; and orders issued in any such proceedings shall continue in effect until modified, terminated, superseded, or revoked by a duly authorized official, by a court of competent jurisdiction, or by operation of law. Nothing in this subsection shall be deemed to prohibit the discontinuance or modification of any such proceeding under the same terms and conditions and to the same extent that such proceeding could have been discontinued if this chapter had not been enacted.

(d) Except as provided in subsection (f) of this section—

(1) the provisions of this chapter shall not affect suits commenced prior to the date this chapter takes effect, and

(2) in all such suits proceedings shall be had, appeals taken, and judgments rendered, in the same manner and effect as if this chapter had not been enacted.

(e) No suit, action, or other proceeding commenced by or against any officer in his official capacity as an officer of any department or agency, functions of which are transferred by this chapter, shall abate by reason of the enactment of this chapter. No cause of action by or against any department or agency, functions of which are transferred by this chapter, or by or against any officer thereof in his official capacity shall abate by reason of the enactment of this chapter. Causes of actions, suits, actions, or other proceedings may be asserted by or against the United States or such official as may be appropriate and, in any litigation pending when this section takes effect, the court may at any time, on its own motion or that of any party, enter any order which will give effect to the provisions of this section.

(f) If, before the date on which this chapter takes effect, any department or agency, or officer thereof in his official capacity, is a party to a suit, and under this chapter any function of such department, agency, or officer is transferred to the Administrator or Commission, or any other official, then such suit shall be continued as if this chapter had not been enacted, with the Administrator or Commission, or other official, as the case may be, substituted.

(g) Final orders and actions of any official or component in the performance of functions transferred by this chapter shall be subject to judicial review to the same extent and in the same manner as if such orders or actions had been made or taken by the officer, department, agency, or instrumentality in the performance of such functions immediately preceding the effective date of this chapter. Any statutory requirements relating to notices, hearings, action upon the record, or administrative review that apply to any function transferred by this chapter shall apply to the performance of those functions by the Administrator or Commission, or any officer or component.

(h) With respect to any functions transferred by this chapter and performed after the effective date of this chapter, reference in any other law to any department or agency, or any officer or office, the functions of which are so transferred, shall be deemed to refer to the Administration, the Administrator or Commission, or other office or official in which this chapter vests such functions.

(i) Nothing contained in this chapter shall be construed to limit, curtail, abolish, or terminate any function of the President which he had immediately before the effective date of this chapter; or to limit, curtail, abolish, or terminate his authority to perform such function; or to limit curtail, abolish, or terminate his authority to delegate, redelegate, or terminate any delegation of functions.

§ 5901. Congressional statement of findings.

The Congress hereby finds that—

(a) The Nation is suffering from a shortage of environmentally acceptable forms of energy .

(b) Compounding this energy shortage is our past and present failure to formulate a comprehensive and aggressive research and development program designed to make available to American consumers our large domestic energy reserves including fossil fuels, nuclear fuels, geothermal resources, solar energy, and other forms of energy. This failure is partially because the unconventional energy technologies have not been judged to be economically competitive with traditional energy technologies.

(c) The urgency of the Nation's energy challenge will require commitments similar to those undertaken in the Manhattan and Apollo projects; it will require that the Nation undertake a research, development, and demonstration program in nonnuclear energy technologies with a total Federal investment which may reach or exceed $20,000,000,000 over the next decade.

(d) In undertaking such program, full advantage must be taken of the existing technical and managerial expertise in the various energy fields within Federal agencies and particularly in the private sector.

(e) The Nation's future energy needs can be met if a national commitment is made now to dedicate the necessary financial resources, to enlist our scientific and technological capabilities, and to accord the proper priority to developing new nonnuclear energy options to serve national needs, conserve vital resources, and protect the environment. (Pub. L. 93–577, § 2, Dec. 31, 1974, 88 Stat. 1879.)

§ 5904. Research, development, and demonstration program governing principles.

(a) The Congress authorizes and directs that the comprehensive program in research, development, and demonstration required by this chapter shall be designed and executed according to the following principles:

(1) Energy conservation shall be a primary consideration in the design and implementation of the Federal nonnuclear energy program. For the purposes of this chapter, energy conservation means both improvement in efficiency of energy production and use, and reduction in energy waste.

(2) The environmental and social consequences of a proposed program shall be analyzed and considered in evaluating its potential.

(3) Any program for the development of a technology which may require significant consumptive use of water after the technology has reached the stage of commercial application shall include thorough consideration of the impacts of such technology and use on water resources pursuant to the provisions of section 5912 of this title.

(4) Heavy emphasis shall be given to those technologies which utilize renewable or essentially inexhaustible energy sources.

(5) The potential for production of net energy by the proposed technology at the stage of commercial application shall be analyzed and considered in evaluating proposals.

(b) The Congress further directs that the execution of the comprehensive research, development, and demonstration program shall conform to the following principles:

(1) Research and development of nonnuclear energy sources shall be pursued in such a way as to facilitate the commercial availability of adequate supplies of energy to all regions of the United States.

(2) In determining the appropriateness of Federal involvement in any particular research and development undertaking, the Administrator shall give consideration to the extent to which the proposed undertaking satisfies criteria including, but not limited to, the following:

(A) The urgency of public need for the potential results of the research, development, or demonstration effort is high, and it is unlikely that similar results would be achieved in a timely manner in the absence of Federal assistance.

(B) The potential opportunities for non-Federal interests to recapture the investment in the undertaking through the normal commercial utilization of proprietary knowledge appear inadequate to encourage timely results.

(C) The extent of the problems treated and the objectives sought by the undertaking are national or widespread in their significance.

(D) There are limited opportunities to induce non-Federal support of the undertaking through regulatory actions, end use controls, tax and price incentives, public education, or other alternatives to direct Federal financial assistance.

(E) The degree of risk of loss of investment inherent in the research is high, and the availability or risk capital to the non-Federal entities which might otherwise engage in the field of the research is inadequate for the timely development of the technology.

(F) The magnitude of the investment appears to exceed the financial capabilities of potential non-Federal participants in the research to support effective efforts.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 5914 of this title.

§ 5906. Federal assistance and participation in programs.

(a) Forms of activities authorized.

In carrying out the objectives of this chapter, the Administrator may utilize various forms of Federal assistance and participation which may include but are not limited to—

(1) joint Federal-industry experimental, demonstration, or commercial corporations consistent with the provisions of subsection (b) of this section;

(2) contractual arrangements with non-Federal participants including corporations, consortia, universities, governmental entities and nonprofit institutions;

(3) contracts for the construction and operation of federally owned facilities;

(4) Federal purchases or guaranteed price of the products of demonstration plants or activities consistent with the provisions of subsection (c) of the section;

(5) Federal loans to non-Federal entities conducting demonstrations of new technologies; and

(6) incentives, including financial awards, to individual inventors, such incentives to be designed to encourage the participation of a large number of such inventors.

(b) Proposed joint Federal-industry corporations; operational guidelines; powers, duties, and functions; composition; scope of Federal assistance and participation; dissolution.

Joint Federal industry corporations proposed for congressional authorization pursuant to this chapter shall be subject to the provisions of section 5908 of this title and shall conform to the following guidelines except as otherwise authorized by Congress:

(1) Each such corporation may design, construct, operate, and maintain one or more experimental, demonstration, or commercial-size facilities, or other operations which will ascertain the technical, environmental, and economic feasibility of a particular energy technology. In carrying out this function, the corporation shall be empowered either directly or by contract, to utilize commercially available technologies, perform tests, or design, construct, and operate pilot plants, as may be necessary for the design of the full-scale facility.

(2) Each corporation shall have—

(A) a Board of nine directors consisting of individuals who are citizens of the United States, of whom one shall be elected annually by the Board to serve as Chairman. The Board shall be empowered to adopt and amend bylaws. Five members of the Board shall be appointed by the President of the United States, by and with the advice and consent of the Senate, and four members of the Board shall be appointed by the President on the basis of recommendations received by him from any non-Federal entity or entities entering into contractual arrangements to participate in the corporation;

(B) a President and such other officers and employees as may be named and appointed by the Board (with the rates of compensation of all officers and employees being fixed by the Board); and

(C) the usual powers conferred upon corporations by the laws of the District of Columbia.

(3) An appropriate time interval, not to exceed 12 years, shall be established for the term of Federal participation in the corporation, at the expiration of which the Board of Directors shall take such action as may be necessary to dissolve the corporation or otherwise terminate Federal participation and financial interests. In carrying out such dissolution, the Board of Directors shall dispose of all physical facilities of the corporation in such manner and subject to such terms and conditions as the Board determines are in the public interest and consistent with existing law; and a share of the appraised value of the corporate assets proportional to the Federal participation in the corporation, including the proceeds from the disposition of such facilities, on the date of its dissolution, after satisfaction of all its legal obligations, shall be made available to the United States and deposited in the Treasury of the United States as miscellaneous receipts. All patent rights of the corporation shall, on such date of dissolution, be vested in the Administrator: *Provided*, That Federal participation may be terminated prior to the time established in the authorizing Act upon recommendation of the Board of Directors.

(4) Any commercially valuable product produced by demonstration facilities shall be disposed of in such manner and under such terms and conditions as the corporation shall prescribe. All revenues received by the corporation from the sale of such products shall be available to the corporation for use by it in defraying expenses incurred in connection with carrying out its functions to which this chapter applies.

(5) The estimated Federal share of the construction, operation, and maintenance cost over the life of each corporation shall be determined in order to facilitate a single congressional authorization of the full amount at the time of establishment of the corporation.

(6) The Federal share of the cost of each such corporation shall reflect (A) the technical and economic risk of the venture, (B) the probability of any financial return to the non-Federal participants arising from the venture, (C) the financial capability of the potential non-Federal participants, and (D) such other factors as the Administrator may set forth in proposing the corporation: *Provided*, That in no instance shall the Federal share exceed 90 per centum of the cost.

(7)(A) Prior to the establishment of any joint Federal-industry corporation pursuant to this chapter, the Administrator shall submit to the Speaker of the House of Representatives and the President pro tempore of the Senate, and to the appropriate committees of the House of Representatives and the Senate a report setting forth in detail the consistency of the establishment of the corporation with the principles and directives set forth in section 5904 of this title and this section, and the proposed purpose and planned activities of the corporation.

(B) No such corporation shall be established unless previously authorized by specific legislation enacted by the Congress.

(c) Proposed competitive systems of price supports for demonstration facilities; guidelines.

Competitive systems of price supports proposed for congressional authorization pursuant to this chapter shall conform to the following guidelines:

(1) The Administrator shall determine the types and capacities of the desired full-scale, com-

mercial-size facility or other operation which would demonstrate the technical, environmental, and economic feasibility of a particular nonnuclear energy technology.

(2) The Administrator may award planning grants for the purpose of financing a study of the full cycle economic and environmental costs associated with the demonstration facility selected pursuant to paragraph (1) of this subsection. Such planning grants may be awarded to Federal and non-Federal entities including, but not limited to, industrial entities, universities, and nonprofit organizations. Such planning grants may also be used by the grantee to prepare a detailed and comprehensive bid to construct the demonstration facility.

(3) Following the completion of the studies pursuant to the planning grants awarded under paragraph (2) of this subsection regarding each such potential price supported demonstration facility for which the Administrator intends to request congressional authorization, he shall invite bids from all interested parties to determine the minimum amount of Federal price support needed to construct the demonstration facility. The Administrator may designate one or more competing entities, each to construct one commercial demonstration facility. Such designation shall be made on the basis of those entities, (A) commitment to construct the demonstration facility at the minimum level of Federal price supports, (B) detailed plan of environmental protection, and (C) proposed design and operation of the demonstration facility.

(4) The construction plans and actual construction of the demonstration facility, together with all related facilities, shall be monitored by the Environmental Protection Agency. If additional environmental requirements are imposed by the Administrator after the designation of the successful bidders and if such additional environmental requirements result in additional costs, the Administrator is authorized to renegotiate the support price to cover such additional costs.

(5) The estimated amount of the Federal price support for a demonstration facility's product over the life of such facility shall be determined by the Administrator to facilitate a single congressional authorization of the full amount of such support at the time of the designation of the successful bidders.

(6) No price support program shall be implemented unless previously authorized by specific legislation enacted by the Congress.

(d) Support for joint university-industry research efforts.

Nothing in this section shall preclude Federal participation in, and support for, joint university-industry nonnuclear energy research efforts. (Pub. L. 93–577, § 7, Dec. 31, 1974, 88 Stat. 1883.)

SECTION REFERRED TO IN OTHER SECTIONS

§ 5907. Demonstration projects.

(a) Scope of authority of Administrator.

The Administrator is authorized to—

(1) identify opportunities to accelerate the commercial applications of new energy technologies, and provide Federal assistance for or participation in demonstration projects (including pilot plants demonstrating technological advances and field demonstrations of new methods and procedures, and demonstrations of prototype commercial applications for the exploration, development, production, transportation, conversion, and utilization of energy resources); and

(2) enter into cooperative agreements with non-Federal entities to demonstrate the technical feasibility and economic potential of energy technologies on a prototype or full-scale basis.

(b) Criteria applicable in reviewing potential projects.

In reviewing potential projects, the Administrator shall consider criteria including but not limited to—

(1) the anticipated, research, development, and application objectives to be achieved by the activities or facilities proposed;

(2) the economic, environmental, and societal significance which a successful demonstration may have for the national fuels and energy system;

(3) the relationship of the proposal to the criteria of priority set forth in section 5904(b)(2) of this title;

(4) the availability of non-Federal participants to construct and operate the facilities or perform the activities associated with the proposal and to contribute to the financing of the proposal;

(5) the total estimated cost including the Federal investment and the probable time schedule;

(7) the proposed cooperative arrangement, agreements among the participants, and form of management of the activities.

(c) Federal and non-Federal share of costs.

(1) A financial award under this section may be made only to the extent of the Federal share of the estimated total design and construction costs, plus operation and maintenance costs.

(2) For the purposes of this chapter the non-Federal share may be in any form, including, but not limited to, lands or interests therein needed for the project or personal property or services, the value of which shall be determined by the Administrator.

(d) Submission of proposals to Administration; promulgation of regulations by Administrator establishing procedures; required contents of proposals and regulations.

(1) The Administrator shall, within six months of December 31, 1974, promulgate regulations establishing procedures for submission of proposals to the Energy Research and Development Administration for the purposes of this chapter. Such regulations shall establish a procedure for selection of proposals which—

(A) provides that projects will be carried out under such conditions and varying circumstances as will assist in solving energy extraction, transportation, conversion, conservation, and end-use problems of various areas and regions, under representative geological, geographic, and environmental conditions; and

(B) provides time schedules for submission of, and action on, proposal requests for the purposes of implementing the goals and objectives of this chapter.

(H) plans for commercial use of the technology if the demonstration is successful;

(I) plans for continued use of the plant if the demonstration is successful; and

(J) plans for dismantling of the plant if the demonstration is unsuccessful or otherwise abandoned.

(3) The Administrator shall from time to time review and, as appropriate, modify and repromulgate regulations issued pursuant to this section.

(e) Amount of estimate of Federal investment requiring Congressional authorization for appropriation.

If the estimate of the Federal investment with respect to construction costs of any demonstration project proposed to be established under this section exceeds $50,000,000, no amount may be appropriated for such project except as specifically authorized by legislation hereafter enacted by the Congress.

(f) Amount of estimated Federal contribution authorizing Administrator to proceed with negotiation of agreements and implementation of proposal; amount of Federal contribution requiring Administrator to submit report to Congress as prerequisite to expenditure of funds.

If the total estimated amount of the Federal contribution to the construction cost of a demonstration project does not exceed $50,000,000, the Administrator is authorized to proceed with the negotiation of agreements and implementation of the proposal subject to the availability of funds under the authorization of appropriations pursuant to section 5915 of this title: *Provided*, That if such Federal contribution to the construction cost is estimated to exceed $25,000,000 the Administrator shall provide a full and comprehensive report on the proposed demonstration project to the appropriate committees of the Congress and no funds may be expended for any agreement under the authority granted by this section prior to the expiration of sixty calendar days (not including any day on which either House of Congress is not in session because of an adjournment of more than three calendar days to a day certain) from the date on which the Administrator's report on the proposed project is received by the Congress. Such reports shall contain an analysis of the extent to which the proposed demonstration satisfies the criteria specified in subsection (b) of this section. (Pub. L. 93–577, § 8, Dec. 31, 1974, 88 Stat. 1886.)

§ 5908. Patents and inventions.

(a) Vesting of title to invention and issuance of patents to United States; prerequisites.

Whenever any invention is made or conceived in the course of or under any contract of the Administration, other than nuclear energy research, development, and demonstration pursuant to the Atomic Energy Act of 1954 and the Administrator determines that—

(1) the person who made the invention was employed or assigned to perform research, development, or demonstration work and the invention is related to the work he was employed or assigned to perform, or that it was within the scope of his employment duties, whether or not it was made during working hours, or with a contribution by the Government of the use of Government facilities, equipment, materials, allocated funds, information proprietary to the Government, or services of Government employees during working hours; or

(2) the person who made the invention was not employed or assigned to perform research, development, or demonstration work, but the invention is nevertheless related to the contract or to the work or duties he was employed or assigned to perform, and was made during working hours, or with a contribution from the Government of the sort referred to in clause (1),[1]

title to such invention shall vest in the United States, and if patents on such invention are issued they shall be issued to the United States, unless in particular circumstances the Administrator waives all or any part of the rights of the United States to such invention in conformity with the provisions of this section.

(b) Contract as requiring report to Administration of invention, etc., made in course of contract.

Each contract entered into by the Administration with any person shall contain effective provisions under which such person shall furnish promptly to the Administration a written report containing full and complete technical information concerning any invention, discovery, improvement, or innovation which may be made in the course of or under such contract.

(c) Waiver by Administrator of rights of United States; regulations prescribing procedures; record of waiver determinations; objectives.

Under such regulations in conformity with the provisions of this section as the Administrator shall

[1] So in original. Probably should be a comma.

prescribe, the Administrator may waive all or any part of the rights of the United States under this section with respect to any invention or class of inventions made or which may be made by any person or class of persons in the course of or under any contract of the Administration if he determines that the interests of the United States and the general public will be best served by such waiver. The Administration shall maintain a publicly available, periodically updated record of waiver determinations. In making such determinations, the Administrator shall have the following objectives:

(1) Making the benefits of the energy research, development, and demonstration program widely available to the public in the shortest practicable time.

(2) Promoting the commercial utilization of such inventions.

(3) Encouraging participation by private persons in the Administration's energy research, development, and demonstration program.

(4) Fostering competition and preventing undue market concentration or the creation or maintenance of other situations inconsistent with the antitrust laws.

(d) Considerations applicable at time of contracting for waiver determination by Administrator.

In determining whether a waiver to the contractor at the time of contracting will best serve the interests of the United States and the general public, the Administrator shall specifically include as considerations—

(1) the extent to which the participation of the contractor will expedite the attainment of the purposes of the program;

(2) the extent to which a waiver of all or any part of such rights in any or all fields of technology is needed to secure the participation of the particular contractor;

(3) the extent to which the contractor's commercial position may expedite utilization of the research, development, and demonstration program results;

(4) the extent to which the Government has contributed to the field of technology to be funded under the contract;

(5) the purpose and nature of the contract, including the intended use of the result developed thereunder;

(6) the extent to which the contractor has made or will make substantial investment of financial resources or technology developed at the contractor's private expense which will directly benefit the work to be performed under the contract;

(7) the extent to which the field of technology to be funded under the contract has been developed at the contractor's private expense;

(8) the extent to which the Government intends to further develop to the point of commercial utilization the results of the contract effort;

(9) the extent to which the contract objectives are concerned with the public health, public safety, or public welfare;

(10) the likely effect of the waiver on competition and market concentration; and

(11) in the case of a nonprofit educational institution, the extent to which such institution has a technology transfer capability and program, approved by the Administrator as being consistent with the applicable policies of this section.

(e) Considerations applicable to identified invention for waiver determination by Administrator.

In determining whether a waiver to the contractor or inventor or rights to an identified invention will best serve the interests of the United States and the general public, the Administrator shall specifically include as considerations paragraphs (4) through (11) of subsection (d) of this section as applied to the invention and—

(1) the extent to which such waiver is a reasonable and necessary incentive to call forth private risk capital for the development and commercialization of the invention; and

(2) the extent to which the plans, intentions, and ability of the contractor or inventor will obtain expeditious commercialization of such invention.

(f) Rights subject to reservation where title to invention vested in United States.

Whenever title to an invention is vested in the United States, there may be reserved to the contractor or inventor—

(1) a revocable or irrevocable nonexclusive, paid-up license for the practice of the invention throughout the world; and

(2) the rights to such invention in any foreign country where the United States has elected not to secure patent rights and the contractor elects to do so, subject to the rights set forth in paragraphs (2), (3), (6), and (7) of subsection (h) of this section: *Provided*, That when specifically requested by the Administration and three years after issuance of such a patent, the contractor shall submit the report specified in subsection (h)(1) of this section.

(g) Licenses to inventions; promulgation of regulations specifying terms and conditions; criteria and procedures for grant of exclusive or partially exclusive licenses; record of determinations.

(1) Subject to paragraph (2) of this subsection, the Administrator shall determine and promulgate regulations specifying the terms and conditions upon which licenses may be granted in any invention to which title is vested in the United.

(2) Pursuant to paragraph (1) of this subsection, the Administrator may grant exclusive or partially exclusive licenses in any invention only if, after notice and opportunity for hearing, it is determined that—

(A) the interests of the United States and the general public will best be served by the proposed license, in view of the applicant's intentions, plans, and ability to bring the invention to the point of practical or commercial applications;

(B) the desired practical or commercial applications have not been achieved, or are not likely expeditiously to be achieved, under any nonexclusive license which has been granted, or which may be granted, on the invention;

(C) exclusive or partially exclusive licensing is a reasonable and necessary incentive to call forth

risk capital and expenses to bring the invention to the point of practical or commercial applications; and

(D) the proposed terms and scope of exclusivity are not substantially greater than necessary to provide the incentive for bringing the invention to the point of practical or commercial applications and to permit the licensee to recoup its costs and a reasonable profit thereon:

Provided, That, the Administrator shall not grant such exclusive or partially exclusive license if he determines that the grant of such license will tend substantially to lessen competition or result in undue concentration in any section of the country in any line of commerce to which the technology to be licensed relates. The Administration shall maintain a publicly available, periodically updated record of determinations to grant such licenses.

(h) Required terms and conditions in waiver of rights or grant of exclusive or partially exclusive licenses.

Each waiver of rights or grant of an exclusive or partially exclusive license shall contain such terms and conditions as the Administrator may determine to be appropriate for the protection of the interests of the United States and the general public, including provisions for the following:

(1) Periodic written reports at reasonable intervals, and when specifically requested by the Administration, on the commercial use that is being made or is intended to be made of the invention.

(2) At least an irrevocable, nonexclusive, paid-up license to make, use, and sell the invention throughout the world by or on behalf of the United States (including any Government agency) and States and domestic municipal governments, unless the Administrator determines that it would not be in the public interest to acquire the license for the States and domestic municipal governments.

(3) The right in the United States to sublicense any foreign government pursuant to any existing or future treaty of agreement if the Administrator determines it would be in the national interest to acquire this right.

(4) The reservation in the United States of the rights to the invention in any country in which the contractor does not file an application for patent within such time as the Administration shall determine.

(5) The right in the Administrator to require the granting of a nonexclusive, exclusive, or partially exclusive license to a responsible applicant or applicants, upon terms reasonable under the circumstances, (A) to the extent that the invention is required for public use by governmental regulations, or (B) as may be necessary to fulfill health, safety, or energy needs, or (C) for such other purposes as may be stipulated in the applicable agreement.

(6) The right in the Administrator to terminate such waiver or license in whole or in part unless the recipient of the waiver or license demonstrates to the satisfaction of the Administrator that he has taken effective steps, or within a reasonable time thereafter is expected to take such steps, necessary to accomplish substantial utilization of the invention.

(7) The right in the Administrator, commencing three years after the grant of a license and four years after a waiver is effective as to an invention, to require the granting of a nonexclusive or partially exclusive license to a responsible applicant or applicants, upon terms reasonable under the circumstances, and in appropriate circumstances to terminate the waiver or license in whole or in part, following a hearing upon notice thereof to the public, upon a petition by an interested person justifying such hearing—

(A) if the Administrator determines, upon review of such material as he deems relevant, and after the recipient of the waiver or license, or other interested person, has had the opportunity to provide such relevant and material information as the Administrator may require, that such waiver or license has tended substantially to lessen competition or to result in undue concentration in any section of the country in any line of commerce to which the technology relates; or

(B) unless the recipient of the waiver or license demonstrates to the satisfaction of the Administrator at such hearing that he has taken effective steps, or within a reasonable time thereafter is expected to take such steps, necessary to accomplish substantial utilization of the invention.

(i) Publication in Federal Register by Administrator of waiver or license termination hearing requirements and availability of records.

The Administrator shall provide an annual periodic notice to the public in the Federal Register, or other appropriate publication, of the right to have a hearing as provided by subsection (h)(7) of this section, and of the availability of the records of determinations provided in this section.

EX. ORD. NO. 11776. PRESIDENT'S COMMITTEE ON MENTAL RETARDATION

Ex. Ord. No. 11776, Mar. 28, 1974, 39 F.R. 11865, provided:

The President's Committee on Mental Retardation, established by Executive Order No. 11280 on May 11, 1966, has mobilized national planning and carried out basic programs in the field of mental retardation. National goals have been established to reduce the occurrence of mental retardation by one-half before the end of the century and to return one-third of the people in mental institutions to useful lives in their communities. The achievement of these goals will require the most effective possible use of public and private resources.

Our country has become increasingly aware in recent years of the need to assure those who are retarded their full status as citizens under the law, and of the continuing need to mobilize the support of the general public and of specialized professional and volunteer groups for mental retardation activities. We also know that we must constantly evaluate existing programs to determine their adequacy and must continually consider a broad range of proposals for new mental retardation activities.

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States, it is hereby ordered as follows:

SECTION 1. *Committee continued and responsibilities expanded.* The President's Committee on Mental Retardation (hereinafter referred to as the Committee), with expanded membership and expanded responsibilities, is hereby continued in operation.

SEC. 2. *Composition of Committee.* The Committee shall be composed of the following members:

(1) The Secretary of Health, Education, and Welfare, who shall be the Chairman of the Committee.

(2) The Attorney General.

(3) The Secretary of Labor.

(4) The Secretary of Housing and Urban Development.

(5) The Director of the Office of Economic Opportunity.

(6) The Director of ACTION.

(7) Not more than twenty-one other members who shall be appointed to the Committee by the President. These persons may be employed in either the public or the private sectors and may include specialists in medicine and other healing arts, human development, special education, law, and employment problems, as well as members of foundations and other private organizations active in the mental retardation field. Except as the President may from time to time otherwise direct, appointees under this paragraph shall have three-year terms, except that an appointment made to fill a vacancy occurring before the expiration of a term shall be made for the balance of the unexpired term.

SEC. 3. *Functions of the Committee.* (a) The Committee shall provide such advice and assistance in the area of mental retardation as the President or Secretary of the Department of Health, Education, and Welfare may request and particularly shall advise with respect to the following areas.

(1) evaluation of the adequacy of the national effort to combat mental retardation;

(2) identification of the potential of various Federal programs for achieving Presidential goals in mental retardation;

(3) provision of adequate liaison between Federal activities and related activities of State and local governments, foundations, and other private organizations; and

(4) development and dissemination of such information as will tend to reduce the incidence of retardation and ameliorate its effects.

(b) The Committee shall make an annual report to the President concerning mental retardation. Such additional reports or recommendations may be made as the President may require or as the Committee may deem appropriate.

SEC. 4. *Cooperation by other agencies.* To assist the Committee in providing advice to the President, Federal departments and agencies requested to do so by the Committee shall designate liaison officers with the Committee. Such officers shall, on request by the Committee, and to the extent permitted by law, provide it with information on department and agency programs which do contribute to or which could contribute to achievement of the President's goals in the field of mental retardation.

SEC. 5. *Administrative arrangements.* (a) The office of the Secretary of the Department of Health, Education, and Welfare shall, to the extent permitted by law, provide the Committee with necessary staff, administrative services, and facilities.

(b) Each member of the Committee, except any member who then receives other compensation from the United States, may receive compensation for each day he or she is engaged upon the work of the Committee, as authorized by law (5 U.S.C. 3109), and may also receive travel expenses, including per diem in lieu of subsistence, as authorized by law (5 U.S.C. 5703) for persons in the Government service employed intermittently.

(c) The Secretary of Health, Education, and Welfare shall perform such other functions with respect to the Committee as may be required by the provisions of the Federal Advisory Committee Act (5 U.S.C. App. I; 86 Stat. 770).

SEC. 6. *Construction.* Nothing in this order shall be construed as subjecting any Federal agency, or any function vested by law in, or assigned pursuant to law to, any Federal agency, to the authority of the Committee or as abrogating or restricting any such function in any manner.

SEC. 7. Executive Order No. 11280 of May 11, 1966, is hereby superseded.

RICHARD NIXON.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6062 of this title.

§ 6062. Allotments to States.

(a) Determination of amount; availability of unexpended funds.

(1) (A) In each fiscal year, the Secretary shall, in accordance with regulations and this paragraph, allot the sums appropriated for such year under section 6061 of this title among the States on the basis of—

(i) the population,

(ii) the extent of need for services and facilities for persons with developmental disabilities, and

(iii) the financial need,

of the respective States. Sums allotted to the States under this section shall be used in accordance with approved State plans under section 6063 of this title for the provision under such plans of services and facilities for persons with developmental disabilities.

(B) (i) Except as provided by clause (ii)—

(I) the allotment of the Virgin Islands, American Samoa, Guam, and the Trust Territory of the Pacific Islands under subparagraph (A) of this paragraph in any fiscal year shall not be less than $50,000; and

(II) the allotment of each other State in any fiscal year shall not be less than the greater of $150,000, or the amount of the allotment (determined without regard to subsection (d) of this section) received by the State for the fiscal year ending June 30, 1974.

(ii) If the amount appropriated under section 6061 of this title for any fiscal year exceeds $50,000,000, the minimum allotment of a State for such fiscal year shall be increased by an amount which bears the same ratio to the amount determined for such State under clause (i) as the difference between the amount so appropriated and the amount authorized to be appropriated for such fiscal year bears to $50,000,000.

(2) In determining, for purposes of paragraph (1) (A) (ii), the extent of need in any State for services and facilities for persons with developmental disabilities, the Secretary shall take into account the scope and extent of the services specified, pursuant to section 6063(b) (5) of this title, in the State plan of such State approved under section 6063 of this title.

(3) Sums allotted to a State in a fiscal year and designated by it for construction and remaining unobligated at the end of such year shall remain available to such State for such purpose in the next fiscal year (and in such year only), in addition to the sums allotted to such State in such next fiscal year; except that if the maximum amount which may be specified for construction (pursuant to section 6063 (b) (15) of this title) for a year plus any part of the amount so specified pursuant to such section for the preceding fiscal year and remaining unobligated at the end of such fiscal year is not sufficient to pay the Federal share of the cost of construction of a specific facility included in the construction program of the State developed pursuant to section 6063(b) (13) of this title, the amount specified pursuant to section 6063(b) (15) of this title for such preceding year shall remain available for a second additional year for the purpose of paying the Federal share of the cost of construction of such facility.

(4) Of the amount allotted to any State under paragraph (1) for fiscal year 1976, not less than 10 per centum of that allotment shall be used by such State, in accordance with the plan submitted pursuant to section 6063(b) (20) of this title, for the purpose of assisting it in developing and implementing plans designed to eliminate inappropriate placement in institutions of persons with developmental disabilities; and of the amount allotted to any State under paragraph (1) for each succeeding fiscal year, not less than 30 per centum of that allotment shall be used by such State for such purpose.

(b) Apportionment of allotment among State agencies.

Whenever the State plan approved in accordance with section 6063 of this title provides for participation of more than one State agency in administering or supervising the administration of designated portions of the State plan, the State may apportion its allotment among such agencies in a manner which, to the satisfaction of the Secretary, is reasonably related to the responsibilities assigned to such agencies in carrying out the purposes of the State plan. Funds so apportioned to State agencies may be combined with other State or Federal funds authorized to be spent for other purposes, provided the purposes of the State plan will receive proportionate benefit from the combination.

(c) Combined allotments to States involved in joint effort.

Whenever the State plan approved in accordance with section 6063 of this title provides for cooperative or joint effort between States or between or among agencies, public or private, in more than one State, portions of funds allotted to one or more such cooperating States may be combined in accordance with the agreements between the agencies involved.

(d) Reallotment of funds not required by a State.

The amount of an allotment to a State for a fiscal year which the Secretary determines will not be required by the State during the period for which it is available for the purpose for which allotted shall be available for reallotment by the Secretary from time to time, on such date or dates as he may fix, (but not earlier than thirty days after he has published notice of his intention to make such reallotment in the Federal Register) to other States with respect to which such a determination has not been made, in proportion to the original allotments of such States for such fiscal year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum the Secretary estimates such State needs and will be able to use during such period; and the total of such reductions shall be similarly reallotted among the States whose proportionate amounts were not so reduced. Any amount so reallotted to a State for a fiscal year shall be deemed to be a part of its allotment under subsection (a) of this section for such fiscal year. (Pub. L. 88–164, title I, § 132, as added Pub. L. 91–517, title I, § 101(b), Oct. 30, 1970, 84 Stat. 1317, and

SUBCHAPTER I.—DOMESTIC SUPPLY AVAILABILITY

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 6391, 6393, 6394, 6396, 6401 of this title.

PART A.—DOMESTIC SUPPLY

§ 6211. Incentives to develop underground coal mines.

(a) Loan guarantees.

The Administrator may, in accordance with subsection (b) of this section and rules prescribed under subsection (d) of this section, guarantee loans made to eligible persons described in subsection (c)(1) of this section for the purpose of developing new underground coal mines.

(b) Administrator's determinations prerequisite to loan guarantee; maximum guarantees; aggregate outstanding guaranteed loans; new underground coal mines.

(1) A person may receive for a loan guarantee under subsection (a) of this section only if the Administrator determines that—

(A) such person is capable of successfully developing and operating the mine with respect to which the loan guarantee is sought;

(B) such person has provided adequate assurance that the mine will be constructed and operated in compliance with the provisions of the Federal Coal Mine Health and Safety Act and that no final judgment holding such person liable for any fine or penalty under such Act is unsatisfied;

(C) there is a reasonable prospect of repayment of the guaranteed loan;

(D) such person has obtained a contract, of at least the duration of the period during which the loan is required to be repaid, for the sale or resale of coal to be produced from such mine to a person who the Administrator of the Environmental Protection Agency certifies will be able to burn such coal in compliance with all applicable requirements of the Clean Air Act, and of any applicable implementation plan (as defined in section 110 of such Act);

(E) the loan will be adequately secured;

(F) such person would be unable to obtain adequate financing without such guarantee;

(G) the guaranteeing of a loan to such person will enhance competition or encourage new market entry; and

(H) such person has adequate coal reserves to cover contractual commitments described in subparagraph (D).

(2) The total amount of guarantees issued to any person (including all persons affiliated with such person) may not exceed $30,000,000. The amount of a guarantee issued with respect to any loan may not exceed 80 percent of the lesser of (A) the principal balance of the loan or, (B) the cost of developing such new underground coal mine.

(3) The aggregate outstanding principal amount of loans which are guaranteed under this section may not at any time exceed $750,000,000. Not more than 20 percent of the amount of guarantees issued under this section in any fiscal year may be

issued with respect to loans for the purpose of opening new underground coal mines which produce coal which is not low sulfur coal.

(c) Eligible persons; low sulfur coal.

For purposes of this section—

(1) A person shall be considered eligible for a guarantee under this section if such person (together with all persons affiliated with such person)—

(A) did not produce more than 1,000,000 tons of coal in the calendar year preceding the year in which he makes application for a loan guarantee under this section;

(B) did not produce more than 300,000 barrels of crude oil or own an oil refinery in such preceding calendar year; and

(C) did not have gross revenues in excess of $50,000,000 in such calendar year.

(2) A person is affiliated with another person if he controls, is controlled by, or is under common control with such other person, as such term may be further defined by rule by the Administrator.

(3) The term "low sulfur coal" means coal which, in a quantity necessary to produce one million British thermal units, does not contain sulfur or sulfur compounds the elemental sulfur content of which exceeds 0.6 pound. Sulfur content shall be determined after the application of any coal preparation process which takes place before sale of the coal by the producer.

(d) Rules and regulations.

The Administrator shall prescribe such regulations as may be necessary or appropriate to carry out this section. Such rules shall require that each application for a guarantee under this section shall be made in writing to the Administrator in such form and with such content and other submissions as the Administrator shall require, in order reasonably to protect the interests of the United States. Each guarantee shall be issued in accordance with subsections (a) through (c) of this section, and—

(1) under such terms and conditions as the Administrator, in consultation with the Secretary of the Treasury, considers appropriate;

(2) with such provisions with respect to the date of issue of such guarantee as the Administrator, with the concurrence of the Secretary of the Treasury, considers appropriate, except that the required concurrence of the Secretary of the Treasury may not, without the consent of the Administrator, result in a delay in the issuance of such guarantee for more than 60 days; and

(3) in such form as the Administrator considers appropriate.

(e) Recordkeeping.

Each person who receives a loan guarantee under this section shall keep such records as the Administrator or the Secretary of the Treasury shall require, including records which fully disclose the total cost of the project for which a loan is guaranteed under this section and such other records as the Administrator or the Secretary of the Treasury determines necessary to facilitate an effective audit and performance evaluation. The Administrator, the Secretary of the Treasury, and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any pertinent books, documents, papers, and records of any person who receives a loan guarantee under this section. § 6212. Domestic use of energy supplies and related materials and equipment.

(a) Export restrictions.

The President may, by rule, under such terms and conditions as he determines to be appropriate and necessary to carry out the purposes of this chapter, restrict exports of—

(1) coal, petroleum products, natural gas, or petrochemical feedstocks, and

(2) supplies of materials or equipment which he determines to be necessary (A) to maintain or[1] further exploration, production, refining, or transportation of energy supplies, or (B) for the construction or maintenance of energy facilities within the United States.

(b) Exemptions.

(1) The President shall exercise the authority provided for in subsection (a) of this section to promulgate a rule prohibiting the export of crude oil and natural gas produced in the United States, except that the President may, pursuant to paragraph (2), exempt from such prohibition such crude oil or natural gas exports which he determines to be consistent with the national interest and the purposes of this chapter.

(2) Exemptions from any rule prohibiting crude oil or natural gas exports shall be included in such rule or provided for in an amendment thereto and may be based on the purpose for export, class of seller or purchaser, country of destination, or any other reasonable classification or basis as the President determines to be appropriate and consistent with the national interest and the purposes of this chapter.

(c) Implementing restrictions.

In order to implement any rule promulgated under subsection (a) of this section, the President may request and, if so, the Secretary of Commerce shall, pursuant to the procedures established by the Export Administration Act of 1969 (but without regard to the phrase "and to reduce the serious inflationary impact of foreign demand" in section 3(2)(A) of such Act), impose such restrictions as specified in any rule under subsection (a) of this section on exports of coal, petroleum products, natural gas, or petrochemical feedstocks, and such supplies of materials and equipment.

(d) Restrictions and national interest.

Any finding by the President pursuant to subsection (a) or (b) of this section and any action taken by the Secretary of Commerce pursuant thereto

[1] So in original. Probably should read "for".

shall take into account the national interest as related to the need to leave uninterrupted or unimpaired—

(1) exchanges in similar quantity for convenience or increased efficiency of transportation with persons or the government of a foreign state,

(2) temporary exports for convenience or increased efficiency of transportation across parts of an adjacent foreign state which exports reenter the United States, and

(3) the historical trading relations of the United States with Canada and Mexico.

(e) Waiver of notice and comment period.

(1) The provisions of subchapter II of chapter 5 of Title 5 shall apply with respect to the promulgation of any rule pursuant to this section, except that the President may waive the requirement pertaining to the notice of proposed rulemaking or period for comment only if he finds that compliance with such requirements may seriously impair his ability to impose effective and timely prohibitions on exports.

(2) In the event such notice and comment period are waived with respect to a rule promulgated under this section, the President shall afford interested persons an opportunity to comment on any such rule at the earliest practicable date thereafter.

(3) If the President determines to request the Secretary of Commerce to impose specified restrictions as provided for in subsection (c) of this section, the enforcement and penalty provisions of the Export Administration Act of 1969 shall apply, in lieu of this chapter, to any violation of such restrictions.

(f) Quarterly reports to Congress.

The President shall submit quarterly reports to the Congress concerning the administration of this section and any findings made pursuant to subsection (a) or (b) of this section. (Pub. L. 94–163, title I, § 103, Dec. 22, 1975, 89 Stat. 877.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6271, 6393 of this title.

§ 6213. Certain lease bidding arrangements prohibited.

(a) Promulgation of rule by Secretary of the Interior.

The Secretary of the Interior shall, not later than 30 days after December 22, 1975, prescribe and make effective a rule which prohibits the bidding for any right to develop crude oil, natural gas, and natural gas liquids on any lands located on the Outer Continental Shelf by any person if more than one major oil company, more than one affiliate of a major oil company, or a major oil company and any affiliate of a major oil company, has or have a significant ownership interest in such person. Such rule shall define affiliate relationships and significant ownership interests.

(b) Definitions.

As used in this section:

(1) The term "major oil company" means any person who, individually or together with any other person with respect to which such person has an affiliate relationship or significant ownership interest, produced during a prior 6-month period specified by the Secretary, an average daily volume of 1,600,000 barrels of crude oil, natural gas liquids equivalents, and natural gas equivalents.

(2) One barrel of natural gas equivalent equals 5,626 cubic feet of natural gas measured at 14.73 pounds per square inch (MSL) and 60 degrees Fahrenheit.

(3) One barrel of natural gas liquids equivalent equals 1.454 barrels of natural gas liquids at 60 degrees Fahrenheit.

(c) Exemptions.

The Secretary may, by amendment to the rule, exempt bidding for leases for lands located in frontier or other areas determined by the Secretary to be extremely high risk lands or to present unusually high cost exploration, or development, problems.

(d) Unitization of producing fields.

This section shall not be construed to prohibit the unitization of producing fields to increase production or maximize ultimate recovery of oil or natural gas, or both.

(e) Report to Congress covering extension of restrictions on joint bidding.

The Secretary shall study and report to the Congress, not later than 6 months after December 22, 1975, with respect to the feasibility and desirability of extending the prohibition on joint bidding to—

(1) bidding for any right to develop crude oil, natural gas, and natural gas liquids on Federal lands other than those located on the Outer Continental Shelf; and

(2) bidding for any right to develop coal and oil shale on such lands.

(Pub. L. 94–163, title I, § 105, Dec. 22, 1975, 89 Stat. 879.)

§ 6214. Production of oil or gas at the maximum efficient rate and temporary emergency production rate.

(a) Determination by Secretary of the Interior.

(1) The Secretary of the Interior, by rule on the record after an opportunity for a hearing, shall, to the greatest extent practicable, determine the maximum efficient rate of production and, if any, the temporary emergency production rate for each field on Federal lands which produces, or is determined to be capable of producing, significant volumes of crude oil or natural gas, or both.

(2) Except as provided in subsection (f) of this section, the President may, by rule or order, require

crude oil or natural gas, or both, to be produced from fields on Federal lands designated by him—

(A) at the maximum efficient rate of production, and

(B) during a severe energy supply interruption, at the temporary emergency production rate

as determined pursuant to paragraph (1) for such field.

(b) Determination of rate of production by States; required production.

(1) Each State or the appropriate agency thereof may, for the purposes of this section, pursuant to procedures and standards established by the State, determine the maximum efficient rate of production and, if any, the temporary emergency production rate, for each field (other than a field on Federal lands) within such State which produces, or is determined to be capable of producing, significant volumes of crude oil or natural gas, or both.

(2) If a State or the appropriate agency thereof has determined the maximum efficient rate of production and, if any, the temporary emergency production rate, or both, or their equivalents (however characterized), for any field (other than a field on Federal lands) within such State, the President may, by rule or order, during a severe energy supply interruption, require the production of such fields at the rates of production established by the State.

(c) Fields composed of Federal and non-Federal land.

With respect to any field, which produces, or is determined to be capable of producing, significant volumes of crude oil, or natural gas, or both, which field is unitized and is composed of both Federal lands and lands other than Federal lands and there has been no determination of the maximum efficient rate of production or the temporary emergency production rate or both, the Secretary of the Interior may, pursuant to subsection (a)(1) of this section, determine a maximum efficient rate of production and a temporary emergency production rate, if any, for such field. The President may, during a severe energy supply interruption by rule or order, require production at the maximum efficient rate of production and the temporary emergency production rate, if any, determined for such field.

(d) Action to recover just compensation.

If loss of ultimate recovery of crude oil or natural gas, or both, occurs or will occur as the result of a rule or order under the authority of this section to produce at the temporary emergency production rate, the owner of any property right who considers himself damaged by such order may bring an action in a United States district court to recover just compensation, which shall be awarded if the court finds that such loss constitutes a taking of property compensable under the Constitution.

(e) Definitions.

As used in this section:

(1) The term "maximum efficient rate of production" means the maximum rate of production of crude oil or natural gas, or both, which may be sustained without loss of ultimate recovery of crude oil or natural gas, or both, under sound engineering and economic principles.

(2) The term "temporary emergency production rate" means the maximum rate of production for a field—

(A) which rate is above the maximum efficient rate of production established for such field; and

(B) which may be maintained for a temporary period of less than 90 days without reservoir damage and without significant loss of ultimate recovery of crude oil or natural gas, or both, from such field.

(f) Naval Petroleum Reserves.

Nothing in this section shall be construed to authorize the production of crude oil, or natural gas, or both, from any Naval Petroleum Reserve subject to the provisions of chapter 641 of Title 10. (Pub. L. 94–163, title I, § 106, Dec. 22, 1975, 89 Stat. 880.)

PART B.—STRATEGIC PETROLEUM RESERVE

§ 6231. Congressional finding and declaration of policy.

(a) The Congress finds that the storage of substantial quantities of petroleum products will diminish the vulnerability of the United States to the effects of a severe energy supply interruption, and provide limited protection from the short-term consequences of interruptions in supplies of petroleum products.

(b) It is hereby declared to be the policy of the United States to provide for the creation of a Strategic Petroleum Reserve for the storage of up to 1 billion barrels of petroleum products, but not less than 150 million barrels of petroleum products by the end of the 3-year period which begins on December 22, 1975, for the purpose of reducing the impact of disruptions in supplies of petroleum products or to carry out obligations of the United States under the international energy program. It is further declared to be the policy of the United States to provide for the creation of an Early Storage Reserve, as part of the Reserve, for the purpose of providing limited protection from the impact of near-term disruptions in supplies of petroleum products or to carry out obligations of the United States under the international energy program. (Pub. L. 94–163, title I, § 151, Dec. 22, 1975, 89 Stat. 881.)

§ 6232. Definitions.

As used in this part:

(1) The term "Early Storage Reserve" means that portion of the Strategic Petroleum Reserve which consists of petroleum products stored pursuant to section 6235 of this title.

(2) The term "importer" means any person who owns, at the first place of storage, any petroleum product imported into the United States.

(3) The term "Industrial Petroleum Reserve" means that portion of the Strategic Petroleum Reserve which consists of petroleum products owned by importers or refiners and acquired, stored, or maintained pursuant to section 6236 of this tite.

(4) The term "interest in land" means any ownership or possessory right with respect to real property, including ownership in fee, an ease-

ment, a leasehold, and any subsurface or mineral rights.

(5) The term "readily available inventories" means stocks and supplies of petroleum products which can be distributed or used without affecting the ability of the importer or refiner to operate at normal capacity; such term does not include minimum working inventories or other unavailable stocks.

(6) The term "refiner" means any person who owns, operates, or controls the operation of any refinery.

(7) The term "Regional Petroleum Reserve" means that portion of the Strategic Petroleum Reserve which consists of petroleum products stored pursuant to section 6237 of this title.

(8) The term "related facility" means any necessary appurtenance to a storage facility, including pipelines, roadways, reservoirs, and salt brine lines.

(9) The term "Reserve" means the Strategic Petroleum Reserve.

(10) The term "storage facility" means any facility or geological formation which is capable of storing significant quantities of petroleum products.

(11) The term "Strategic Petroleum Reserve" means petroleum products stored in storage facilities pursuant to this part; such term includes the Industrial Petroleum Reserve, the Early Storage Reserve, and the Regional Petroleum Reserve. (Pub. L. 94–163, title I, § 152, Dec. 22, 1975, 89 Stat. 882.)

§ 6233. Strategic Petroleum Reserve Office.

There is established, in the Federal Energy Administration, a Strategic Petroleum Reserve Office. The Administrator, acting through such Office and in accordance with this part, shall exercise authority over the establishment, management, and maintenance of the Reserve. (Pub. L. 94–163, title I, § 153, Dec. 22, 1975, 89 Stat. 882.)

§ 6234. Strategic Petroleum Reserve.

(a) Establishment.

A Strategic Petroleum Reserve for the storage of up to 1 billion barrels of petroleum products shall be created pursuant to this part. By the end of the 3-year period which begins on December 22, 1975, the Strategic Petroleum Reserve (or the Early Storage Reserve authorized by section 6235 of this title, if no Strategic Petroleum Reserve Plan has become effective pursuant to the provisions of section 6239 (a) of this title) shall contain not less than 150 million barrels of petroleum products.

(b) Strategic Petroleum Reserve Plan.

The Administrator, not later than December 15, 1976, shall prepare and transmit to the Congress, in accordance with section 6421 of this title, a Strategic Petroleum Reserve Plan. Such Plan shall comply with the provisions of this section and shall detail the Administrator's proposals for designing, constructing, and filling the storage and related facilities of the Reserve.

(c) Levels of crude oil to be stored.

(1) To the maximum extent practicable and except to the extent that any change in the storage schedule is justified pursuant to subsection (e)(6) of this section, the Strategic Petroleum Reserve Plan shall provide that:

(A) within 7 years after December 22, 1975, the volume of crude oil stored in the Reserve shall equal the total volume of crude oil which was imported into the United States during the base period specified in paragraph (2);

(B) within 18 months after December 22, 1975, the volume of crude oil stored in the Reserve shall equal not less than 10 percent of the goal specified in subparagraph (A);

(D) within 5 years after December 22, 1975, the volume of crude oil stored in the Reserve shall equal not less than 65 percent of the goal specified in subparagraph (A).

Volumes of crude oil initially stored in the Early Storage Reserve and volumes of crude oil stored in the Industrial Petroleum Reserve, and the Regional Petroleum Reserve shall be credited toward attainment of the storage goals specified in this subsection.

(2) The base period shall be the period of the 3 consecutive months, during the 24-month period preceding December 22, 1975, in which average monthly import levels were the highest.

(d) Plan objectives.

The Strategic Petroleum Reserve Plan shall be designed to assure, to the maximum extent practicable, that the Reserve will minimize the impact of any interruption or reduction in imports of refined petroleum products and residual fuel oil in any region which the Administrator determines is, or is likely to become, dependent upon such imports for a substantial portion of the total energy requirements of such region. The Strategic Petroleum Reserve Plan shall be designed to assure, to the maximum extent practicable, that each noncontiguous area of the United States which does not have overland access to domestic crude oil production has its component of the Strategic Petroleum Reserve within its respective territory.

(e) Plan provisions.

The Strategic Petroleum Reserve Plan shall include:

(1) a comprehensive environmental assessment;

(2) a description of the type and proposed location of each storage facility (other than storage facilities of the Industrial Petroleum Reserve) proposed to be included in the Reserve;

(4) an estimate of the volumes and types of petroleum products proposed to be stored in each such storage facility;

(5) a projection as to the aggregate size of the Reserve, including a statement as to the most economically-efficient storage levels for each such storage facility;

(6) a justification for any changes, with respect to volumes or dates, proposed in the storage schedule specified in subsection (c) of this section, and a program schedule for overall development and completion of the Reserve (taking into account all relevant factors, including cost effectiveness, the need to construct related facilities, and the ability to obtain sufficient quantities of petroleum products to fill the storage facilities to the proposed storage levels);

(7) an estimate of the direct cost of the Reserve, including—

(A) the cost of storage facilities;

(B) the cost of the petroleum products to be stored;

(C) the cost of related facilities; and

(D) management and operation costs;

(B) any fluctuations in world, and domestic, market prices for petroleum products which may result from the acquisition of substantial quantities of petroleum products for the Reserve;

(C) the extent to which such acquisition may support otherwise declining market prices for such products; and

(D) the extent to which such acquisition will affect competition in the petroleum industry;

(9) an identification of the ownership of each storage and related facility proposed to be included in the Reserve (other than storage and related facilities of the Industrial Petroleum Reserve);

(10) an identification of the ownership of the petroleum products to be stored in the Reserve in any case where such products are not owned by the United States;

(11) a statement of the manner in which the provisions of this part relating to the establishment of the Industrial Petroleum Reserve and the Regional Petroleum Reserve will be implemented; and

Such plan shall detail the Administrator's proposals for implementing the Early Storage Reserve requirements of this section. The Early Storage Reserve Plan shall, to the maximum extent practicable, provide for, and set forth the manner in which, Early Storage Reserve facilities will be incorporated into the Strategic Petroleum Reserve after the Strategic Petroleum Reserve Plan has become effective under section 6239(a) of this title. The Early Storage Reserve Plan shall include, with respect to the Early Storage Reserve, the same or similar assessments, statements, estimates, evaluations, projections, and other information which section 6234(e) of this title requires to be included in the Strategic Petroleum Reserve Plan, including a Distribution Plan for the Early Storage Reserve. § 6236. Industrial Petroleum Reserve.

(a) The Administrator may establish an Industrial Petroleum Reserve as part of the Strategic Petroleum Reserve.

(b) To implement the Early Storage Reserve Plan or the Strategic Petroleum Reserve Plan which has taken effect pursuant to section 6239(a) of this title, the Administrator may require each importer of petroleum products and each refiner to (1) acquire, and (2) store and maintain in readily available inventories, petroleum products in amounts determined by the Administrator, except that the Administrator may not require any such importer or refiner to store such petroleum products in an amount greater than 3 percent of the amount imported or refined by such person, as the case may be, during the previous calendar year. Petroleum products imported and stored in the Industrial Petroleum Reserve shall be exempt from any tariff or import license fee.

(c) The Administrator shall implement this section in a manner which is appropriate to the maintenance of an economically sound and competitive petroleum industry. The Administrator shall take such steps as are necessary to avoid inequitable economic impacts on refiners and importers, and he

may grant relief to any refiner or importer who would otherwise incur special hardship, inequity, or unfair distribution of burdens as the result of any rule, regulation, or order promulgated under this section. Such relief may include full or partial exemption from any such rule, regulation, or order and the issuance of an order permitting such an importer or refiner to store petroleum products owned by such importer or refiner in surplus storage capacity owned by the United States. (Pub. L. 94–163, title I, § 156, Dec. 22, 1975, 89 Stat. 885.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6232, 6235, 6239, 6241 of this title; title 15 section 760e.

§ 6237. Regional Petroleum Reserve.

(a) The Strategic Petroleum Reserve Plan shall provide for the establishment and maintenance of a Regional Petroleum Reserve in, or readily accessible to, each Federal Energy Administration Region, as defined in title 10, Code of Federal Regulations in effect on November 1, 1975, in which imports of residual fuel oil or any refined petroleum product, during the 24-month period preceding the date of computation, equal more than 20 percent of demand for such oil or product in such regions during such period, as determined by the Administrator. Such volume shall be computed annually.

(b) To implement the Strategic Petroleum Reserve Plan, the Administrator shall accumulate and maintain in or near any such Federal Energy Administration Region described in subsection (a) of this section, a Regional Petroleum Reserve containing volumes of such oil or product, described in subsection (a) of this section, at a level adequate to provide substantial protection against an interruption or reduction in imports of such oil or product to such region, except that the level of any such Regional Petroleum Reserve shall not exceed the aggregate volume of imports of such oil or product into such region during the period of the 3 consecutive months, during the 24-month period specified in subsection (a) of this section, in which average monthly import levels were the highest, as determined by the Administrator. Such volume shall be computed annually.

(c) The Administrator may place in storage crude oil, residual fuel oil, or any refined petroleum product in substitution for all or part of the volume of residual fuel oil or any refined petroleum product stored in any Regional Petroleum Reserve pursuant to the provisions of this section if he finds that such substitution (1) is necessary or desirable for purposes of economy, efficiency, or for other reasons, and (2) may be made without delaying or otherwise adversely affecting the fulfillment of the purpose of the Regional Petroleum Reserve. (Pub. L. 94–163, title I, § 157, Dec. 22, 1975, 89 Stat. 885.)

SECTION REFERRED TO IN OTHER SECTIONS

§ 6238. Utility Reserves; Coal Reserves; Remote Crude Oil and Natural Gas Reserves.

Within 6 months after the Strategic Petroleum Reserve Plan is transmitted to the Congress, pursuant to the requirements of section 6234(b) of this title, the Administrator shall prepare and transmit to the Congress a report setting forth his recommendations concerning the necessity for, and feasibility of, establishing—

(1) Utility Reserves containing coal, residual fuel oil, and refined petroleum products, to be established and maintained by major fossil-fuel-fired baseload electric power generating stations;

(2) Coal Reserves to consist of (A) federally-owned coal which is mined by or for the United States from Federal lands, and (B) Federal lands from which coal could be produced with minimum delay; and

(3) Remote Crude Oil and Natural Gas Reserves consisting of crude oil and natural gas to be acquired and stored by the United States, in place, pursuant to a contract or other agreement or arrangement entered into between the United States and persons who discovered such oil or gas in remote areas.

(b) For purposes of congressional review of the Strategic Petroleum Reserve Plan under subsection (a) of this section, the 5 calendar days described in section 6421(f)(4)(A) of this title shall be lengthened to 15 calendar days, and the 15 calendar days described in section 6421 (c) and (d) of this title shall be lengthened to 45 calendar days.

(c) The Administrator may, prior to transmittal of the Strategic Petroleum Reserve Plan, prepare and transmit to the Congress proposals for designing, constructing, and filling storage or related facilities. Any such proposal shall be accompanied by a statement explaining (1) the need for action on such proposals prior to completion of such Plan, (2) the anticipated role of the proposed storage or related facilities in such Plan, and (3) to the maximum extent practicable, the same or similar assessments, statements, estimates, evaluations, projections, and other information which section 6234(e) of this title requires to be included in the Strategic Petroleum Reserve Plan.

(d) The Administrator may prepare amendments to the Strategic Petroleum Reserve Plan or to the Early Storage Reserve Plan. He shall transmit any such amendment to the Congress together with a statement explaining the need for such amendment and, to the maximum extent practicable, the same or similar assessments, statements, estimates, evaluations, projections, and other information which section 6234(e) of this title requires to be included in the Strategic Petroleum Reserve Plan.

(e) Any proposal transmitted under subsection (c) of this section and any amendment transmitted

under subsection (d) of this section, other than a technical or clerical amendment or an amendment to the Early Storage Reserve Plan, shall not become effective and may not be implemented unless—

(1) the Administrator has transmitted such proposal or amendment to the Congress in accordance with subsection (c) or (d) of this section (as the case may be), and

(2) neither House of Congress has disapproved (or both Houses of Congress have approved) such proposal or amendment, in accordance with the procedures specified in section 6421 of this title.

(f) To the extent necessary or appropriate to implement—

(1) the Strategic Petroleum Reserve Plan which has taken effect pursuant to subsection (a) of this section;

(I) require the storage of petroleum products in the Industrial Petroleum Reserve, pursuant to section 6236 of this title, on such reasonable terms as the Administrator may specify in storage facilities owned and controlled by the United States or in storage facilities other than those owned by the United States if such facilities are subject to audit by the United States;

(J) require the maintenance of the Industrial Petroleum Reserve;

(K) maintain the Reserve; and

(L) bring an action, whenever he deems it necessary to implement the Strategic Petroleum Reserve Plan, in any court having jurisdiction of such proceedings, to acquire by condemnation any real or personal property, including facilities, temporary use of facilities, or other interests in land, together with any personal property located thereon or used therewith.

(g) Before any condemnation proceedings are instituted, an effort shall be made to acquire the property involved by negotiation, unless, the effort to acquire such property by negotiation would, in the judgment of the Administrator be futile or so time-consuming as to unreasonably delay the implementation of the Strategic Petroleum Reserve Plan, because of (1) reasonable doubt as to the identity of the owners, (2) the large number of persons with whom it would be necessary to negotiate, or (3) other reasons. (Pub. L. 94–163, title I, § 159, Dec. 22, 1975, 89 Stat. 886.)

§ 6261. Transmission of energy conservation and rationing contingency plans to Congress; conditions to exercising authorities; amendment of plans; temporary enactment.

(a)(1) Within 180 days after December 22, 1975, the President shall transmit to the Congress pursuant to subsection (b)(1) of this section one or more energy conservation contingency plans and a rationing contingency plan. The President may at any time submit additional contingency plans. A contingency plan may become effective only as provided in this section. Such plan may remain in effect for a period specified in the plan but not more than 9 months, unless earlier rescinded by the President.

(2) For purposes of this section, the term "contingency plan" means—

(A) an energy conservation contingency plan prescribed under section 6262 of this title; or

(B) a rationing contingency plan prescribed under section 6263 of this title.

(b) Except as otherwise provided in subsection (d) or (e) of this section and subject to the requirements of subsection (c) of this section, no contingency plan may become effective, unless—

(1) the President has transmitted such contingency plan to the Congress in accordance with section 6422(a) of this title;

(2) such contingency plan has been approved by a resolution by each House of Congress in accordance with the procedures specified in section 6422 of this title; and

(3) after approval of such contingency plan the President—

(A) has found that putting such contingency plan into effect is required by a severe energy supply interruption or in order to fulfill obligations of the United States under the international energy program, and

(B) has transmitted such finding to the Congress, together with a statement of the effective date and manner for exercise of such plan.

(c) In addition to the requirements of subsection (b) of this section, a rationing contingency plan approved under subsection (b)(2) of this section may not become effective unless—

(1) the President has transmitted to the Congress in accordance with section 6421(b) of this title a request to put such rationing contingency plan into effect, and

(2) neither house of Congress has disapproved (or both Houses have approved) such request in accordance with the procedures specified in section 6421 of this title.

(d)(1) Except as provided in paragraph (2) or (3), a contingency plan may not be amended unless the President has transmitted such amendment to the Congress in accordance with section 6422 of this title and each House of Congress has approved such amendment in accordance with the procedures specified in section 6422 of this title.

(2) An amendment to a contingency plan which is transmitted to the Congress during any period in which such plan is in effect may take effect if the President has transmitted such amendment to the Congress in accordance with section 6421(b) of this title and neither House of Congress has disapproved (or both Houses have approved) such amendment in accordance with the procedures specified in section 6421 of this title.

(3) The President may prescribe technical or clerical amendments to a contingency plan in accordance with section 6393 of this title.

(e) Beginning at any time during the 90-day period which begins December 22, 1975, the President may put a contingency plan into effect for a period of not more than 60 days if—

(1) the President—

(A) has found that putting such contingency plan into effect is required by a severe energy supply interruption or is necessary to comply with obligations of the United States under the international energy program; and

(B) has transmitted such contingency plan to the Congress in accordance with section 6421(b) of this title, together with a request to put such plan into effect; and

(1) any effects of such plan on—

(A) vital industrial sectors of the economy;

(B) employment (on a national and regional basis);

(C) the economic vitality of States and regional areas;

(D) the availability and price of consumer goods and services; and

§ 6262. Energy conservation contingency plans.

(a)(1) The President shall prescribe, in accordance with section 6393(a) of this title, one or more

energy conservation contingency plans. As used in this section, the term "energy conservation contingency plan" means a plan which imposes reasonable restrictions on the public or private use of energy which are necessary to reduce energy consumption. In prescribing energy conservation contingency plans, the President shall take into consideration the mobility needs of the handicapped, as defined in section 6263(a)(2)(B) of this title.

(2) An energy conservation contingency plan prescribed under this section may not—

(A) impose rationing or any tax, tariff, or user fee;

(B) contain any provision respecting the price of petroleum products; or

(C) provide for a credit or deduction in computing any tax.

(b) Any energy conservation contingency plan shall apply in each State or political subdivision thereof, except such plan may provide for procedures for exempting any State or political subdivision thereof from such plan, in whole or part, during a period for which (1) the President determines a comparable program of such State or political subdivision is in effect, or (2) the President finds special circumstances exist in such State or political subdivision.

(c) Any energy conservation contingency plan shall not deal with more than one logically consistent subject matter. (Pub. L. 94–163, title II, § 202, Dec. 22, 1975, 89 Stat. 892.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6261, 6395 of this title.

§ 6263. Rationing contingency plan.

(a)(1) The President shall prescribe, by rule in accordance with section 6393(a) of this title, a rationing contingency plan which shall, for purposes of enforcement under section 5 of the Emergency Petroleum Allocation Act of 1973, be deemed a part of the regulation under section 4(a) of the Emergency Petroleum Allocation Act of 1973 and which shall provide, consistent with the attainment, to the maximum extent practicable, of the objectives specified in section 4(b)(1) of such Act—

(A) for the establishment of a program for the rationing and ordering of priorities among classes of end-users of gasoline and diesel fuel used in motor vehicles, and

(B) for the assignment of rights, and evidence of such rights, to end-users of gasoline and such diesel fuel, entitling such end-users to obtain gasoline or such diesel fuel in precedence to other classes of end-users not similarly entitled.

(2)(A) For purposes of paragraph (1), the objectives specified in section 4(b)(1) of the Emergency Petroleum Allocation Act of 1973 shall be deemed to include consideration of the mobility needs of handicapped persons and their convenience in obtaining the end-user's rights specified in paragraph (1).

(B) For purposes of this part, the term "handicapped person" means any individual who, by reason of disease, injury, age, congenital malfunction, or other permanent incapacity or disability, is unable without special facilities, planning or design to utilize mass transportation vehicles, facilities, and services and who has a substantial, permanent impediment to mobility.

(b) Any finding required to be made by the President pursuant to section 6261(b)(3) of this title and any request to put a rationing contingency plan into effect pursuant to section 6261(e) of this title shall be accompanied by a finding of the President that such plan is necessary to attain, to the maximum extent practicable, the objectives specified in section 4(b)(1) of the Emergency Petroleum Allocation Act of 1973 and the purposes of this chapter.

(c) The President shall, by order under section 4 of the Emergency Petroleum Allocation Act of 1973, for the purpose of carrying out a rationing contingency plan which is in effect, cause such adjustments to be made in the allocations made pursuant to the regulation under section 4(a) of such Act as the President determines to be necessary to carry out the purposes of this section and to be consistent with the attainment, to the maximum extent practicable, of the objectives specified in section 4(b)(1) of such Act and the purposes of this chapter.

(d)(1) The President shall, to the extent practicable, provide for the use of local boards described in paragraph (2) with authority to—

(A) receive petitions from any end-user of gasoline and diesel fuel used in motor vehicles with respect to the priority and entitlement of such user under a rationing contingency plan, and

(B) order a reclassification or modification of any determination made under a rationing contingency plan with respect to such end-user's rationing priority or rights specified in paragraph (1).

Such boards shall operate under the procedures prescribed by the President by rule.

(2) Not later than 30 days after the date of the approval of a rationing contingency plan pursuant to section 6261(b)(2) of this title, the President shall, by rule, prescribe—

(A) criteria for delegation of his functions, in whole or part, under this chapter with respect to such rationing contingency plan to officers or local boards (of balanced composition reflecting the community as a whole) of States or political subdivisions thereof; and

(B) procedures for petitioning for the receipt of such delegation.

(3)(A) Officers or local boards of States or political subdivisions thereof, following the establishment of criteria and procedures under paragraph (2), may petition the President to receive delegation under such paragraph.

(B) The President shall, within 30 days after the date of the receipt of any such petition which is properly submitted, grant or deny such petition.

(e) No rationing contingency plan under this section may—

(1) impose any tax,

(2) provide for a credit or deduction in computing any tax, or

(3) impose any user fee, except to the extent necessary to defray the cost of administering the rationing contingency plan or to provide for initial

distribution of end-user rights specified in paragraph (1).

(f) Notwithstanding section 6401 of this title, all authority to carry out any rationing contingency plan shall expire on the same date as authority to issue and enforce rules and orders under the Emergency Petroleum Allocation Act of 1973. Allocation under such rule shall be in such amounts and at such prices as are specified in (or determined in a manner prescribed by) such rule. Such rule may apply to any petroleum product owned or controlled by any person described in the first sentence of this subsection who is subject to the jurisdiction of the United States, including any petroleum product destined, directly or indirectly, for import into the United States or any foreign country, or produced in the United States. Subject to subsection (b)(2) of this section, such a rule shall remain in effect until amended or rescinded by the President.

(b)(1) No rule under subsection (a) of this section may take effect unless the President—

(A) has transmitted such rule to the Congress;

(B) has found that putting such rule into effect is required in order to fulfill obligations of the United States under the international energy program; and

(C) has transmitted such finding to the Congress, together with a statement of the effective date and manner for exercise of such rule.

(2) No officer or agency of the United States shall have any authority, other than authority under this section, to require that petroleum products be allocated to other countries for the purpose of implementation of the obligations of the United States under the international energy program.

(d) Neither section 6212 of this title nor section 185(u) of Title 30 shall preclude the allocation and export, to other countries in accordance with this section, of petroleum products produced in the United States (Pub. L. 94–163, title II, § 251, Dec. 22, 1975, 89 Stat. 894.)

(b) The Administrator, with the approval of the Attorney General, after each of them has consulted with the Federal Trade Commission and the Secretary of State, shall prescribe, by rule, standards and procedures by which persons engaged in the business of producing, transporting, refining, distributing, or storing petroleum products may develop and carry out voluntary agreements, and plans of action, which are required to implement the allocation and information provisions of the international energy program.

(c) The standards and procedures prescribed under subsection (b) of this section shall include the following requirements:

(1)(A)(i) Except as provided in clause (ii) or (iii) of this subparagraph, meetings held to develop or carry out a voluntary agreement or plan of action under this subsection shall permit attendance by representatives of committees of Congress and interested persons, including all interested segments of the petroleum industry, consumers, and the public; shall be preceded by timely and adequate notice with identification of the agenda of such meeting to the Attorney General, the Federal Trade Commission, committees of Congress, and (except during an international energy supply emergency with respect to meetings to carry out a voluntary agreement or to develop or carry out a plan of action) the public; and shall be initiated and chaired by a regular full-time Federal employee.

(ii) Meetings of bodies created by the International Energy Agency established by the international energy program need not be open to interested persons and need not be initiated and chaired by a regular full-time Federal employee.

(iii) The President, in consultation with the

Administrator, the Secretary of State, and the Attorney General, may determine that a meeting held to carry out a voluntary agreement or to develop or carry out a plan of action shall not be open to interested persons or that attendance by interested persons may be limited, if the President finds that a wider disclosure would be detrimental to the foreign policy interests of the United States.

(B) No meetings may be held to develop or carry out a voluntary agreement or plan of action under this section unless a regular full-time Federal employee is present.

(2) Interested persons permitted to attend such a meeting shall be afforded an opportunity to present, in writing and orally, data, views, and arguments at such meetings, subject to any reasonable limitations with respect to the manner of presentation of data, views, and arguments as the Administrator may impose.

(3) A full and complete record, and where practicable a verbatim transcript, shall be kept of any meeting held, and a full and complete record shall be kept of any communication (other than in a meeting) made, between or among participants or potential participants, to develop, or carry out a voluntary agreement or a plan of action under this section. Such record or transcript shall be deposited, together with any agreement resulting therefrom, with the Administrator, and shall be available to the Attorney General and the Federal Trade Commission. Such records or transcripts shall be available for public inspection and copying in accordance with section 552 of Title 5; except that (A) matter may not be withheld from disclosure under section 552(b) of such title on grounds other than the grounds specified in section 552 (b) (1), (b) (3), or so much of (b) (4) as relates to trade secrets; and (B) in the exercise of authority under section 552(b) (1), the President shall consult with the Secretary of State, the Administrator, and the Attorney General with respect to questions relating to the foreign policy interests of the United States.

(4) No provision of this section may be exercised so as to prevent representatives of committees of Congress from attending meetings to which this section applies, or from having access to any transcripts, records, and agreements kept or made under this section.

(d) (1) The Attorney General and the Federal Trade Commission shall participate from the beginning in the development, and when practicable, in the carrying out of voluntary agreements and plans of action authorized under this section. Each may propose any alternative which would avoid or overcome, to the greatest extent practicable, possible anticompetitive effects while achieving substantially the purposes of this part. A voluntary agreement or plan of action under this section may not be carried out unless approved by the Attorney General, after consultation with the Federal Trade Commission. Prior to the expiration of the period determined under paragraph (2), the Federal Trade Commission shall transmit to the Attorney General its views as to whether such an agreement or plan of action should be approved, and shall publish such views in the Federal Register. The Attorney General, in consultation with the Federal Trade Commission, the Secretary of State, and the Administrator, shall have the right to review, amend, modify, disapprove, or revoke, on his own motion or upon the request of the Federal Trade Commission or any interested person, any voluntary agreement or plan of action at any time, and, if revoked, thereby withdraw prospectively any immunity which may be conferred by subsection (f) or (k) of this section.

(2) Any voluntary agreement or plan of action entered into pursuant to this section shall be submitted in writing to the Attorney General and the Federal Trade Commission 20 days before being implemented; except that during an international energy supply emergency, the Administrator, subject to approval of the Attorney General, may reduce such 20-day period. Any such agreement or plan of action shall be available for public inspection and copying, except that a plan of action shall be so available only to the extent to which records or transcripts are so available as provided in the last sentence of subsection (c) (3) of this section. Any action taken pursuant to such voluntary agreement or plan of action shall be reported to the Attorney General and the Federal Trade Commission pursuant to such regulations as shall be prescribed under paragraphs (3) and (4) of subsection (e) of this section.

(3) A plan of action may not be approved by the Attorney General under this subsection unless such plan (A) describes the types of substantive actions which may be taken under the plan, and (B) is as specific in its description of proposed substantive actions as is reasonable in light of known circumstances.

(e) (1) The Attorney General and the Federal Trade Commission shall monitor the development and carrying out of voluntary agreements and plans of action authorized under this section in order to promote competition and to prevent anticompetitive practices and effects, while achieving substantially the purposes of this part.

(2) In addition to any requirement specified under subsections (b) and (c) of this section and in order to carry out the purposes of this section, the Attorney General, in consultation with the Federal Trade Commission and the Administrator, shall promulgate rules concerning the maintenance of necessary and appropriate records related to the development and carrying out of voluntary agreements and plans of action authorized pursuant to this section.

(3) Persons developing or carrying out voluntary agreements and plans of action authorized pursuant to this section shall maintain such records as are required by rules promulgated under paragraph (2). The Attorney General and the Federal Trade Commission shall have access to and the right to copy such records at reasonable times and upon reasonable notice.

(4) The Attorney General and the Federal Trade Commission may each prescribe such rules as may be necessary or appropriate to carry out their respective responsibilities under this section. They may both utilize for such purposes and for purposes of

enforcement any powers conferred upon the Federal Trade Commisison or the Department of Justice, or both, by the antitrust laws or the Antitrust Civil Process Act; and wherever any such law refers to "the purposes of this Act" or like terms, the reference shall be understood to include this section.

(f)(1) There shall be available as a defense to any civil or criminal action brought under the antitrust laws (or any similar State law) in respect to actions taken to develop or carry out a voluntary agreement or plan of action by persons engaged in the business of producing, transporting, refining, distributing, or storing petroleum products (provided that such actions were not taken for the purpose of injuring competition) that—

(A) such actions were taken—

(i) in the course of developing a voluntary agreement or plan of action pursuant to this section, or

(ii) to carry out a voluntary agreement or plan of action authorized and approved in accordance with this section, and

(B) such persons complied with the requirements of this section and the rules promulgated hereunder.

(2) Except in the case of actions taken to develop a voluntary agreement or plan of action, the defense provided in this subsection shall be available only if the person asserting the defense demonstrates that the actions were specified in, or within the reasonable contemplation of, an approved plan of action.

(3) Persons interposing the defense provided by this subsection shall have the burden of proof, except that the burden shall be on the person against whom the defense is asserted with respect to whether the actions were taken for the purpose of injuring competition.

(g) No provision of this section shall be construed as granting immunity for, or as limiting or in any way affecting any remedy or penalty which may result from any legal action or proceeding arising from, any act or practice which occurred prior to the date of enactment of this chapter or subsequent to its expiration or repeal.

(h) Upon the expiration of the 90-day period which begins on December 22, 1975, the provisions of sections 708 and 708A (other than 708A(o)) of the Defense Production Act of 1950 shall not apply to any agreement or action undertaken for the purpose of developing or carrying out (1) the international energy program, or (2) any allocation, price control, or similar program with respect to petroleum products under this chapter or under the Emergency Petroleum Allocation Act of 1973. For purposes of section 708(A)(o)[1] of the Defense Production Act of 1950, the effective date of the provisions of this chapter which relate to international voluntary agreements to carry out the International Energy Program shall be deemed to be 90 days after December 22, 1975.

(i) The Attorney General and the Federal Trade Commission shall each submit to the Congress and to the President, at least once every 6 months, a report on the impact on competition and on small business of actions authorized by this sectiion.

(j) The authority granted by this section shall business of actions authorized by this section.

(k) In any action in any Federal or State court for breach of contract, there shall be available as a defense that the alleged breach of contract was caused predominantly by action taken during an international energy supply emergency to carry out a voluntary agreement or plan of action authorized and approved in accordance with this section.

(l) As used in this section and section 6274 of this title:

(1) The term "international energy supply emergency" means any period (A) beginning on any date which the President determines allocation of petroleum products to nations participating in the international energy program is required by chapters III and IV of such program, and (B) ending on a date on which he determines that such allocation is no longer required. Such a period may not exceed 90 days, but the President may establish one or more additional 90-day periods by making anew the determination under subparagraph (A) of the preceding sentence. Any determination respecting the beginning or end of any such period shall be published in the Federal Register.

(2) The term "allocation and information provisions of the international energy program" means the provisions of the international energy program which relate to international allocation of petroleum products and to the information system provided in such program.

§ 6274. Exchange of information with International Energy Agency.

(a)(1) Except as provided in subsections (b) and (c) of this section, the Administrator, after consultation with the Attorney General, may provide to the Secretary of State, and the Secretary of State may transmit to the International Energy Agency established by the international energy program, the information and data related to the energy industry certified by the Secretary of State as required to be submitted under the international energy program.

(2)(A) Except as provided in subparagraph (B) of this paragraph, any such information or data which is geological or geophysical information or a trade secret or commercial or financial information to which section 552(b)(9) or (b)(4) of Title 5 applies shall, prior to such transmittal, be aggregated, accumulated, or otherwise reported in such manner as to avoid, to the fullest extent feasible, identification of any person from whom the United States obtained such information or data, and in the case of geological or geophysical information, a competitive disadvantage to such person.

(B)(i) Notwithstanding subparagraph (A) of this paragraph, during an international energy supply emergency, any such information or data with respect to the international allocation of petroleum products may be made available to the International Energy Agency if otherwise authorized to be made available to such Agency by paragraph (1) of this subsection.

(ii) Subparagraph (A) shall not apply to information described in subparagraph (A) (other than geological or geophysical information) if the President certifies, after opportunity for presentation of views by interested persons, that the International Energy Agency has adopted and is implementing security measures which assure that such information will not be disclosed by such Agency or its employees to any person or foreign country without having been aggregated, accumulated, or otherwise reported in such manner as to avoid identification of any person from whom the United States obtained such information or data.

(c) Information and data the confidentiality of which is protected by statute shall not be provided by the Administrator to the Secretary of State under subsection (a) of this section for transmittal to the International Energy Agency, unless the Administrator has obtained the specific concurrence of the head of any department or agency which has the primary statutory authority for the collection, gathering, or obtaining of such information and data. In making a determination to concur in providing such information and data, the head of any department or agency which has the primary statutory authority for the collection, gathering, or obtaining of such information and data shall consider the purposes for which such information and data were collected, gathered, and obtained, the confidentiality provisions of such statutory authority, and the international obligations of the United States under the international energy program with respect to the transmittal of such information and data to an international organization or foreign country.

(A) the application of subsection (C) to such type of covered product (or class thereof) will assist consumers in making purchasing decisions, or

(B) labeling in accordance with section 6294 of this title will assist purchasers in making purchasing decisions.

(6) The Administrator may delay the publication of proposed test procedures or the prescription of test procedures for a type of covered product (or class thereof) beyond the dates specified in paragraph (3), or (4), if he determines that he cannot, within the applicable time period, publish proposed test procedures or prescribe test procedures applicable to such type (or class thereof) which meet the requirements of subsection (b) of this section, and publishes such determination in the Federal Register. In any such case, he shall publish proposed test procedures or prescribe test procedures for covered products of such type (or class thereof) as soon as practicable, unless he determines that test procedures cannot be developed which meet the requirements of subsection (b) of this section and publishes such determination in the Federal Register, together with the reasons therefor.

(b)(1) Any test procedures prescribed under this section shall be reasonably designed to produce test results which reflect energy efficiency, energy use, or estimated annual operating cost of a covered product during a representative average use cycle (as determined by the Administrator), and shall not be unduly burdensome to conduct.

(2) If the test procedure is a procedure for determining estimated annual operating costs, such procedure shall provide that such costs shall be calculated from measurements of energy use in a representative average-use cycle (as determined by the Administrator), and from representative average unit costs of the energy needed to operate such product during such cycle. The Administrator shall provide information to manufacturers respecting representative average unit costs of energy.

(c) Effective 90 days after a test procedure rule applicable to a covered product is prescribed under this section, no manufacturer, distributor, retailer, or private labeler may make any representation—

(1) in writing (including a representation on a label), or

(2) in any broadcast advertisement,

respecting the energy consumption of such product or cost of energy consumed by such product, unless such product has been tested in accordance with such test procedure and such representation fairly discloses the results of such testing. (Pub. L. 94–163, title III, § 323, Dec. 22, 1975, 89 Stat. 919.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6291, 6294 to 6297, 6303, 6306 of this title.

§ 6294. Labeling.

(a) Requirement; exceptions.

(1) The Commission shall prescribe labeling rules under this section applicable to all covered products of each of the types specified in paragraphs (1) through (9) of section 6292(a) of this title, except to the extent that, with respect to any such type (or class thereof)—

(A) the Administrator determines under the second sentence of section 6293(a)(6) of this title that test procedures cannot be developed which meet the requirements of section 6293(b) of this title; or

(B) the Commission determines under the second sentence of subsection (b)(5) of this section that labeling in accordance with this section is not technologically or economically feasible.

(2) The Commission shall prescribe labeling rules under this section applicable to all covered products of each of the types specified in paragraphs (10) through (13) of section 6292(a) of this title, except to the extent that with respect to any such type (or class thereof)—

(A) the Administrator determines under the second sentence of section 6293(a)(6) of this title that test procedures cannot be developed which meet the requirements of section 6293(b) of this title; or

(B) the Commission determines under the second sentence of subsection (b)(5) of this section that labeling in accordance with this section is not technologically or economically feasible or is not likely to assist consumers in making purchasing decisions.

(3) The Commission may prescribe a labeling rule under this section applicable to covered products of a type specified in paragraph (14) of section 6292(a) of this title (or a class thereof) if—

(A) the Commission or the Administrator has made a determination with respect to such type (or a class thereof) under section 6293(a)(5)(B) of this title,

(B) the Administrator has prescribed test procedures under section 6293(a)(5) of this title for such type (or class thereof), and

(C) the Commission determines with respect to such type (or class thereof) that application of labeling rules under this section to such type (or class thereof) is economically and technologically feasible.

(4) Any determination under this subsection shall be published in the Federal Register.

(b) Procedure for prescribing rules.

(1) Not later than 30 days after the date on which a proposed test procedure applicable to a covered product of any of the types specified in paragraphs (1) through (14) of section 6292(a) of this title (or class thereof) is published under section 6293(a) of this title, the Commission shall publish a proposed labeling rule applicable to such type (or class thereof).

(2) The Commission shall afford interested persons an opportunity to present written or oral data, views, and comments with respect to the proposed labeling rules published under paragraph (1). The period for such presentations shall not be less than 45 days.

(3) Not earlier than 45 days nor later than 60 days after the date on which test procedures are prescribed under section 6293 of this title with respect to covered products of any type (or class thereof) specified in paragraphs (1) through (13) of section 6292(a) of this title, the Commission shall prescribe labeling rules with respect to covered products of such type (or class thereof). Not earlier than 45 days after the date on which test procedures are prescribed under section 6293 of this title with respect to covered products of a type specified in paragraph (14) of section 6292(a) of this title, the Commission may prescribe labeling rules with respect to covered products of such type (or class thereof).

(4) A labeling rule prescribed under paragraph (3) shall take effect not later than 3 months after the date of prescription of such rule, except that such rules may take effect not later than 6 months after such date of prescription if the Commission determines that such extension is necessary to allow persons subject to such rules adequate time to come into compliance with such rules.

(5) The Commission may delay the publication of a proposed labeling rule, or the prescription of a labeling rule, beyond the dates specified in paragraph (1) or (3), if it determines that it cannot published proposed labeling rules or prescribe labeling rules which meet the requirements of this section on or prior to the date specified in the applicable paragraph and publishes such determination in the Federal Register, together with the reasons therefor. In any such case, it shall publish proposed labeling rules or prescribe labeling rules for covered products of such type (or class thereof) as soon as practicable unless it determines (A) that labeling in accordance with this section is not economically or technically feasible, or (B) in the case of a type specified in paragraphs (10) through (13) of section 6292(a) of this title, that labeling in accordance with this section is not likely to assist consumers in purchasing decisions. Any such determination shall be published in the Federal Register, together with the reasons therefor. This paragraph shall not apply to the prescription of a labeling rule with respect to covered products of a type specified in paragraph (14) of section 6292(a) of this title.

(c) Form and content of rules and labels.

(1) Subject to paragraph (6), a rule prescribed under this section shall require that each covered product in the type or class of covered products to which the rule applies bear a label which discloses—

(A) the estimated annual operating cost of such product (determined in accordance with test procedures prescribed under section 6293 of this title), except that if—

(i) the Administrator determines that disclosure of estimated annual operating cost is not technologically feasible, or

(ii) the Commission determines that such disclosure is not likely to assist consumers in making purchasing decisions or is not economically feasible,

the Commission shall require disclosure of a different useful measure of energy consumption (determined in accordance with test procedures prescribed under section 6293 of this title); and

(B) information respecting the range of estimated annual operating costs for covered products to which the rule applies; except that if the Commission requires disclosure under subparagraph (A) of a measure of energy consumption different from estimated annual operating cost, then the label shall disclose the range of such measure of energy consumption of covered products to which such rule applies.

(2) A rule under this section shall include the following:

(A) A description of the type or class of covered products to which such rule applies.

(B) Subject to paragraph (6), information respecting the range of estimated annual operating costs or other useful measure of energy consumption (determined in such manner as the rule may prescribe) for such type or class of covered products.

(C) A description of the test procedures under section 6293 of this title used in determining the estimated annual operating costs or other measure of energy consumption of the type or class of covered products.

(D) A prototype label and directions for displaying such label.

(3) A rule under this section shall require that the label be displayed in a manner that the Commission determines is likely to assist consumers in making purchasing decisions and is appropriate to carry out this part. The Commission may permit a tag to be used in lieu of a label in any case in which the Commission finds that a tag will carry out the purposes for which the label was intended.

(4) A rule under this section applicable to a covered product may require disclosure, in any printed matter displayed or distributed at the point of sale of such product, of any information which may be required under this section to be disclosed on the label of such product. Requirements under this paragraph shall not apply to any broadcast advertisement or any advertisement in any newspaper, magazine, or other periodical.

(5) The Commission may require that a manufacturer of a covered product to which a rule under this section applies—

(A) include on the label,

(B) separately attach to the product, or

(C) ship with the product,

additional information relating to energy consumption, if the Commission determines that such additional information would assist consumers in making purchasing decisions or in using such product, and that such requirement would not be unduly burdensome to manufacturers.

(6) The Commission may delay the effective date of the requirement specified in paragraph (1)(B) of this subsection applicable to a type or class of covered product, insofar as it requires the disclosure on the label of information respecting range of a measure of energy consumption, for not more than 12 months after the date on which the rule under this section is first applicable to such type or class, if the Commission determines that such information will not be available within an adequate period of time before such date.

(d) Products completed prior to effective date of rules or amendments.

A rule under this section (or an amendment thereto) shall not apply to any covered product the manufacture of which was completed prior to the effective date of such rule or amendment, as the case may be.

(e) Study to determine coverage for additional consumer products.

The Administrator, in consultation with the Commission, shall study consumer products for which labeling rules under this section have not been proposed, in order to determine (1) the aggregate energy consumption of such products, and (2) whether the imposition of labeling requirements under this section would be feasible and useful to consumers in making purchasing decisions. The Administrator shall include the results of such study in the annual report under section 6308 of this title.

(f) Consultation between Administrator and Commission.

The Administrator and the Commission shall consult with each other on a continuing basis as may be necessary or appropriate to carry out their respective responsibilities under this part. Before the Commission makes any determination under subsection (a)(1) or (2) of this section, it shall obtain the views of the Administrator and shall take such views into account in making such determination.

(g) Labeling authority under Federal Trade Commission Act.

Until such time as labeling rules under this section take effect with respect to a type or class of covered product, this section shall not affect any authority of the Commission under the Federal Trade Commission Act to require labeling with respect to energy consumption of such type or class of covered product. (Pub. L. 94–163, title III, § 324, Dec. 22, 1975, 89 Stat. 920.)

REFERENCES IN TEXT

The Federal Trade Commission Act, referred to in subsec. (g), is act Sept. 26, 1914, ch. 311, 38 Stat. 717, which is classified to section 41 et seq. of Title 15, Commerce and Trade.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6293, 6295 to 6297, 6302, 6304, 6306 of this title.

§ 6295. Energy efficiency standards.

(a) Duty of Administrator to prescribe.

(1)(A) Not later than 180 days after December 22, 1975, the Administrator shall, by rule, prescribe an energy efficiency improvement target for each type of covered product specified in paragraphs (1) through (10) of section 6292(a) of this title.

(B) The targets prescribed under subparagraph (A) shall be designed so that, if met, the aggregate energy efficiency of covered products of all types specified in paragraphs (1) through (10) of section 6292(a) of this title which are manufactured in calendar year 1980 will exceed the aggregate energy efficiency achieved by products of all such types manufactured in calendar year 1972 by a percentage

which is the maximum percentage improvement which the Administrator determines is economically and technologically feasible, but which in any case is not less than 20 percent.

(2) Not later than one year after December 22, 1975, the Administrator shall, by rule, prescribe an energy efficiency improvement target for each type of covered products specified in paragraphs (11), (12), and (13) of section 6292(a) of this title. Each such target shall be designed to achieve the maximum improvement in energy efficiency which the Administrator determines is economically and technologically feasible to attain for each such type manufactured in calendar year 1980.

(3) The Administrator may, from time to time, by rule, modify any energy efficiency improvement target prescribed under paragraph (1) or (2) so long as such target, as modified, meets the applicable requirements of paragraph (1) or (2).

(4)(A) The Administrator shall require each manufacturer of covered products of the types specified in paragraphs (1) through (13) of section 6292(a) of this title to submit such reports, with respect to improvement of energy efficiency of such products, as the Administrator determines may be necessary to establish targets under this subsection or to ascertain whether covered products of any such type will achieve the percentage improvement prescribed by the energy efficiency improvement target for such type.

(B) If, on the basis of the reports received under subparagraph (A) or other information available to the Administrator, he determines that an energy efficiency improvement target applicable to any type of covered product specified in paragraphs (1) through (13) of section 6292(a) of this title is not likely to be achieved, the Administrator shall commence a proceeding under subsection (b) of this section to prescribe an energy efficiency standard for such type.

(C) If, in a proceeding required to be commenced under subparagraph (B), the Administrator determines with respect to the type of product to which the proceeding relates (or class thereof)—

(i) improvement of energy efficiency of covered products of such type (or class thereof) is technologically feasible and economically justified, and

(ii) the application of a labeling rule under section 6294 of this title applicable to such type (or class thereof) is not likely to be sufficient to induce manufacturers to produce, and consumers and other persons to purchase, covered products of such type (or class thereof) which achieve the maximum energy efficiency which it is technologically feasible to attain, and which is economically justified,

the Administrator shall prescribe an energy efficiency standard for such type (or, if the determinations are made with respect to one or more classes of such type, for such class or classes).

(D) For purposes of subparagraph (B), improvement of energy efficiency is economically justified if it is economically feasible the[1] benefits of reduced energy consumption, and the savings in operating costs throughout the estimated average life of the covered product, outweigh—

(i) any increase to purchasers in initial charges for, or maintenance expenses of, the covered product which is likely to result from the imposition of the standard,

(ii) any lessening of the utility or the performance of the covered product, and

(iii) any negative effects on competition.

(E) For purposes of subparagraph (D)(iii), the Administrator shall not determine that there are any negative effects on competition, unless the Attorney General (on request of the Administrator, the Commission, or any person, or on his own motion) makes such determination and submits it in writing to the Administrator, together with his analysis of the nature and extent of such negative effects. The determination of the Attorney General shall be available for public inspection.

(5) The Administrator may (without regard to paragraphs (1) through (4)(B)) commence a proceeding to prescribe an energy efficiency standard applicable to any type or class of covered product (other than a consumer product classified as a covered product under section 6292(b) of this title). In such proceeding he may prescribe such a standard if he makes the determinations specified in clauses (i) and (ii) of paragraph (4)(C) of this subsection.

(b) Procedure.

Any energy efficiency standard shall be prescribed in accordance with the following procedure:

(1) The Administrator shall (A) publish an advance notice of proposed rulemaking which specifies (i) the type or class of covered products to which the rule will apply, and (ii) the energy efficiency level which the Administrator proposes to require by such energy efficiency standard, and (B) invite interested persons to submit, within 90 days after the date of publication of such advance notice—

(i) written or oral presentations of data, views, and argument as to the proposed level of energy efficiency, and

(ii) a proposed energy efficiency standard applicable to such type or class of covered product.

(2) A proposed rule which prescribes an energy efficiency standard for a type or class of covered products may not be prescribed earlier than 120 days after the date of publication of advance notice of proposed rulemaking for such type or class.

(3) A rule prescribing an energy efficiency standard for a class or type of covered product may not be published earlier than 60 days after the date of publication of the proposed rule under this section for such type or class. Such rule shall take effect not earlier than 180 days after the date of its publication in the Federal Register. Such rule (or any amendment thereto) shall not apply to any covered product the manufacture of which was completed prior to the effective date of the rule or amendment as the case may be.

(c) Test procedures; requirements necessary to meet minimum energy efficiency levels.

An energy efficiency standard prescribed under this section shall include test procedures prescribed in accordance with section 6293 of this title, and may

[1] So in original. Probably should read "and if the".

include any requirement which the Administrator determines is necessary to assure that each covered product to which such standard applies meets the required minimum level of energy efficiency specified in such standard.

(d) Labeling rules.

A rule with respect to any type or class of covered product prescribed under this section may not take effect unless a rule under section 6294 of this title with respect to such type or class of covered product has been in effect at least 18 months prior to the effective date of the rule under this section. (Pub. L. 94–163, title III, § 325, Dec. 22, 1975, 89 Stat. 923.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6291, 6296, 6297, 6304 to 6306 of this title.

§ 6296. Requirements of manufacturers.

(a) Display of labels; catalog information.

Each manufacturer of a covered product to which a rule under section 6294 of this title applies shall provide a label which meets, and is displayed in accordance with, the requirements of such rule. If such manufacturer or any distributor, retailer, or private labeler of such product advertises such product in a catalog from which it may be purchased, such catalog shall contain all information required to be displayed on the label, except as otherwise provided by rule of the Commission. The preceding sentence shall not require that a catalog contain information respecting a covered product if the distribution of such catalog commenced before the effective date of the labeling rule under section 6294 of this title applicable to such product.

(b) Notification of products covered; label data; test models; energy consumption data; observation of test procedures.

(1) Each manufacturer of a covered product to which a rule under section 6294 of this title applies shall notify the Commission, not later than 60 days after the date such rule takes effect, of the models in current production (and starting serial numbers of those models) to which such rule applies.

(2) If requested by the Administrator or Commission, the manufacturer of a covered product to which a rule under section 6294 of this title applies shall provide, within 30 days of the date of the request, the data from which the information included on the label and required by the rule was derived. Data shall be kept on file by the manufacturer for a period specified in the rule.

(3) When requested by the Commission, the manufacturer of covered products to which a rule under section 6294 of this title applies shall supply at his expense a reasonable number of such covered products to any laboratory designated by the Commission for the purpose of ascertaining whether the information set out on the label, as required under section 6294 of this title, is accurate. Any reasonable charge levied by the laboratory for such testing shall be borne by the United States.

(4) Each manufacturer of a covered product to which a rule under section 6294 of this title applies shall annually, at a time specified by the Commission, supply to the Commission relevant data respecting energy consumption developed in accordance with the test procedures applicable to such product under section 6293 of this title.

(5) A rule under section 6293, 6294, or 6295 of this title may require the manufacturer or his agent to permit a representative designated by the Commission or the Administrator to observe any testing required by this part and inspect the results of such testing.

(c) Tables of ranges.

Each manufacturer shall use labels reflecting the range data required to be disclosed under section 6294(c)(1)(B) of this title after the expiration of 60 days following the date of publication of any revised table of ranges unless the rule under section 6294 of this title provides for a later date. The Commission may not require labels be changed to reflect revised tables of ranges more often than annually. (Pub. L. 94–163, title III, § 326, Dec. 22, 1975, 89 Stat. 926.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6302 to 6304 of this title.

§ 6297. State laws; warranties.

(a) This part supersedes any State regulation insofar as such State regulation may now or hereafter provide for—

(1) the disclosure of information with respect to any measure of energy consumption of any covered product—

(A) if there is any rule under section 6293 of this title applicable to such covered product, and such State regulation requires testing in any manner other than that prescribed in such rule under section 6293 of this title, or

(B) if there is a rule under section 6294 of this title applicable to such covered product and such State regulation requires disclosure of information other than information disclosed in accordance with such rule under section 6294 of this title; or

(2) any energy efficiency standard or similar requirement with respect to energy efficiency or energy use of a covered product—

(A) if there is a standard under section 6295 of this title applicable to such product, and such State regulation is not identical to such standard, or

(B) if there is a rule under section 6293 or 6294 of this title applicable to such product and such State regulation requires testing in accordance with test procedures which are not identical to the test procedures specified in such rule.

(b)(1) If a State regulation provides for an energy efficiency standard or similar requirement respecting energy use or energy efficiency of a covered product and if such State regulation is not superseded by subsection (a)(2) of this section, then any person subject to such State regulation may petition the Adminisrator for the prescription of a rule under this subsection which supersedes such State regulation in whole or in part. The Administrator shall, within 6 months after the date such a petition is filed, either deny such petition or prescribe a rule under this subsection superseding such State regulation. The Administrator shall issue such a rule with respect to a State regulation if and only if the

petitioner demonstrates to the satisfaction of the Administrator that—

(A) there is no significant State or local interest sufficient to justify such State regulation; and

(B) such State regulation unduly burdens interstate commerce.

(2) Notwithstanding the provisions of subsection (a) of this section, any State regulation which provides for an energy efficiency standard or similar requirement respecting energy use or energy efficiency of a covered product shall not be superseded by subsection (a) of this section if the State prescribing such standard demonstrates and the Administrator finds, by rule, that—

(A) there is a substantial State or local need which is sufficient to justify such State regulation;

(B) such State regulation does not unduly burden interstate commerce; and

(C) if there is a Federal energy efficiency standard applicable to such product, such State regulation contains a more stringent energy efficiency standard than the corresponding Federal standard.

(c) Notwithstanding the provisions of subsection (a) of this section, any State regulation which sets forth procurement standards for a State (or political subdivision thereof) shall not be superseded by the provisions of this part if such State standards are more stringent than the corresponding Federal standards.

(d) For purposes of this section, the term "State regulation" means a law or regulation of a State or political subdivision thereof.

(e) Any disclosure with respect to energy use, energy efficiency, or estimated annual operating cost, which is required to be made under the provisions of this part, shall not create an express or implied warranty under State or Federal law that such energy efficiency will be achieved, or that such energy use or estimated annual operating cost will not be exceeded, under conditions of actual use. (Pub. L. 94–163, title III, § 327, Dec. 22, 1975, 89 Stat. 926.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6306 of this title.

§ 6298. Rules.

The Commission and the Administrator may each issue such rules as each deems necessary to carry out the provisions of this part. (Pub. L. 94–163, title III, § 328, Dec. 22, 1975, 89 Stat. 928.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6306 of this title.

§ 6299. Authority to obtain information.

(a) For purposes of carrying out this part, the Commission and the Administrator may each sign and issue subpenas for the attendance and testimony of witnesses and the production of relevant books, records, papers, and other documents, and may each administer oaths. Witnesses summoned under the provisions of this section shall be paid the same fees and mileage as are paid to witnesses in the courts of the United States. In case of contumacy by, or refusal to obey a subpena served, upon any persons subject to this part, the Commission and the Administrator may each seek an order from the district court of the United States for any district in which such person is found or resides or transacts business requiring such person to appear and give testimony, or to appear and produce documents. Failure to obey any such order is punishable by such court as a contempt thereof.

(b) Any information submitted by any person to the Administrator or the Commission under this part shall not be considered energy information as defined by section 796(e)(1) of Title 15 for purposes of any verification examination authorized to be conducted by the Comptroller General under section 6381 of this title. (Pub. L. 94–163, title III, § 329, Dec. 22, 1975, 89 Stat. 928.)

§ 6300. Exports.

This part shall not apply to any covered product if (1) such covered product is manufactured, sold, or held for sale for export from the United States (or such product was imported for export), unless such product is in fact distributed in commerce for use in the United States, and (2) such covered product when distributed in commerce, or any container in which it is enclosed when so distributed, bears a stamp or label stating that such covered product is intended for export. (Pub. L. 94–163, title III, § 330, Dec. 22, 1975, 89 Stat. 928.)

§ 6301. Imports.

Any covered product offered for importation in violation of section 6302 of this title shall be refused admission into the customs territory of the United States under rules issued by the Secretary of the Treasury, except that the Secretary of the Treasury may, by such rules, authorize the importation of such covered product upon such terms and conditions (including the furnishing of a bond) as may appear to him appropriate to ensure that such covered product will not violate section 6302 of this title, or will be exported or abandoned to the United States. The Secretary of the Treasury shall prescribe rules under this section not later than 180 days after December 22, 1975. (Pub. L. 94–163, title III, § 331, Dec. 22, 1975, 89 Stat. 928.)

§ 6302. Prohibited acts.

(a) It shall be unlawful—

(1) for any manufacturer or private labeler to distribute in commerce any new covered product to which a rule under section 6294 of this title applies, unless such covered product is labeled in accordance with such rule;

(2) for any manufacturer, distributor, retailer, or private labeler to remove from any new covered product or render illegible any label required to be provided with such product under a rule under section 6294 of this title;

(3) for any manufacturer to fail to permit access to, or copying of, records required to be supplied under this part, or fail to make reports or provide other information required to be supplied under this part;

(4) for any person to fail to comply with an applicable requirement of section 6296 (a), (b)(2), (b)(3), or (b)(5) of this title; or

(5) for any manufacturer or private labeler to distribute in commerce any new covered product

which is not in conformity with an applicable energy efficiency standard prescribed under this part.

(b) For purposes of this section, the term "new covered product" means a covered product the title of which has not passed to a purchaser who buys such product for purposes other than (1) reselling such product, or (2) leasing such product for a period in excess of one year. (Pub. L. 94–163, title III, § 332, Dec. 22, 1975, 89 Stat. 928.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6301, 6303 to 6305 of this title.

§ 6303. Enforcement.

(a) Except as provided in subsection (b) of this section, any person who knowingly violates any provision of section 6302 of this title shall be subject to a civil penalty of not more than $100 for each violation. Such penalties shall be assessed by the Commission, except that penalties for violations of section 6302(a)(3) of this title which relate to requirements prescribed by the Administrator, violations of section 6302(a)(4) of this title which relate to requests of the Administrator under section 6296(b)(2) of this title, or violations of section 6302(a)(5) of this title shall be assessed by the Administrator. Civil penalties assessed under this part may be compromised by the agency or officer authorized to assess the penalty, taking into account the nature and degree of the violation and the impact of the penalty upon a particular respondent. Each violation of paragraph (1), (2), or (5) of section 6302(a) of this title shall constitute a separate violation with respect to each covered product, and each day of violation of section 6302(a)(3) or (4) of this title shall constitute a separate violation.

(b) As used in subsection (a) of this section, the term "knowingly" means (1) the having of actual knowledge, or (2) the presumed having of knowledge deemed to be possessed by a reasonable man who acts in the circumstances, including knowledge obtainable upon the exercise of due care.

(c) It shall be an unfair or deceptive act or practice in or affecting commerce (within the meaning of section 45(a)(1) of Title 15) for any person to violate section 6293(d)(2)[1] of this title. (Pub. L. 94–163, title III, § 333, Dec. 22, 1975, 89 Stat. 929.)

§ 6304. Injunctive enforcement.

The United States district courts shall have jurisdiction to restrain (1) any violation of section 6302 of this title and (2) any person from distributing in commerce any covered product which does not comply with an applicable rule under section 6294 or 6295 of this title. Any such action shall be brought by the Commission, except that any such action to restrain any violation of section 6302(a)(3) of this title which relates to requirements prescribed by the Administrator, any violation of section 6302(a)(4) of this title which relates to requests of the Administrator under section 6296(b)(2) of this title, or any violation of section 6302(a)(5) of this title shall be brought by the Administrator. Any such action may be brought in any United States district court for a district wherein any act, omission, or transaction constituting the violation occurred, or in such court for the district wherein the defendant is found or transacts business. In any action under this section, process may be served on a defendant in any other district in which the defendant resides or may be found. (Pub. Part B.—State Energy Conservation Plans

Codification

This part was, in the original, designated Part C and has been redesignated Part B for purposes of codification.

§ 6321. Congressional findings and declaration of purpose.

(a) The Congress finds that—

(1) the development and implementation by States of laws, policies, programs, and procedures to conserve and to improve efficiency in the use of energy will have an immediate and substantial effect in reducing the rate of growth of energy demand and in minimizing the adverse social, economic, political, and environmental impacts of increasing energy consumption;

(2) the development and implementation of energy conservation programs by States will most efficiently and effectively minimize any adverse economic or employment impacts of changing patterns of energy use and meet local economic, climatic, geographic, and other unique conditions and requirements of each State; and

(3) the Federal Government has a responsibility to foster and promote comprehensive energy conservation programs and practices by establishing guidelines for such programs and providing overall coordination, technical assistance, and financial support for specific State initiatives in energy conservation.

(b) It is the purpose of this part to promote the conservation of energy and reduce the rate of growth of energy demand by authorizing the Administrator to establish procedures and guidelines for the development and implementation of specific State energy conservation programs and to provide Federal financial and technical assistance to States in support of such programs. (Pub. L. 94–163, title III, § 361, Dec. 22, 1975, 89 Stat. 932.)

§ 6322. State energy conservation plans.

(a) Feasibility reports.

The Administrator shall, by rule, within 60 days after December 22, 1975, prescribe guidelines for the preparation of a State energy conservation feasibility report. The Administrator shall invite the Governor of each State to submit, within 3 months after the effective date of such guidelines, such a report. Such report shall include—

The President shall submit to the Congress an annual report concerning all steps taken under subsections (a) and (b) of this section. (Pub. L. 94–163, title III, § 381, Dec. 22, 1975, 89 Stat. 939.)

§ 6362. Energy conservation in policies and practices of Civil Aeronautics Board, Interstate Commerce Commission, Federal Maritime Commission, Federal Power Commission, and Federal Aviation Administration.

(a)(1) The Civil Aeronautics Board, the Interstate Commerce Commission, the Federal Maritime Commission, the Federal Power Commission, and the Federal Aviation Administration shall each conduct a study and shall each report to the Congress within 60 days after December 22, 1975, with respect to energy conservation policies and practices which such agencies have instituted subsequent to October 1973.

(2) Each of the agencies specified in paragraph (1) shall, within 120 days after December 22, 1975, report to the Congress with respect to the content and feasibility of proposed programs for additional savings in energy consumption by the persons regulated by each such agency which have as a minimum goal a 10-percent reduction, within 12 months of the institution of such programs, in energy consumption from the amount of energy consumed during calendar 1972, including any legislative recommendations each such agency finds are necessary to achieve such goal.

(3) Each of the agencies specified in paragraph (1) shall conduct a study and prepare a report with respect to any requirement of any law administered by such agency or any major regulatory action which the agency determines has the effect of requiring, permitting, or inducing the inefficient use of petroleum products, coal, natural gas, electricity, and other forms of energy, together with a statement of the need, purpose, or justification of any such requirement or such action. Each such report shall be submitted to the Congress within one year after December 22, 1975.

(b) Except as provided in subsection (c) of this section, each of the agencies specified in subsection (a)(1) of this section shall, where practicable and consistent with the exercise of their authority under other law, include in any major regulatory action (as defined by rule by each such agency) taken by each such agency, a statement of the probable im-

pact of such major regulatory action on energy efficiency and energy conservation.

(c) Subsection (b) of this section shall not apply to any authority exercised under any provision of law designed to protect the public health or safety. (Pub. L. 94–163, title III, § 382, Dec. 22, 1975, 89 Stat. 939.)

§ 6363. Federal actions with respect to recycled oil.

(a) Purpose.

The purposes of this section are—

(1) to encourage the recyling of used oil;

(2) to promote the use of recycled oil;

(3) to reduce consumption of new oil by promoting increased utilization of recycled oil; and

(4) to reduce environmental hazards and wasteful practices associated with the disposal of used oil.

(b) Definitions.

As used in this section:

(1) the term "used oil" means any oil which has been refined from crude oil, has been used, and as a result of such use has been contaminated by physical or chemical impurities.

(2) The term "recycled oil" means—

(A) used oil from which physical and chemical contaminants acquired through use have been removed by re-refining or other processing, or

(B) any blend of oil, consisting of such re-refined or otherwise processed used oil and new oil or additives,

with respect to which the manufacturer has determined, pursuant to the rule prescribed under subsection (d)(1)(A)(i) of this section, is substantially equivalent to new oil for a particular end use.

(3) The term "new oil" means any oil which has been refined from crude oil and has not been used, and which may or may not contain additives. Such term does not include used oil or recycled oil.

(4) The term "manufacturer" means any person who re-refines or otherwise processes used oil to remove physical or chemical impurities acquired through use or who blends such re-refined or otherwise processed used oil with new oil or additives.

(5) The term "Commission" means the Federal Trade Commission.

(c) Test procedures for determining substantial equivalency of recycled oil and new oil.

As soon as practicable after December 22, 1975, the National Bureau of Standards shall develop test procedures for the determination of substantial equivalency of re-refined or otherwise processed used oil or blend of oil, consisting of such re-refined or otherwise processed used oil and new oil or additives, with new oil for a particular end use. As soon as practicicable after development of such test procedures, the National Bureau of Standards shall report such procedures to the Commission.

(d) Promulgation of rules prescribing test procedures and labeling standards.

(1)(A) Within 90 days after the date on which the Commission receives the report under subsection (c) of this section, the Commission shall, by rule, prescribe—

(i) test procedures for the determination of substantial equivalency of re-refined or otherwise processed used oil or blend of oil, consisting of such re-refined or otherwise processed used oil and new oil or additives, with new oil distributed for a particular end use; and

(ii) labeling standards applicable to containers of recycled oil in order to carry out the purposes of this section.

(B) Such labeling standards shall permit any container of recycled oil to bear a label indicating any particular end use for which a determination of substantial equivalency has been made pursuant to subparagraph (A)(i).

(2) Not later than the expiration of such 90-day period, the Administrator of the Environmental Protection Agency shall, by rule, prescribe labeling standards applicable to containers of new oil, used oil, and recycled oil relating to the proper disposal of such oils after use. Such standards shall be designed to reduce, to the maximum extent practicable, environmental hazards and wasteful practices associated with the disposal of such oils after use.

(e) Labeling standards.

Beginning on the effective date of the standards prescribed pursuant to subsection (d)(1)(A) of this section—

(1) no rule or order of the Commission, other than the rules required to be prescribed pursuant to subsection (d)(1)(A) of this section, and no law, regulation, or order of any State or political subdivision thereof may apply, or remain applicable, to any container of recycled oil, if such law, regulation, rule, or order requires any container of recycled oil, which container bears a label in accordance with the terms of the rules prescribed under subsection (d)(1)(A) of this section, to bear any label with respect to the comparative characteristics of such recycled oil with new oil which is not identical to that permitted by the rule respecting labeling standards prescribed under subsection (d)(1)(A)(ii) of this section; and

(2) no rule or order of the Commission may require any container of recycled oil to also bear a label containing any term, phrase, or description which connotes less than substantial equivalency of such recycled oil with new oil.

(f) Conformity of acts of Federal officials to Commission rules.

After the effective date of the rules required to be prescribed under subsection (d)(1)(A) of this section, all Federal officials shall act within their authority to carry out the purposes of this section, including—

(1) revising procurement policies to encourage procurement of recycled oil for military and nonmilitary Federal uses whenever such recycled oil is available at prices competitive with new oil procured for the same end use; and

(2) educating persons employed by Federal and State governments and private sectors of the economy of the merits of recycled oil, the need

for its use in order to reduce the drain on the Nation's oil reserves, and proper disposal of used oil to avoid waste of such oil and to minimize environmental hazards associated with improper disposal.

The Comptroller General shall have access to any energy information within the possession of any Federal agency (other than the Internal Revenue Service) as is necessary to carry out his authority under this section.

(c) Transmission of examination results to Federal agencies.

(1) Except as provided in subsections (d) and (e) of this section, the Comptroller General shall transmit a copy of the results of any verification examination conducted under section 6381 of this title to the Federal agency to which energy information

which was subject to such examination was furnished.

(2) Any report made pursuant to paragraph (1) shall include the Comptroller General's findings with respect to the accuracy, reliability, and adequacy of the energy information which was the subject of such examination.

(d) Report to Congressional committees.

If the verification examination was conducted at the request of any committee of the Congress, the Comptroller General shall report his findings as to the accuracy, reliability, or adequacy of the energy information which was the subject of such examination, or financial information in the case of a vertically integrated petroleum company, directly to such committee of the Congress and any such information obtained and such report shall be deemed the property of such committee and may not be disclosed except in accordance with the rules of the committee and the rules of the House of Representatives or the Senate and as permitted by law.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6384 of this title.

§ 6383. Accounting practices.

(a) For purposes of developing a reliable energy data base related to the production of crude oil and natural gas, the Securities and Exchange Commission shall take such steps as may be necessary to assure the development and observance of accounting practices to be followed in the preparation of accounts by persons engaged, in whole or in part, in the production of crude oil or natural gas in the United States. Such practices shall be developed not later than 24 months after December 22, 1975, and shall take effect with respect to the fiscal year of each such person which begins 3 months after the date on which such practices are prescribed or made effective under the authority of subsection (b)(2) of this section.

(b) In carrying out its responsibilities under subsection (a) of this section, the Securities and Exchange Commission shall—

(1) consult with the Federal Energy Administration, the General Accounting Office, and the Federal Power Commission with respect to accounting practices to be developed under subsection (a) of this section, and

(2) have authority to prescribe rules applicable to persons engaged in the production of crude oil or natural gas, or make effective by recognition, or by other appropriate means indicating a determination to rely on, accounting practices developed by the Financial Accounting Standards Board, if the Securities and Exchange Commission is assured that such practice will be observed by persons engaged in the production of crude oil or natural gas to the same extent as would result if the Securities and Exchange Commission had prescribed such practices by rule.

The Securities and Exchange Commission shall afford interested persons an opportunity to submit written comments with respect to whether it should exercise its discretion to recognize or otherwise rely on such accounting practice in lieu of prescribing such practices by rule and may extend the 24-month period referred to in subsection (a) of this section as it determines may be necessary to allow for a meaningful comment period with respect to such determination.

(c) The Securities and Exchange Commission shall assure that accounting practices developed pursuant to this section, to the greatest extent practicable, permit the compilation, treating domestic and foreign operations as separate categories, of an energy data base consisting of:

(1) The separate calculation of capital, revenue, and operating cost information pertaining to—

(A) prospecting,

(B) acquisition,

(C) exploration,

(D) development, and

(E) production,

including geological and geophysical costs, carrying costs, unsuccessful exploratory drilling costs, intangible drilling and development costs on productive wells, the cost of unsuccessful development wells, and the cost of acquiring oil and gas reserves by means other than development. Any such calculation shall take into account disposition of capitalized costs, contractual arrangements involving special conveyance of rights and joint operations, differences between book and tax income, and prices used in the transfer of products or other assets from one person to any other person, including a person controlled by[1] controlling[1] or under common control with such person.

[1] So in original. Probably should be followed by a comma.

(2) The full presentation of the financial information of persons engaged in the production of crude oil or natural gas, including—

(A) disclosure of reserves and operating activities, both domestic and foreign, to facilitate evaluation of financial effort and result; and

(B) classification of financial information by function to facilitate correlation with reserve and operating statistics, both domestic and foreign.

(3) Such other information, projections, and relationships of collected data as shall be necessary to facilitate the compilation of such data base.

(Pub. L. 94–163, title V, § 503, Dec. 22, 1975, 89 Stat. 958.)

(a) Any person who violates any general or special order of the Comptroller General issued under section 6382(a)(1)(B) of this title may be assessed a civil penalty not to exceed $10,000 for each violation. Each day of failure to comply with such an order shall be deemed a separate violation. Such penalty shall be assessed by the Comptroller General and collected in a civil action brought by the Comptroller General through any attorney employed by the General Accounting Office or any other attorney designated by the Comptroller General, or, upon request of the Comptroller General, the Attorney General. A person shall not be liable with respect to any period during which the effectiveness of the order with respect to such person was stayed.

(b) Any action to enjoin or set aside an order issued under section 6382(a)(1)(B) of this title may be brought only before the United States Court of Appeals for the District of Columbia. Any action to collect a civil penalty for violation of any general or special order may be brought only in the United States District Court for the District of Columbia. In any action brought under subsection (a) of this section to collect a civil penalty, process may be served in any judicial district of the United States.

(c) Upon petition by the Comptroller General through any attorney employed by the General Accounting Office or designated by the Comptroller General, or, upon request of the Comptroller General, the Attorney General, any United States district court within the jurisdiction of which any inquiry under this part is carried on may, in the case of refusal to obey a subpena of the Comptroller General issued under this part, issue an order requiring compliance therewith; and any failure to obey the order of the court may be treated by the court as a contempt thereof. (Pub. L. 94–163, title V, § 504, Dec. 22, 1975, 89 Stat. 959.)

PART B.—GENERAL PROVISIONS

§ 6391. Prohibited actions: unreasonable classifications, unreasonable differentiations, unreasonably disproportionate share of burdens between segments of business community.

(a) Action taken under the authorities to which this section applies, resulting in the allocation of petroleum products or electrical energy among classes of users or resulting in restrictions on use of petroleum products and electrical energy shall not be based upon unreasonable classifications of, or unreasonable differentiations between, classes of users. In making any such allocation the President, or any agency of the United States to which such authority is delegated, shall give consideration to the need to foster reciprocal and nondiscriminatory treatment by foreign countries of United States citizens engaged in commerce in those countries.

(b) To the maximum extent practicable, any restriction under authorities to which this section applies on the use of energy shall be designed to be carried out in such manner so as to be fair and to create a reasonable distribution of the burden of such restriction on all sectors of the economy, without imposing an unreasonably disproportionate share of such burden on any specific class of industry, business, or commercial enterprise, or on any individual segment thereof. In prescribing any such restriction, due consideration shall be given to the needs of commercial, retail, and service establishments whose normal function is to supply goods or services of an essential convenience nature during times of day other than conventional daytime working hours.

(c) This section applies to actions under any of the following authorities:

(1) subchapters I and II of this chapter.

(2) this subchapter.

(3) the Emergency Petroleum Allocation Act of 1973.

(Pub. L. 94–163, title V, § 521, Dec. 22, 1975, 89 Stat. 960.)

§ 6392. Conflicts of interest.

(a) Filing of written statements covering known financial interests.

Each officer or employee of the Federal Energy Administration or of the Department of the Interior who—

(1) performs any function or duty under this chapter; and

(2) has any known financial interests—

(A) in any person engaged in the business of exploring, developing, producing, refining, transporting by pipeline, or distributing (other than at the retail level) coal, natural gas, or petroleum products, or

(B) in property from which coal, natural gas, or crude oil is commercially produced;

shall, beginning on February 1, 1977, annually file with the Administrator or the Secretary of the Interior, as the case may be, a written statement disclosing all such interests held by such officer or employee during the preceding calendar year. Such

statement shall be subject to examination, and available for copying, by the public upon request.

(b) Enforcement and monitoring of filing requirements; report to Congress.

The Administrator and the Secretary of the Interior shall each—

(1) act, within 90 days after December 22, 1975, in accordance with section 553 of Title 5—

(A) to define the term "known financial interest" for purposes of subsection (a) of this section; and

(B) to establish the methods by which the requirement to file written statements specified in subsection (a) of this section will be monitored and enforced, including appropriate provisions for the filing by such officers and employees of such statements and the review by the Administrator or the Secretary of the Interior, as the case may be, of such statements; and

(2) report to the Congress on June 1 of each calendar year with respect to such disclosures and the actions taken in regard thereto during the preceding calendar year.

(c) Exemption.

In the rules prescribed in subsection (b) of this section, the Administrator and the Secretary of the Interior each may identify specific positions, or classes thereof within the Federal Energy Administration or Department of the Interior, as the case may be, which are of a nonregulatory and nonpolicymaking nature and provide that officers or employees occupying such positions shall be exempt from the requirements of this section.

(d) Penalty.

Any officer or employee who is subject to, and knowingly violates, subsection (a) of this section shall be fined not more than $2,500 or imprisoned not more than one year, or both. (Pub. L. 94–163, title V, § 522, Dec. 22, 1975, 89 Stat. 961.)

§ 6393. Administrative procedure and judicial review.

(a)(1) Subject to paragraphs (2), (3), and (4) of this subsection, the provisions of subchapter II of chapter 5 of Title 5 shall apply to any rule, regulation, or order having the applicability and effect of a rule as defined in section 551(4) of Title 5 issued under subchapter I of this chapter (other than section 6212 of this title) and subchapter II of this chapter, or this subchapter.

(2)(A) Notice of any proposed rule, regulation, or order described in paragraph (1) which is substantive and of general applicability shall be given by publication of such proposed rule, regulation, or order in the Federal Register. In each case, a minimum of 30 days following the date of such publication and prior to the effective date of the rule shall be provided for opportunity to comment; except that the 30-day period for opportunity to comment prior to the effective date of the rule may be—

(i) reduced to no less than 10 days if the President finds that strict compliance would seriously impair the operation of the program to which such rule, regulation, or order relates and such findings are set out in such rule, regulation, or order, or

(ii) waived entirely, if the President finds that such waiver is necessary to act expeditiously during an emergency affecting the national security of the United States.

(B) Public notice of any rule, regulation, or order which is substantive and of general applicability which is promulgated by officers of a State or political subdivision thereof or to State or local boards which have been delegated authority pursuant to subchapter I or II of this chapter or this subchapter shall, to the maximum extent practicable, be achieved by publication of such rules, regulations, or orders in a sufficient number of newspapers of general circulation calculated to receive widest practicable notice.

(3) In addition to the requirements of paragraph (2) and to the maximum extent practicable, an opportunity for oral presentation of data, views, and arguments shall be afforded and such opportunity shall be afforded prior to the effective date of such rule, regulation, or order, but in all cases such opportunity shall be afforded no later than 45 days, and no later than 10 days (in the case of a waiver of the entire comment period under paragraph (2)(ii)), after such date. A transcript shall be made of any oral presentation.

(4) Any officer or agency authorized to issue rules, regulations, or orders described in paragraph (1) shall provide for the making of such adjustments, consistent with the other purposes of this chapter as may be necessary to prevent special hardship, inequity, or an unfair distribution of burdens and shall in rules prescribed by it establish procedures which are available to any person for the purpose of seeking an interpretation, modification, or rescission of, or an exception to or exemption from, such rules, regulations and orders. If such person is aggrieved or adversely affected by the denial of a request for such action under the preceding sentence, he may request a review of such denial by the officer or agency and may obtain judicial review in accordance with subsection (b) of this section or other applicable law when such denial becomes final. The officer or agency shall, by rule, establish appropriate procedures, including a hearing where deemed advisable, for considering such requests for action under this paragraph.

(b) The procedures for judicial review established by section 211 of the Economic Stabilization Act of 1970 shall apply to proceedings to which subsection (a) of this section applies, as if such proceedings took place under such Act. Such procedures for judicial review shall apply notwithstanding the expiration of the Economic Stabilization Act of 1970.

(c) Any agency authorized to issue any rule, regulation, or order described in subsection (a)(1) of this

section shall, upon written request of any person, which request is filed after any grant or denial of a request for exception or exemption from any such rule, regulation, or order, furnish such person, within 30 days after the date on which such request is filed, with a written opinion setting forth applicable facts and the legal basis in support of such grant or denial. PART C.—CONGRESSIONAL REVIEW

§ 6421. Procedure for Congressional review of Presidential requests to implement certain authorities.

(a) For purposes of this section, the term "energy action" means any matter required to be transmitted, or submitted to the Congress in accordance with the procedures of this section.

(b) The President shall transmit any energy action (bearing an identification number) to both Houses of Congress on the same day. If both Houses are not in session on the day any energy action is received by the appropriate officers of each House, for purposes of this section such energy action shall be deemed to have been transmitted on the first succeeding day on which both Houses are in session.

(c)(1) Except as provided in paragraph (2) of this subsection, if energy action is transmitted to the Houses of Congress, such action shall take effect at the end of the first period of 15 calendar days of continuous session of Congress after the date on which such action is transmitted to such Houses, unless between the date of transmittal and the end of such 15-day period, either House passes a resolution stating in substance that such House does not favor such action.

(2) An energy action described in paragraph (1) may take effect prior to the expiration of the 15-calendar-day period after the date on which such action is transmitted, if each House of Congress approves a resolution affirmatively stating in substance that such House does not object to such action.

(d) For the purpose of subsection (c) of this section—

(1) continuity of session is broken only by an adjournment of Congress sine die; and

(2) the days on which either House is not in session because of an adjournment of more than 3 days to a day certain are excluded in the computation of the 15-calendar-day period.

(e) Under provisions contained in an energy action, a provision of such an action may take effect on a date later than the date on which such action otherwise takes effect pursuant to the provisions of this section.

(f)(1) This subsection is enacted by Congress—

(A) as an exercise of the rulemaking power of the Senate and the House of Representatives, respectively, and as such it is deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of resolutions described by paragraph (2) of this subsection; and it supersedes other rules only to the extent that it is inconsistent therewith; and

(B) with full recognition of the constitutional right of either House to change the rules (so far as relating to the procedure of that House) at any time, in the same manner and to the same extent as in the case of any other rule of the House.

(2) For purposes of this subsection, the term "resolution" means only a resolution of either House of Congress described in subparagraph (A) or (B) of this paragraph.

(A) A resolution the matter after the resolving clause of which is as follows: "That the _____ does not object to the energy action numbered _____ submitted to the Congress on _____, 19__.", the first blank space therein being filled with the name of the resolving House and the other blank spaces being appropriately filled; but does not include a resolution which specifies more than one energy action.

(B) A resolution the matter after the resolving clause of which is as follows: "That the _____ does not favor the energy action numbered _____ transmitted to Congress on _____, 19__.", the first blank space therein being filled with the name of the resolving House and the other blank spaces therein being appropriately filled; but does not include a resolution which specifies more than one energy action.

(3) A resolution once introduced with respect to an energy action shall immediately be referred to a committee (and all resolutions with respect to the same plan shall be referred to the same committee) by the President of the Senate or the Speaker of the House of Representatives, as the case may be.

(4)(A) If the committee to which a resolution with respect to an energy action has been referred has not reported it at the end of 5 calendar days after its referral, it shall be in order to move either to discharge the committee from further consideration of such resolution or to discharge the committee from further consideration of any other resolution with respect to such energy action which has been referred to the committee.

(B) A motion to discharge may be made only by an individual favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported a resolution with respect to the same energy action), and debate thereon shall be limited to not more than one hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(C) If the motion to discharge is agreed to or disagreed to, the motion may not be renewed, nor may another motion to discharge the committee be made with respect to any other resolution with respect to the same energy action.

(5)(A) When the committee has reported, or has been discharged from further consideration of, a resolution, it shall be at any time thereafter in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(B) Debate on the resolution referred to in subparagraph (A) of this paragraph shall be limited to not more than 10 hours, which shall be divided equally between those favoring and those opposing such resolution. A motion further to limit debate shall not be debatable. An amendment to, or motion to recommit, the resolution shall not be in order, and it shall not be in order to move to reconsider the vote by which such resolution was agreed to or disagreed to; except that it shall be in order—

(i) to offer an amendment in the nature of a substitute, consisting of the text of a resolution described in paragraph (2)(A) of this subsection with respect to an energy action, for a resolution described in paragraph (2)(B) of this subsection with respect to the same such action, or

(ii) to offer an amendment in the nature of a substitute, consisting of the text of a resolution described in paragraph (2)(B) of this subsection with respect to an energy action, for a resolution described in paragraph (2)(A) of this subsection with respect to the same such action.

The amendments described in clauses (i) and (ii) of this subparagraph shall not be amendable.

(6)(A) Motions to postpone, made with respect to the discharge from committee, or the consideration of a resolution and motions to proceed to the consideration of other business, shall be decided without debate.

(B) Appeals from the decision of the Chair relating to the application of the rules of the Senate or the House of Representatives, as the case may be, to the procedure relating to a resolution shall be decided without debate.

(7) Notwithstanding any of the provisions of this subsection, if a House has approved a resolution with respect to an energy action, then it shall not be in order to consider in that House any other resolution with respect to the same such action. (Pub. L. 94–163, title V, § 551, Dec. 22, 1975, 89 Stat. 965.)
